THE CAMPUS

Vol. V

ORONO, MAINE, OCTOBER 15, 1903

No. 2

THE CAMPUS

Published on the first and fifteenth of each month during the college year by the students of the University of Maine.

MANAGING EDITOR

ROY H. FLYNT, 1904

SCHOOL OF LAW

MARK J. BARTLETT, 1904

ATHLETIC EDITORS

FRANK McCULLOUGH, 1904

FRANK L. FLANDERS, 1905

LOCAL EDITORS

CHAS. L. LANG, 1905

FRANCIS T. CROWE, 1905

ALUMNI EDITOR

CLIFFORD G. CHASE, 1904

AMONG THE COLLEGES

WILLIAM W. KENRICK, 1905

IRA M. BEARCE, 1904,

Business Mgr.

GEORGE K. HUNTINGTON, 1905,

Asst. Business Mgr.

Terms: \$1.50 per year, strictly in advance; single copies 10 cents.

Address all business communications and make all checks payable to Ira M. Bearce, Business Manager, Orono, Me.

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

Entered at the Post Office at Orono, Me., as second-class matter.

PRINTED BY BANGOR CO-OPERATIVE PRINTING CO.

STUDENTS' DIRECTORY

Football Manager, C. G. Chase; Captain, C. L. Bailey.

Baseball Manager, T. C. Herbert; Captain, L. C. Mitchell.

Track Team Manager, Vaughan Jones; Captain, P. H. Harris.

Basket Ball Manager, R. M. Conner; Captain, V. E. Ellstrom.

Campus Business Manager, Ira M. Bearce; Managing Editor, Roy H. Flynt.

Prism Business Manager, J. H. Sawyer; Managing Editor, R. H. Flynt.

Glee Club Manager, A. D. Case; Leader, C. A. Kittredge.

TRAINS—Leave Orono for Bangor at 6.46, 8.57, 9.57, 10.52, A. M.; 12.45, 1.42, 2.46, 4.02, 7.12, 11.49 P. M.

Leave Orono for points north of Old Town at 4.05, 7.06, A. M.; 3.35, 5.14, 6.43, P. M.

Leave Bangor for Orono at 3.45, 6.45, 8.30, 11.32 A. M.; 1.15, 2.20, 3.15, 4.50, 5.30, 6.20, 11.00 P. M.

Leave Bangor for the south and west at 7.15 A. M.; 1.35, 4.40, 8.00, 12.25 P. M.

Leave Bangor for Bar Harbor at 6.00, 10.00 A. M.; 4.55, 6.00, P. M.

ELECTRICS—Cars leave Bangor at 5.30 A. M. and each half hour until 9.00 P. M.; after 9.00 P. M. on the hour until 11.00 P. M. Cars arrive at U. of M. fifty minutes after leaving Bangor. Cars pass the campus going north, 10m. of and 20m. past the hour; going south, 20m. of and 10m. past the hour.

The college library is open from 8.00 to 12.00 A. M. and from 1.30 to 5.30 P. M.

The college office is open from 8.00 to 12.00 A. M., and from 1.30 to 5.30 P. M., but only matters of special importance should be submitted during the latter hours.

EDITORIALS

ON Saturday, October 3, on Soldiers' field, Cambridge, the University of Maine football team won from Harvard 6—0, Harvard scoring the six." Thus read the *Boston Globe* of a recent date. Such a victory, for victory it must be called, is but the beginning of a new epoch in football at Maine. The full value of this initial step is inestimable; it is doubtful if it can be measured in dollars and cents. Yet, it tends to prove conclusively that in football as well as

in baseball, the smaller colleges have advanced steadily upon the larger until at the present time the height of ambition is to win rather than to lower the scores of the "big teams."

Take for illustration and comparison the game of last Saturday between Harvard and Amherst and it is evident beyond all argument that Maine's title to a touchdown was as clear as was that of Amherst. For, the Maine backs in clever tandem formation advanced the ball for forty yards down the field, each time going through Harvard's line for gains of three to five yards. Furthermore, Maine had the ball in her possession fully two-thirds of the time that it was in play. Amherst, on the other hand, was unable to keep the ball for any length of time and on no occasion was she able to gain more than three yards through Harvard's line.

That the touchdown did not come is by no means a cause for discouragement. There is a great deal of satisfaction in the showing that our team made at Cambridge, yet, there is not the least occasion for us to relax into a spirit of self-confidence which is more familiarly known by the term "swelled head." Let the credit be given to those to whom it is due; upon Mr. Farley, whose gentlemanly traits, whose untiring efforts, and whose abilities as a coach are recognized by all, upon the 'varsity men themselves, and upon the second eleven by whose strength the 'varsity is measured, shall all praise be bestowed; yet, for the rest of us there remains the duty of giving to them all our hearty support upon the field at the daily practices as well as in the regular games.

IN view of the new set of rules for the government of Oak Hall, of which a copy is printed in this issue of the CAMPUS, perhaps some comment upon them through these pages may not be out of place.

From the general tone of these rules, anyone not acquainted with the conditions as they actually exist in the Hall, might be led to believe that the inmates have, since the Spanish-American war, been living in a sort of wild state. This, however, is not the case. Neither is Oak Hall an unhealthful place in which to live as compared to the other student houses on and around the campus.

Without doubt, some of these rules will, if observed, tend to keep the corridors looking better than they sometimes do; and all right-thinking inmates of the dormitory will admit it. The rooms should be swept out early in the morning, so that the janitor can remove whatever rubbish there may be, on his regular sweeping tour. Any rule to this effect would have had the hearty support of ninety per cent. of the men in the Hall; but the manner of presenting the rules, it seems to us, was altogether unnecessary, and could have been expected to arouse nothing less than the extreme indignation which it has.

If those in charge of Oak Hall have any reason to disapprove of the condition of any room or any number of rooms in the building, there is not and never has been anything to prevent them from exercising their authority — just as much authority as is at their command for the enforcement of these new rules, and any student who did not choose to put his room in proper order could have been as easily induced to reform by a private conversation as by a public threat.

