Baseball Team to Play Hard Games this Week

First Game of the Annual Massachusetts Trip Is Played with the Fast Boston College Team at Boston

The varsity baseball team plays the first game of its annual Massachusetts trip Monday, April 25, with the fast Boston College aggregation at Boston. The squad which left Saturday night consisted of: Torsleff, Newell, Jowett, Prescott, Monroe, Lunge, Capt. Al. Johnson, P. Johnson, Stearns, Sargent, Coady, H. P. Wood, Rusk, Young, Mgr. Graffam and Coach Monte Cross.

The trip this year will be one of the hardest ever undertaken by the Maine team as it includes some of the best college teams in the country. The first game with B. C. will find a strong opponent for the Maine boys. Although B. C. was defeated this spring in one of its first games by Boston University, they showed by getting more hits and by outplaying B. U. that the team that faces Maine Monday will play the same snappy brand of baseball that one associates with a Boston College team.

On Tuesday, Tufts will be the opponent at Medford. Tufts recently held Princeton to a 1 to 0 score with the help of Keefe in the box. Keefe is an old timer who has returned after being in the service and is rated as one of the best amateur pitchers in the country. Tufts will be a strong contender for the New England championship this year.

On the 27th Maine plays Boston University at Boston. B. U. sprang into prominence this spring when they trimmed Boston College by a 3 to 0 score and by holding Holy Cross to a 3 to 0 victory. The game with B. U. will be doubly interesting because of the former Maine men, Jud O'Connor and Wat Small who are on the varsity team.

(Continued on Page Four)

Speaking Contest Is to Be Held Here May 6

In order to stimulate interest in public speaking, the University is requesting preparatory schools in "Class A" to send delegates to the Interscholastic Speaking Contest to be held in Orono on Friday, May 6, in the afternoon and evening.

Each school is entitled to send one delegate, boy or girl, the travelling expenses to be provided for by the school from which they come. They will be entertained as guests of the University.

Two first prizes will be awarded: a first prize of \$15.00 for the best declamation and a prize of \$15.00 for the best recitation.

The orations may be chosen from classical or from contemporary public speeches. The recitations may be dramatic, narrative, or colloquial selections. No selections may be less than six minutes or more than eight minutes in duration.

In the afternoon of May 6th, there will be a preliminary trial for all the speakers. The four speakers best qualified in oratory and the four best qualified in recitation will compete in the final exhibition in the evening.

Delegates will be met at the University Waiting Room by a committee of students. On the afternoon of the trials, delegates will be informally entertained by the Debating Club and by the young ladies from the department of Home Economics. The reception will continue until 5.30 o'clock, when the result of the preliminary trials will be announced. The eight speakers chosen for the final contests will report at Alumni Hall at 7.45.

There will be two sets of judges for both the trials and the final contest: one set will judge orations only and the other will judge recitations.

Each school is supposed to have registered its delegate by April 12 by sending the name of the student, of the school and principal, by giving the author and title of the selection, and by naming the day and hour when the delegate will arrive at the University Waiting Room.

Maine Regiment Making Preparations for Camp

The University of Maine Regiment is making preparations to go into camp for four days, early in May. Thus far 225 men have signed for encampment and it is expected that number will be increased. The Bangor High School cadets have been invited to accompany the regiment.

The muster grounds at Newport, known as Camp Benson have been selected for this outing. Newport is a 25-mile drive from Bangor and the camp grounds are two miles outside Newport village. The men will leave the University of Maine Thursday morning, May 5, going by trolley to Bangor and thence making the trip in motor trucks. Tents will be pitched and the camp will be conducted in true military fashion. Major James and Lieut. Nichols of the department of military science and tactics will be in charge. The four days will be devoted to extended order drills, tactics, manoeuvres and ceremonies, group games and athletic exercises.

Saturday will be visitors' day. In the forenoon there will be manoeuvres and in the afternoon ceremonies. Governor Baxter, Adjutant General Hadley of the Maine National Guard and Colonel Bigelow of the Third Maine regiment have been invited as special guests to participate in the review. In the evening a dance will be given. Sunday afternoon tents will be struck and journey home made by trucks to Bangor and thence to campus by trolley.

The grounds at Newport are admirably adapted to such an outing and the men of the R. O. T. C. are looking forward with great anticipation to the event.

Junior Engineers Are Eligible for Scholarship

Conforming with the regulations established for the awarding of the New York Alumni Association Scholarship, the juniors in the College of Technology are eligible. This award is offered to encourage advancement and proficiency in English. The basis of award is based on:

1. Grades obtained in English.
2. Quality of the essay.
3. The need of the candidate.

On last Tuesday, those who competed assembled in Number 4, Estabrook Hall where the contest was held. Subjects were announced at that time, five subjects to be selected by the department of English and five selected by the College of Technology.