There are men in Oak Hall who take pride in the appearance of their rooms, though from the nature of these rules this might not be inferred; and it would seem hardly necessary or fair to put these men under rules which imply utter lack of pride and self respect on their part.

DEPARTMENT OF FORESTRY

A department of forestry has been established at the University of Maine this fall, in accordance with the provision of the last legislature. It is in charge of Prof. Samuel N. Spring, a graduate of Yale and the Yale Forest School, who has been in the employ of the U. S. Bureau of Forestry since his graduation at the latter. The announcement of courses required from those who choose it for a major subject has just been made. In addition to general botany, which is required, the technical instruction includes the following courses:

General forestry: A general course covering the whole field in a brief and broad manner. Three hours a week, fall term.

Forest botany: Covering the field of tree life from a botanical standpoint. Accompanied by field excursions for the identification and classification of trees, and by microscopic work on the tissue systems of woody plants. Two hours a week class room, and four hours a week field and laboratory work, fall and spring terms.

Silviculture: A study of the facts which concern forest growth, in its practical and economic relations. Accompanied by laboratory work and practical work in thinnings. Two hours a week class work, fall and spring terms, and four hours a week in the spring, laboratory and field work.

Forest measurement: A course in theoretical and practical determination of the rate of growth of trees, and of the amount of timber in trees, and tracts of forest. Two hours a week class room, and five hours a week field and laboratory work, fall term.

Lumbering: A lecture course on history of lumber operations and description of methods in various sections of the country. One hour a week, fall term. Those who take this course are obliged to spend two weeks in some lumber camp, and to submit a report upon the method of lumbering employed there.

Forest management: A brief survey of different methods, viewed from economic and financial standpoints, including the principles

of working plans and their preparations. One hour a week, spring term.

* * *

REGULATIONS FOR OAK HALL

1. Each study room will have a room orderly who is held responsible for the cleanliness of his room and the adjacent hall.

2. Each sleeping room will also have an orderly who will be held responsible for the cleanliness and proper ventilation of same. He is also responsible for the cleanliness of the adjacent hall.

3. Room orderlies will be on duty for one week from 8 A. M. Sundays. The first for detail will be the first alphabetically by name. The next alphabetically will be room orderly the second week, and so on.

4. Room orderlies will place a card on the door, showing name and the words "Room Orderly" written beneath.

5. Room orderlies will remove all sweepings and rubbish of any kind and place same in the hall between 5 and 8 A. M. They will be responsible that no sweepings or rubbish be placed in the hall except between the hours above stated.

6. Beds will be made up by 8 A. M. each day by the occupant of the same. Each bed will be marked in a conspicuous place with name of occupant.

7. Room orderlies will report all violations of these regulations to the Hall Inspector. They will report any students who bring any improper articles into the building as well as any and all damage done to the building.

8. The janitor will be held responsible for the cleanliness of the halls and lavatories in so far as a proper daily sweeping and cleaning is concerned. He will not begin sweeping until 8 A. M. each day.

9. The Hall Inspector will be detailed by the Commandant of Cadets for such period as he may designate.

10. The Hall Inspector will carefully inspect the sleeping rooms, halls and lavatories each day and will report to the Commandant of Cadets all violations of these regulations.

MILITARY RULES

At a meeting of the faculty held Monday, Oct. 12, the following military rules were adopted:

1. Freshmen and sophomores shall be required to take the work of the military department. Members of the junior and senior classes who elect work in military department shall be required to attend all exercises as prescribed by the professor of military science and tactics and shall be allowed three hours' credit therefor.
2. Any student absent from more than one military exercise in any period of two (2) weeks shall be required to make up the time lost by such extra exercise as may be directed by the professor of military science and tactics.
3. Any student who fails to make up time lost by extra drill or exercise as imposed in the preceding paragraph is suspended from all college work, and such suspension shall remain in force until arrangements are made for making up the work to the satisfaction of the professor of military science and tactics.
4. Women students shall be excused from all work of the military department, and on petition to the faculty the following students shall be excused:
 - (a) Members of the musical organizations when holding rehearsals of at least as great a number as the required drills. A weekly report of attendance at rehearsals must be returned to the secretary of the faculty.
 - (b) Men in training for the track, football and baseball teams. A weekly report of attendance shall be returned to the secretary of the faculty by the physical director.
5. Officers and non-commissioned officers shall be appointed at Commencement for the year following.
 - (a) Students excused from military work in 4 (a) and (b) above are thereby dropped as officers or non-commissioned officers.
 - (b) The military committee with the approval of the President shall be authorized to fill vacancies. [Adopted.]
6. The time devoted to the military department shall be five hours in addition to minimum

of other college work, with the exception of the case of seniors and juniors.

CANDIDATES FOR FRATERNITIES

The following is the list of men pledged to the different fraternities at the present time:

BETA THETA PI

E. D. Brawn, '06, Dexter; J. G. Wallace, '06, Portland; W. N. Haines, '07, Dexter; W. L. Sturtevant, '07, Bangor; S. M. Bird, 2nd, '07, Rockland; J. L. Lowell, '07, Bangor; E. W. Philbrook, '07, Milan, N. H.; H. G. Philbrook, '07, Shelburne, N. H.; B. U. Seigel, '07, Salt Lake City, Utah.

KAPPA SIGMA

H. Lunt, '07, Lewiston; G. L. Wildes, '07, Skowhegan; J. K. Goodrich, '07, Skowhegan; R. Ridge, '07, Portland; R. E. Clayton, '07, Bangor; A. W. Totman, '07, Fairfield; G. A. Dennison, '07, Freeport; W. E. Farnham, '07, Canaan.

ALPHA TAU OMEGA

J. W. Emmons, '07, Biddeford; J. Galland, '07, Biddeford; E. B. Davidson, '07, York Ville; J. H. Burleigh, '07, So. Berwick; E. A. White, '05, Orono; B. F. Williams, '07, Islesboro; F. P. Hosmer, '07, Rockland.

PHI KAPPA SIGMA

G. R. Anthony, '05, Scotland, Conn.; W. E. Stone, '07, So. Brewer; H. C. Stetson, '07, Auburn; P. L. Swift, '07, Norway; L. D. Keene, '07, Norway; L. J. Reed, '07, Berlin, N. H.

PHI GAMMA DELTA

C. E. S. Burns, '07, Fort Fairfield; T. F. Bye, '07, Kennebunk; A. B. Brown, '07, Camden; W. A. Hall, '07, Rockland; G. E. Hayward, '07, Winthrop; S. F. Hilliard, '07, Oldtown.

SIGMA ALPHA EPSILON

L. C. Nichols, '06, Saco; W. M. Black, '07, Beverly, Mass.; R. R. Lambe, '07, Calais; R. F. Talbot, '07, Andover.

SIGMA CHI

E. J. Wilson, '06, Lynn, Mass.; E. K. Wilson, '07, Portland; A. Iverson, '07, Portage

DETA SIGMA

Misses M. F. Powell, '05, Orono; M. Balentine, '07, Orono; M. C. Mansfield, '07, Orono; M. L. Knight, '07, No. Bridgton; H. K. Webb, '07, Bridgton; M. B. Colcord, '07, Searsport.

MAINE NIGHT

With stirring speeches, rousing cheers and appropriate songs Maine Night will be fittingly celebrated Friday evening, Oct. 16.

After two years of success Maine Night has found a place in the annual events, and has become a permanent institution. In other years this occasion has been successful but this year bids fair to outrival all former attempts. As a breeder of true Maine spirit and enthusiasm Maine nights have been especially fruitful and on Friday night plans have been laid to make the occasion one of the most satisfactory that has been heretofore held.

The committee which consists of Prof. O. F. Lewis, chairman, R. M. Conner, C. G. Chase, G. K. Huntington and Geo. Carle are sparing no pains in attending to all arrangements and everything promises to go off Friday night with a snap.

Hon. L. C. Southard of Boston will be chairman and the following speakers will be heard: President Fellows, Hon. John M. Oak of Bangor, George E. Thompson, for the alumni, Coach John W. Farley, the football team and G. K. Huntington for the student body.

The Glee and Instrumental clubs will be on hand for two selections and songs prepared especially for the occasion will be rendered. Professor Estabrook has promised to read an original poem that is sure to be appropriate, and Mr. Palmer will sing a solo. The program will be interspersed with music by Pullen's orchestra of Bangor which will also furnish music for the dance which will close the evening's program. A special feature of the even-

ing will be the cheering which is now under organized form and will be in charge of Leader Hopkins, assisted by McClure and Kittredge. It is said that some brand new ones are forthcoming.

The exercises will commence sharply at 7.30 o'clock and a special car will leave for Bangor at 11.45 after the dance.

VALUABLE PRIZES

The prizes awarded to the winners of the Olympic championships at the Exposition at St. Louis next year will be the most valuable ever competed for by amateurs in any part of the world. The regular Olympic medals that will be given to those finishing first, second and third in each event will be of the standard value allowed under the laws of the Amateur Athletic Union of the United States, and besides these regular prizes special value cups are to be presented to the winners. One of these special prizes will be a silver cup offered by President Francis to the winner of the Marathon road race. At Athens in 1896 the Marathon race was won by a Greek, S. Loues, in 2 hours, 55 minutes and 20 seconds. The second race, at the Paris Exposition in 1900, was won by M. Teats, a Frenchman, in 2 hours and 59 minutes. America has many good men who are good at intermediate distances, but owing to the few long running races in this country, Americans do not make a specialty of long distance running, which requires a great deal of training and hard work. Chief Sullivan, of the Exposition, hopes that the United States will be well represented in the Marathon road race next year.

LOCALS

"Where are the peanuts?"

Now it is the "Barracks," — no longer Oak Hall.

Scott Livermore, ex-'04, visited friends on the campus last week.

S. G. Small, '03, was visiting friends on the campus, this week.

The students greatly appreciate having the library open evenings.

Eugene Gilbert, '01, who is employed at Lake Onawa, was on the campus last week.

The Gamma Chapter of Delta Sigma held a most enjoyable dance at the Mt. Vernon House, Friday evening, Oct. 9.

A number of junior civil engineering students are making a thorough survey of the college farm for Professor Hurd.

The engagement of Miss Margaret Cousens, of Rumford Falls, to Benj. F. Larrabee, of the senior class, is announced.

Many students are taking advantage of the beautiful weather to make numerous hunting trips into the neighboring woods.

Candidates for the cadet band were called together at 4.30 Monday, Oct. 5. About 15 men responded, the most of whom were from the entering class.

Anyone who has done any original drawing and would like to draw for cuts in the 1905 *Prism* will please see F. T. Crowe at once and have subjects assigned.

On Friday evening, Oct. 2, the Gamma Chapter of Delta Sigma held a very pleasant reception in the Mt. Vernon House in honor of Mrs. Reynolds, its new matron.

At a special meeting of the executive committee of the Athletic Association held Oct. 5, John A. McDermott was elected manager of the baseball team for the season of 1904.

In a short college meeting held Oct. 7, Coach Farley gave another short but spirited talk on the necessity of showing enthusiasm and spirit in order to secure the best results.

The sophomore class has elected the following officers for the ensuing year: President, F. Banks; vice president, C. W. Campbell; secretary, R. E. Lord; treasurer, L. C. Nichols.

Professor H. S. Boardman has been making

arrangements for plans in civil engineering work in grading and road building on the Dorothea Dix park in Hampden.

C. L. Bailey and E. F. Bearce attended the Colby—Kent's Hill game at Waterville last Saturday, while Coach Farley and P. L. Bean attended the Bowdoin—Exeter game at Brunswick.

The treasurer of the Athletic Association reports a very good showing in the way the students are subscribing for athletic dues. At present over three hundred names have been secured.