Y. W. C. A. Profits by Visit of Miss Burner

Miss Oolooah Burner, a Y. W. C. A. field worker, was sent here last week at the request of the Maine Y. W. C. A. to hold discussion groups on "The Personality of Christ."

Her aim was to bring the idea of Christianity before the college girls. She did this by pretending, in the groups, that although she had all the virtues of a Christian, she did not call herself by that name. The girls were to give her reasons why she should stand for Christianity.

The New Testament was studied and applied to every day life by taking up the personality of Christ rather than his teachings.

Miss Burner conducted two discussion groups with the faculty and five with the students. She succeeded in arousing such a deep interest among the girls that they are planning to have here again next year.

HAVE YOU NOTICED

A feeling that you don't like work.
But love to go a-roaming?
A feeling that you want to shirk.
And stroll out in the gloaming?
A feeling you don't want to go.
When it comes time to leave her?
My boy, you have the symptoms.
Of that old disease—Spring Fever!

Freshmen Winners in The Inter-class Meet

Events Were Full of Thrills. Field Events Were Postponed on Account of Unfavorable Weather Conditions

Last Saturday afternoon, the annual Inter-class track meet was held on Alumni Field before a small crowd of spectators. Due to the weather conditions only the track events were run off. The field events were to take place this week providing the weather conditions were at all favorable. There was some very good competition in the 100-yard and 220-yard dashes. Gray and Thomas made some very close finishes. King, a freshman, won his trial heat in very good time, but in the final was only able to place third. Thomas won his trial heat without any trouble. In the final there were: "Bud" Carey '22, "Pa" Gray '23, "Buck" Thomas '23, and King '24. The race was a very close one and "Buck" Thomas won by a half yard over "Pa" Gray who was closely followed by King.

In the varsity 440-yard race there were eight men that started from scratch. This was the best race of the afternoon and the most hotly contested one of the season. It meant a lot to the first six men that finished out of the nine that started for it will be these men that are to represent the University at the Penn carnival races this Saturday at Philadelphia. The nine men starting in order of their positions were: Lawrence, pole, Pratt 1, Webster 2, Wells 3, Cowan 4, Hagerty 5, Herrick 6, Castle, 7, Rock.

Pratt gained the first corner with Hegarty close at his heels and Lawrence was beside him. On the back stretch, against a strong wind, Lawrence passed Hegarty and gained on Pratt but at the finish Pratt was in the lead of about a foot. Cowan, Hegarty, Webster, Herrick, Castle, Rock and Wells finished in the order named. It was a very interesting race to watch and the time was good taking into account the weather conditions.

The next event was the one mile run, several handicaps were misjudged in this race and the men starting from scratch were unable to overcome them. The time in this race was fair considering that the runners had to run against a strong wind on the back stretch. Noyes, a freshman with a handicap of half a lap, led the milers all of the way and finished fully fifty yards ahead of the next man. The first three men to finish were all freshmen: Noyes, Harris and Ames.

The 880-yard handicap run was one of the best class races of the afternoon with a very close finish. Sweetser won by inches over Stevens, Smith and O'Connor ran a very close race, Smith coming in third and O'Connor fourth. In the 440-yard handicap there were several close finishes. Jackson starting from scratch placed third over a large number of starters. Zyman won with McDonald close behind him followed by Jackson.

(Continued on Page Four)

Military Hop to Offer Various Attractions

The annual Military Hop given by the R. O. T. C. unit at the University will be held April 29 at 8 o'clock. All members of the faculty, student body and ex-service men are invited as guests for the evening. It is hoped that the ex-service men will come in uniform.

There are to be many stunts and drills that have not been given before, such as bayonet drill, fencing, an awkward squad, and Butt's manual squad. The gym will be elaborately decorated. There will be booths for the faculty, Seaboard and Blade, Headquarters Company, and all the companies. The matrons of the different houses about the campus will be entertained at the various booths, arrangements for which will be made later. The booths are to be decorated by their respective companies and a prize will be given to the sponsor of the best decorated booth. Refreshments will be served at intermission.

Dr. Morse New Director Of Experiment Station

From plant pathologist, which he has been 15 years, to the directorship of the Maine Agricultural Experiment Station is a promotion that has come naturally to Dr. Warner J. Morse. He came here in 1906 from the University of Vermont, his alma mater, from which he was graduated with a degree of bachelor of science in 1898 and honored with a degree of master of science in 1903. In 1912 the University of Wisconsin conferred on him the degree of doctor of philosophy.