Owing the stormy weather, Monday, Oct 5, military drill was held in the gymnasium, for the first time this fall. The battalion has increased in size so that floor space is afforded for but two companies.

Edward R. Mansfield, '99, has left for New York where he will take a course in Cornell University. Mr. Mansfield, for the past few years, has been employed in the Experiment Station as assistant chemist.

A large number of the students will doubtless attend *Thelma*, a dramatization of Marie Corelli's famous book of that name which will be given in Bangor, Saturday evening, October 17. If we win from Colby, everybody turn out.

The following are registered in the new school of agriculture established this fall in the University and which opened Tuesday, Oct. 13: C. L. Garland, Bangor; H. C. Black, Winthrop; H. B. Bailey, Biddeford; M. H. Wakefield, Biddeford.

In accordance with a request by the committee of arrangements on Maine Night, the fraternities will, this year—for the first time in the history of the college—hold their initiations on Saturday night, Oct. 17, following Maine Night, the candidates whose names appear in another part of this issue will be initiated into the various fraternities. We could well afford to make this custom a permanent one at the University of Maine.

Prof. H. M. Estabrook was in attendance at the convention of the South Aroostook Teachers' Association, held at Island Falls, Thursday and Friday, October 15 and 16. Thursday evening Prof. Estabrook delivered an address, by request, on Some Characteristics of Poetry.

At a meeting of the senior class, held Oct. 8, the following officers were elected: President, Clifford G. Chase; 1st vice president, R. T. Hopkins; 2d vice president, Philip Dorticos; secretary, R. H. Flynt; treasurer, Conner Perkins. A. C. Jordan was elected representative member to the Student Council.

At a meeting of the faculty, held Monday, Oct. 12, it was voted to add a course in preparatory Greek to the regular course of instruction. Up to this time the University of Maine has been handicapped in that no course in preparatory Greek has heretofore been offered, while in the other Maine colleges this course has always been given. The course will be two years.

Librarian Jones will give a lecture in the chapel, Thursday morning, 8.45 o'clock, on The Library and its Use. This lecture will be a required exercise for all new students except those who have been in attendance at other colleges, and will have precedence over all regular studies coming on this hour. Two more lectures will be given this term for new students, one on classification of the catalogue and the other on reference books and their use.

Editor Flanders of the 1905 *Prism* has chosen a competent board of associate editors in the following: R. R. Drummond, Miss Marion B. Wentworth, W. W. Kendrick, A. W. Collins, H. O. Beale. Other members of the board are: G. K. Huntington, manager; Harvey McClure, assistant business manager; F. T. Crowe, artist. They promise that the 1905 *Prism* will be a winner. The representative of the School of Law has not been appointed as yet.

The 'varsity football team and substitutes, accompanied by Coach Farley and Manager Chase, left for Boston on the 8.00 o'clock train, Thursday night, Oct. 1, returning on the early

train Sunday morning. The showing made against Harvard was entirely satisfactory and far better than any supporter dared hope. While in Massachusetts the team put up at Auburndale. The following men, 17 in number were taken: Bearce, Reed, Taylor, Bailey, Collins, Ricker, Knowles, Learned, Wood, Sawyer, Bean, Shaw, Thatcher, Parker, Banks, Kingsland, Downing.

At a regular monthly meeting of the executive committee, held Monday evening, Oct. 12, business of interest to the college at large was transacted. In accordance with the demand heard throughout the fall for a competent cheering staff the committee has chosen the following: Leader, R. T. Hopkins; deputies, McClure and Kittredge. The matter of having a large college pennant made, proper to use both at football games and for decorative purposes, was brought up and voted upon favorably. A letter was read from the chief of physical culture of the St. Louis Exposition inviting the college to send a trophy that is prized to be placed on exhibition in the Trophy hall. It was voted to send a trophy and the selection was left to a committee composed of R. H. Flynt, C. G. Chase, R. K. Jones.

LOST, STRAYED OR STOLEN

Two bushels of superfine, double jointed, California, Catell peanuts; in sound condition and roasted extra nice. When first noticed were resting peacefully in a store on Hammond street and were supposed to have been purchased by freshmen in payment of one complete course in How to Play Baseball, given by members of the sophomore class in a game played on the campus during the fall of 1903. The peanuts have not since been seen, but their appearance is eagerly anticipated. Any information which will lead to the apprehension of the person or persons having said nuts in their possession will be gratefully received by the members of the class of 1906, University of Maine.

ALUMNI

'99

Walter J. Morrill is attending the Yale Forestry school. During the past summer he was in the employ of the U. S. Bureau of Forestry which was making a survey of a large tract of timber in the mountains of southeastern West Virginia.

'02

H. E. Cole and C. E. Watts have opened an office in Pittsburg, Pa., under the firm name of Watts & Cole, mechanical and electrical engineers; mining engineering a specialty. Address 1200 Westinghouse Building.

Miss Genevieve Boland is one of the teacher at Potters academy, Sebago.

'03

E. L. Baker telegraph operator at Scarborough Beach station, Maine Central R. R.

Miss C. M. Carr, teacher of German in Oldtown High school.

R. F. Chandler is at present at his home in New Gloucester, Mass.

N. A. Chase, chemist for the Westinghouse Air Brake Co., Turtle Creek, Pa.

L. M. Coffin, teacher of mathematics at military academy in New York.

Fred Collins, employed at civil engineering work for the Berlin Mills Co., Berlin, N. H.

R. M. Conner, instructor in mathematics at the University of Maine. Address, Orono.

E. L. Cowan, employed in prescription department Sweet's drug store, Bangor.

L. B. Crabtree, at home in Hancock, engaged in business with his father.

R. C. Davis, address, 187 44th street, Pittsburg, Pa.

S. C. Dinsmore, assistant in Experiment Station, Orono.

Carlos Dorticos, in the employ of the General Electric Co., Providence, R. I.

W. C. Loud is at present with a surveying party on the West branch of the Penobscot river.

J. H. McCready has entered the testing department General Electric Co. at Schenectady.

R. E. Mullaney, employed at civil engineering work in Bangor.

S. E. Patrick is one of the instructors in the Manual Training school, Portland.

E. A. Porter is employed on the government fortifications at Fort Andrews, Boston harbor.

H. V. Sheahan, assistant roadmaster, Maine Central R. R. Address, Brunswick.

P. D. Simpson, instructor in civil engineering at the University of Maine.

L. G. Small, employed at People's drug store, Winthrop, Mass.

H. M. Soper, tutor in chemistry at the University of Maine.

C. W. Stone is at present in Wollaston, Mass. Occupation unknown.

A. R. Towse, employed in the engineering force of the Maine Central R. R. Address, Wiscasset.

I. E. Treworgy, principal of High school, Mount Desert.

W. N. Dyer, engaged in general civil engineering work at Bar Harbor.

S. J. Foster is in the employ of H. H. Hay & Son, druggists, Portland.

G. L. Freeman has a position as draughtsman at Milton, N. H.

A. W. Gage, draughtsman for bridge company, Canonsburg, Pa.

B. W. Goodwin has a position as superintendent of construction work at Ridlonville.

S. P. Graves, entered Harvard Law school.

P. H. Harris has entered the testing department General Electric Co. at Schenectady.

E. G. Hartford, employed on sewer system, Readville, Mass.

J. H. Hilliard has entered Harvard Law school.

A. L. Hoyt, in the employ of H. H. Hay & Son, druggists, Portland.

R. H. White, draughtsman for the Chapman Valve Co. Address, Indian Orchard, Mass.

H. D. Whitney, traveling chemist for Lichtenstein Dye Works, New York. At present traveling in the South.

M. C. Wiley, employed in the construction department of the Illinois Steel Co. Address, 487 La Salle avenue, Chicago.

PROF. HARRINGTON HONORED

Prof. Karl P. Harrington, director of the Bangor festival chorus, the Mendelssohn club, and other musical organizations in Bangor and vicinity, who was chosen to serve as musical expert to the committee on the proposed shorter hymnal of the Methodist Episcopal church, has just received an appointment as the sole adviser to the joint commission of the Methodist Episcopal and the Methodist Episcopal Church South, which is engaged in the preparation of the new revised common hymnal for American Methodism.

As the combined Methodist churches, with their 7,000,000 communicants, are the largest Protestant body in America, this is a very important appointment and adds another great honor to those already conferred upon Prof. Harrington. To fix the tunes sung in worship by not less than 15 or 20 millions of people, is a matter of great delicacy and one destined to exert an inestimable influence upon the musical standards and tastes of the next generation.

A meeting of the Commission will be held in Washington, D. C., during the Christmas holidays.

SCHOOL OF LAW

The University of Maine School of Law opened Wednesday morning, Oct. 7, at 9 o'clock, for the registration of new students for the term

and from that time until late into the afternoon, Dean Walz and his assistants were kept busy answering questions and making preparations for the formal commencement on Friday.

The number of students enrolled in the School, thus far this fall, is greater than last and this number will be increased by old men who are at present teaching and who will later return, and by new men who have signified intentions of entering the School later.

Most of the old students are back and this is particularly gratifying to the officials for it shows that the men are coming to appreciate more and more the value of the School as a law institution.

Recitations did not begin until Friday morning but the instructors of the school met the new students on Thursday morning to talk over the studies and make other arrangements for the coming year. The upper classmen do not have to report until late in the week.

The faculty this year will be the same as last with the addition of Prof. E. D. Lorenzen of New York and E. C. Donworth, Esq., of Bangor. Prof. Lorenzen comes to the School highly recommended and he will be a decided acquisition to the faculty. Mr. Donworth is one of Bangor's younger attorneys and his appointment to an instructorship in the faculty meets with general approval from all friends of the School. C. Vey Holman, Esq., will not be a member of the faculty this year, having accepted a position on the faculty of Boston University Law school.

During the year it is intended that a course of lectures by well-known authorities will be given before the members of the School. The list this year includes Gen. Charles Hamlin who will give lectures on Bankruptcy and Federal Procedure; Associate Justice L. A. Emery on Probate Law and Practice, and Hon. L. L. Southard of Boston on Medico Legal Relations. Chief Justice Andrew P. Wiswell is expected to lecture on evidence sometime during the year. C. Vey Holman will give his lectures on Mining Law at the Law School during the school year of 1904-05. The practice court will open about Nov. 1.

By a vote of the faculty the following regulation has been adopted by the school, and its provisions will be strictly adhered to:

"The faculty will not hesitate to drop a student from the list of candidates for the degree after it considers a student disqualified either through wilful neglect or from manifest incapacity to grasp the subject."

Two meetings of importance were held at the rooms of the University of Maine School of Law Monday afternoon, Oct. 12, that of the Jefferson Democratic Club and of the junior class. Officers were elected and other important business transacted.

At the meeting of the Jefferson Democratic Club the officers were: A. S. Crawford, president; C. C. Robinson, vice president; Leon G. C. Brown, secretary; G. W. Pike, treasurer; and O. L. Keyes, E. F. Littlefield and L. B. Swett composed the executive committee. H. H. Lord, press representative.

The officers of the junior class, as elected Monday afternoon, were: J. T. Winslow, president; O. L. Keyes, vice president; A. S. Crawford, secretary; E. F. Littlefield, treasurer; and Leon G. C. Brown, C. C. Robinson and O. L. Keyes, executive committee. It was voted to accept the challenge of the freshmen for a baseball game and A. S. Crawford was elected captain.

* * *

AMONG THE COLLEGES

The University of West Virginia has a new \$100,000 library.

The class of 1905 at Tufts has decided to issue no college annual this year.

Colgate has granted a "C" to the members of the basketball team for the past season's work.

University of Pennsylvania has been admitted to membership of the Intercollegiate Basketball Association.

Exeter defeated Bowdoin last Saturday by a score of 18-0. Harvard defeated Bates by a score of 23-0.

At Bowdoin the "Chapel Rush" has been abolished, and the "first morning rush" is a thing of the past.

Bowdoin has followed the steps of Maine in adopting the custom of holding a "Bowdoin night." September 25 was set as the date for the first Bowdoin night.

Ninety new students have registered at Bowdoin this fall. The entering class numbers seventy-three members, the largest freshman class in the history of the college.

Bates has a giant guard in Baldwin, '05, who weighs 220 pounds. In 1900 and 1901 he played centre on the 'varsity but has been out of college for the past year.

While putting some freshmen through a few "stunts," a crowd of Bowdoin students were attacked by a crowd of town "yaggers." The collegians "rushed" and put the yaggers to flight.

Harvard was defeated by Amherst for the third time on Soldiers field, the score being 5-0. In '95 Pennsylvania defeated Harvard on Soldiers field and in '96 Princeton also did the same trick.

Ryan, Bowdoin's fullback, was taken to the Maine General Hospital after the Bowdoin-Exeter game, with a badly injured spine, and is expected to be out of the game for the rest of the season.

In his annual report President Butler of Columbia University declared that ten million dollars would be needed to carry out the plans of the university. Among the buildings needed are a college hall, a law school and science buildings.

A HARVARD DISASTER

**Maine Gives Harvard Supporters a Shock---Nichols, by an End Run,
Scored Only Touchdown---Virtually a Defeat for Crimson Eleven**

Six points—a single touchdown and goal from touchdown—was all that Harvard could score against the University of Maine in the football game on Soldiers field, Saturday afternoon, October 5. It was virtually a victory for the team that Farley, ex-head coach of Harvard, has turned out up in the Pine Tree State.

In the first half the visiting team took the ball from its own 44-yard line to Harvard's 25 line, where it was held for downs by Harvard. Cutting out the end runs which Harvard made in the first half, the Crimson eleven had distinctly the small end of it. In rushing through the line Maine made an actual gain of 31 yards, while Harvard's total through the line was only 22. In the second half Harvard carried the ball through the line for 40 yards and Maine for 18.

It was a tandem formation, with which Maine did the business. The three backs were lined up one back of the other, and they alternated in taking the ball, making it hard to find the man who had it on each rush. With this formation they found Harvard's line just to the right of center weak, and they worked on this point for all they were worth. Several times the left side of the line was tried, but here the play was not so successful.

Besides this Maine made two fair gains on having the man receiving the ball from center run with it. The quarterback made four yards on this play and the right halfback five.

The showing made by Maine in the first half made the Harvard supporters tremble for it was the first time this season that Harvard's line has been shaken.

More than 4000 spectators saw the game, and they were very enthusiastic. Maine had a noisy bunch of loyal supporters on the east end of the north stand, who cheered their favorites from

start to finish. It was a comfortable afternoon for the spectators, but just a trifle too warm for the players.

The game was hard fought by both elevens. At times there was a display of unnecessary roughness, but this was not indulged in by one side more than the other, and there were no protests made by the players.

Harvard won the game in the first two minutes of play, rushing the lighter Maine team off its feet. On three plays Harvard carried the ball from her own 32-yard line across the goal.

Don Nichols, who has been the light of the backfield, again did the trick. He made the touchdown on a 58-yard run around the end. He received the ball for an end run, but Taylor, Maine's left end, broke up his interference, and tackled Nichols around the neck. Nichols tore away from him, and a new interference was formed for him and piloted him clear of the bunch, giving him a clear field for a touchdown. When he got clear two Maine men started in hot pursuit, but they were disposed of by Hurley.

Both teams played a rushing game. Harvard did not punt in the entire game, though she should have kicked once in the first half. Maine confined her plays entirely to the center of the line, and there shoved men through between center and rightguard. Harvard tried the ends and tackle plays more, and it was there that she made her best gains. Through the center Harvard's gains were mostly very short.

The interference on end runs was quick in forming and kept the runner safe from the tacklers. Beside making his 58 yards around the end for Harvard's touchdown, Nichols got clear for 30 yards at another time, and Hurley made good gains behind good interference. On the kicks Maine made a good fast interference.

and that was the only place she had one.

Harvard's backs worked together well on the offence, but on the defence did not back up the line effectively. Nichols and Hurley made a speedy combination with Hanley at fullback. Mills was put at fullback in the second half, and he put up a good game. He was good in interference and hurdled the line well.

The Harvard line, except in one instance, made good holes, and played a good game on the offensive.

Maine took the ball from Harvard once on downs in the first half, and Harvard took it back after Maine had reached the Crimson's 25-yard line. The only time during the game when the ball was inside the 25-yard line was when Nichols made his touchdown. Harvard was penalized once for offside play. This was the only penalty inflicted.

Noyes was quarterback on Harvard, and he did not run his team anywhere near up to Capt. Marshall's style. He was slow in getting his plays away, and in the first half almost lost the ball for Harvard. Parker punted to Noyes and the ball did not reach him. Instead of falling on the ball—the first principle of Harvard football—he tried to pick it up and missed it. Luckily Bowditch was on hand and gathered the pigskin in. Two Maine men were with the ball, and had either picked it up would have been good for a touchdown.

In the absence of Marshall Peter Bowditch ran the eleven. He received a cut in the head at the opening of the second half and had to retire. He was given a good sendoff by those in the grandstand as he left the field. Montgomery took his place. The other changes on Harvard were at leftguard, where Robinson replaced Shea in the second half, and Hanley was replaced at fullback by Mills, who in turn was replaced by Harrison.

The only change on the Maine eleven was at fullback, where Shaw took Bearce's place toward the close of the game. Bailey ran the Maine team in good style and outgeneraled Noyes. All Maine's three backs did good work, but Thatcher showed up a little better than his colleagues. The summary:

Score—Harvard, 6. Touchdown—Nichols. Goal from touchdown—Noyes. Umpire—Reggie Brown, Harvard. Referee—Jack Hallowell, Harvard. Timer—Fred Wood, B. A. A. Linesmen—Barrows of Maine and Motley of Harvard. Time—12m and 10m periods.

NOTES

Quarterback Bailey of the Maine eleven outgeneraled Noyes, Harvard's quarterback. The latter was slow in running off his plays and in selecting his plays used poor judgment, besides making a very poor showing in the handling of the ball. Harvard did not attempt any new formations, having about all she could handle with the simple formations. She could not use tackle formations because she never got inside Maine's 25-yard line, excepting when Nichols made his long run for a touchdown. Maine used her backs in a tandem formation, which rather puzzled the Harvard tacklers in locating the man with the ball. She also used a play in which the man receiving the ball from the center ran with it, as is allowed under the new rules. She was not successful in making any gains with this play.—*Transcript*.

Yale was the only member of the big four to run up a large score on Saturday. Harvard and Princeton went up against Tartars.—*Boston Herald*.

Maine had an offense different from anything Harvard had encountered this year and as a result she made gain after gain before the Crimson backs could stop up the holes and withstand the rush. But they finally

solved it and had begun to make progress against the Orono team when time was called.

The Harvard team certainly learned a lesson of one kind of offense from the Maine team and it is safe to say the score would be far different if another team having Maine's ability should try the same system of attack on Harvard.

It takes a man like Mr. Farley, last year's head coach of Harvard, to go down to the University of Maine and prepare them to fight Harvard at her own most approved tactics. Such sport is coming to cost a great deal of money, but, if we estimate the amount of joy there must have been at the little Maine college town on Saturday night, it is not possible to say off-hand that they have not received in full measure what they paid for.—*Boston Transcript*.

In contrast to the account of the Harvard—Maine game of 1903, is the following story of the game of these two teams played in 1902, printed in the *Globe*:

"Harvard with very few of her first string of men on the field, defeated the University of Maine team yesterday, 22 to 0. The Maine team did not come anywhere near up to what had been expected of the champions of the Pine Tree State, and Harvard's substitutes put up a much better game than did the regular men against Amherst last Wednesday.

The Maine team was light and did not have any formation which could puzzle the Harvard defence. It won the first down several times, although not consistently enough to ever threaten the Harvard goal line. On the defensive it put up a shady game and once took the ball away on downs, but towards the end of the game the line weakened and Harvard gained almost at will."

The football captains of the different colleges are as follows: Harvard, C. Marshall; Yale, Rafferty; Dartmouth, M. E. Witham; Brown, H. R. Webb; Amherst, J. H. Biran; Cornell, Hunt; Tufts, C. E. McMahon; Williams, N. H. Peabody; Bowdoin, Beane; Bates, Reed; Colby, Pugsley; Maine, C. Bailey.

MAINE 2nd, 0; BANGOR HIGH, 0

While the big team was battling with Harvard at Cambridge, the second team was having its own troubles down at Maplewood park with Bangor High school, which it played to a standstill. While the Bangor lads were of lesser weight they more than overbalanced this defect by putting ginger and life into their playing, their dogged persistency keeping the collegians from tallying.

Both teams had plenty of supporters as men who were unable to go to Cambridge did the next best thing and attended the game at Maplewood. A crowd of some 400 persons saw the contest and it was agreed that it was the most hotly contested and most fiercely played game that has been seen at Bangor for some time. The weather was perfect for the spectators, but a little warm for good football, yet the men got into the game with a dash and spirit which is not often seen with the thermometer at early September height.

Every man on the Bangor team played to his limit, and that is all that saved the team from defeat. Capt. Toole played a star game, and broke up the Maine interference in good style. Rogan played a great game at quarter, and several times saved a touchdown by timely tackles in the backfield. Marsh did great work, and though bowled over by the heavy interference kept after his man all the time. Every man in the line played well and blocked Maine's fierce rushes at center.

For Maine, Gilmore did most of the work in the backfield, carrying the ball well, breaking up Bangor's interference and often getting the man with the ball. Matheas played a star game at tackle, and stopped many end runs around his side of the line. The Maine team played very fast football at times, but there was much fumbling which seemed inexcusable.

Bangor kicked off to Talbot, who made 10 yards before being downed. Several short rushes netted about 20 yards, and then Maine was penalized for persistent offside playing, and as they could not make up the distance the ball went to Bangor on downs. Bangor made first down once by tackle plays, then they were

smothered by Maine's weight and the ball went to Maine again.

The ball changed hands repeatedly, though remaining in Maine's territory most of the time, then near the end of the half Maine got the ball and carried it down the field, by straight rushes and end runs, to Bangor's 8-yard line, when time was called.

Maine kicked to Rogan who made five yards. Bangor was held for downs at once. A kick was tried but a poor pass resulted in a fumble, and Maine got the ball and 6 yards besides. Rushes by Gilmore and Talbot carried the ball to Bangor's 12 yard line where it was lost on a fumble.

Bangor carried the ball down the field for 18 yards, and were then held. A kick was tried on the second down, but another poor pass resulted in a fumble. Another kick was tried and the same thing occurred, the ball going back 20 yards and giving Bangor first down. Bangor immediately kicked to get the ball out of its dangerous proximity to the goal, Robinson sending the ball out of bounds on Bangor's 40-yard line.

Now Maine got in her best work of the day, and rushed the ball straight up the field to Bangor's 3-yard line, but the time was too short, and the game ended with the ball in Maine's possession where another rush would have carried it over.

The lineup:

BANGOR H. S.	U. OF M. 2D
Marsh, l e	r e, Harvey
Grady, l t	r t, Matheas
Buck, l g	r g, Stone
Withee, c	r, Lowell
Talbot, r g	l g, Bearce
Hodgkins, r t	l t, Emmons
Hardy, }	l e, Burley

Rogan, q b	q b, Kingsbury
Abbott, l h b	r h b, Crowe
Toole, r h b	l h b, Gilmore
Robinson, f b	f b, Talbot

Referees and umpires—Bradford, U. of M.; White, Bangor. Linesmen—Stetson, Bangor; Alexander, U. of M. Timers—Conner, U. of M.; Ball, Bangor. Time—15 and 10 min. halves.

MAINE VS. COLBY

The football game between the University of Maine and Colby which will take place on Saturday afternoon, Oct. 17, will be in the nature of a side attraction for Maine Night and will probably be witnessed by many of our alumni. This game is looked upon by those who have been following football this fall to be one of our hardest games. Colby has a good team. She has some veteran men who are all right and some new ones who will shine this fall, and Maine will be obliged to put forth the same spirit and energy that she exhibited against Harvard if she expects to win. Some of the supporters look upon this game as something which will be easy. This isn't so. Colby will come to Orono resolved to make the biggest fight possible and we have got to counteract this spirit if we win. The team has been putting forth its best efforts this week under Coach Farley preparing itself for the battle, and it is our place to see that the team gets the proper support from the side lines with cheer and song. This is our first real opportunity of showing the team that we are behind them. Let's improve it!

SUB-COMMITTEES

The following sub-committees have been appointed by the executive committee of the Athletic Association:

Football—O. F. Lewis, N. C. Grover, Soderstrom, Crowley.

Baseball—O. F. Lewis, F. Thompson, Sawyer, Taylor.

Finance—R. K. Jones, Gould, Chase, Abbott.

Tennis—A. L. Grover, N. C. Grover, Stewart, Sawyer.

Basketball—A. L. Grover, Gould, Stewart, Taylor.

Grounds—O. F. Lewis, Gould, Crowley, Soderstrom.

Track Athletics—A. L. Grover, Thompson, Chase, Abbott.

The Carlisle football team has an Eskimo player named Shuchuk.

(5) Including Economics, Sociology, etc. (6) Not including time for Debating and Composition. (7) Not including time for Themes and Debating. (8) Not including Public Speaking. (9) Not including courses for women which are substitutes, for those for men, with the same time. (10) Additional instruction to be given when the announced course in Mining Engineering is in full operation. (11) Not including time for Seminar. (12) Including 198 hours given under Biology, also. (13) Shop work. (14) Including Ethics, Logic and Psychology. (15) See notes (3), (6), (11). (16) See notes (7), and (13). (17) See note

(9). (18) See notes (1), (4), (8), (10), (12). Time duplicated is not included in the total.

The table given above will repay careful study by all University of Maine men who desire to have a comprehensive knowledge of the work that the University is actually carrying on, especially in comparison with that of the other colleges in Maine. It shows certain facts which are well known, and others which will be a surprise to many. That the University of Maine occupies the field alone in the engineering lines and that it has led in the sciences are well known facts but that it is ahead in such branches as Philosophy, the modern languages, History, and especially Greek and Latin is not so generally understood. Indeed it will be noticed that in only two branches of all those offered is in any other institution ahead; Colby offers a twelve weeks lecture course, one hour a week, in Books and Libraries, and Bowdoin and Colby both offer a larger amount of Geology and Mineralogy. When the course in Mining Engineering which has been announced is in full operation, Maine will undoubtedly offer a considerably increased amount of Geology and Mineralogy, the one line in which it is behind to any extent. An examination of the totals shows that the total of Bates, Bowdoin, and Colby added together amounts to 15,308 hours, or a less amount for the three than the University of Maine alone offers.

WEIGHT OF THE 'VARSITY

Maine is girding her loins in preparation for the Colby game which will be played Saturday afternoon, on Alumni field, Orono, and which will be the first Maine intercollegiate football game to be played in the State this fall. Since the game with Harvard at Cambridge, Oct. 3, the team has not played any regular games, but it has not been idle—on the contrary Coach Farley has been putting the team through the most stringent method of practice as he regards the coming game with Colby to be one of the hardest that Maine will run up against this fall. During the first of the week the pouring rain and the sad condition of the field kept the men from getting pushed very hard, but the last three nights have been busy ones, not only for the 'varsity' but for the second team which has been its opponents. Colby has been keeping discretely quiet about its conduct in football matters but the team has been working all the while and will give Maine the hardest kind of a tussle when they line up Saturday. Bearce,

fullback, has not been practicing with the team this week owing to a strain and it is probable that Shaw will take his place Saturday. Ned Murray of Bangor and Tom Kelley of Portland will be umpire and referee.

Following is an authentic statement of the weights of the respective members of the team:

Bean, r e	152
Wood, r t	178
Sawyer, r g	183½
Learned, c	200
Knowles, l g	166½
Reed, l t	183½
Taylor, l e	159
Bailey, q b, (Capt.)	137
Parker, r h b	152
Thatcher, l h b	143
Bearce, f b	172½
Total	1827
Average	166 lbs.

Prof. George T. Files, the recorder of the faculty, has posted the official registration of Bowdoin College for the year. It is by classes

as follows: 1904, 55; 1905, 59; 1906, 71; 1907, 74; specials, 17. At this time last year the registration was as follows: 1904, 60; 1905, 63; 1906, 67; specials, 22. The class of 1903 numbered 63. The total registration last year was 275 and this year is 276. The figures show that 1904 has lost 5 members; 1905, 4; 1906 has gained 4 and 1907 numbers 11 more than 1903. The number of special students has fallen off from 22 to 17, a decrease of 5. The total number of new students at Bowdoin is 90.

Cox of Bowdoin is seeking honors in new fields and is trying for a place on the 'varsity football team. Although he has never before attempted the game, he weighs 190 pounds and is considered not an unlikely candidate for tackle or guard.

Rates is hard at work preparing for the game with Tufts, Oct. 17.

Cornell has a unique football player in so much that he is deaf and dumb and receives his signals by sign.

STUDENTS' NEEDS....

In the line of Desks, Chairs, Tables and other Furniture and Furnishings are supplied by us at SPECIAL DISCOUNTS. We give the lowest possible prices and furnish the best made articles.