He was born in Waterbury, Vt., in 1872. Following his graduation from the University of Vermont he taught science and mathematics in Montpelier Seminary two years and for five years following was assistant botanist in Vermont Agricultural Experiment Station. Then he went to the University of Vermont as instructor in botany and after four years in that occupation was promoted to assistant professor of bacteriology, having served two years in that capacity when he was called to Maine.

As director he succeeds Dr. Charles D. Woods, who for 24 years was at the head of the station, and is now in charge of agricultural instruction at Camp Devens.

Dr. Morse is connected with these fraternities and honorary societies: Kappa Sigma, Sigma Xi, Phi Kappa Phi, Alpha Zeta. He is also a fellow of the American Association for Advancement of Science and a member of the American Phytopathological Society, the Botanical Society of America, the Society of American Bacteriologists, the Society for Promotion of Agricultural Science and the New England Botanical Club.

Girls' Glee Club Holds Banquet at Penobscot

Thirty-two members of the Girls' Glee Club enjoyed a banquet at the Penobscot Exchange, Bangor, Saturday evening. A delicious five course dinner was served. The affair was very informal. Song choruses were sung between the courses. One of the song hits was "Go Feather Your Nest" which was sung in French by Miss Lorette Cloutier.

Betty Hunt who was the toastmistress conducted the program in a clever manner. Her witty remarks added much to the jollity of the occasion. The toasts that were responded to were full of bright and entertaining remarks. They were as follows:

The Carriage Waits Without,	Emily Kritter
My Opinion of That Trumpet	Lucy Chamberlain
Chorus	Avis Strout
The Jordan	Christine Peterson
How Very Extraordinary! Achsa Bean	Lorette Cloutier
Regal Regalia	Bernice Smith
Up from Slavery	Florence Salley
Lip Stick and Rouge	Lena Shorey
Pseudo Enchantress	Madeline Bird
Outside the Curtain	
Keepin' 'em Scratchin'	

After the banquet the various girls furnished music for dancing.

Plans Progressing for Track Meet With Tufts

Plans for the dual track meet with Tufts which will be held on Alumni Field Saturday, May 7th are progressing favorably.

Although we ran away with Tufts at the B. A. A. relay races the track meet on May 7th will find Tufts a more dangerous opponent because they have developed a well-balanced track team. Two of their men who stand out prominently are Machia, who ran on the relay team, and who is entered in the sprints, and Bob Blair, the quarter-miler. Blair is an old time rival of Capt. Hep Pratt having run against Pratt in prep school track meets.

The dual meet will be one of the fastest and most interesting events of the track season; both the teams are fast and well matched.

Maine Well Represented At Pennsylvania Meet

Maine Will Be Pitted Against Fast Opponents. Every Big College in the Country Is Sending Its Best Men

The University of Maine will be well represented on Friday and Saturday of this week at the Pennsylvania Relay Race Carnival when the Maine squad consisting of Capt. Hep Pratt, Ned Lawrence, Bob Cohen, and two others yet to be chosen will run in the one mile relay and in the American College Championship Sprint Medley Relay Race.

Every big college in the country is sending its best men to attempt the capture of the coveted prizes and Maine will be pitted against some very fast opponents.

In the medley relay race the first man is to run 440 yards, 2nd and 3rd 220 yards, and 4th 880 yards. The entries: 1, Lafayette; 2, Ohio State; 3, Nebraska; 4, Penn State; 5, Harvard; 6, Maine; 7, Carnegie Institute; 8, University of Paris, France; 9, Missouri; 10, Kansas State Agricultural; 11, Pittsburgh; 12, Pennsylvania Agricultural; 13, Chicago; 14, Georgetown; 15, Minnesota; 16, Princeton. This is to be run off on Friday afternoon.

On Saturday afternoon Maine will be represented in the one mile relay. The entries are: 1, Maine; 2, Fordham; 3, Colgate; 4, Cornell (Iowa); 5, Michigan Agricultural; 6, Wabash; 7, Holy Cross; 8, University of the South; 9, Northeastern; 10, West Virginia.

The followers of track activities are anxiously awaiting the results of the events in which Maine will be represented. Those who have watched the men working out on the cinder path and know what they can do are looking forward to a good showing by the Maine runners. Coach Flack and Manager Buck Fifield will accompany the men on the trip which will probably start Wednesday afternoon.

Coach Flack does not expect first places but feels that the University of Maine will be ably represented at the meet.

Pres. Alely Returns from Western Speaking Tour

Dr. Robert J. Alely returned on Friday night from a week's trip to the west which was filled with speaking engagements. Monday afternoon he addressed the Teachers' Club at Fort Wayne, Indiana, and in the evening delivered a speech at the dedication of a new high school building in that city. Tuesday at Indianapolis he addressed the Rotary Club at noon and later in the afternoon spoke to the city teachers. Wednesday he attended sessions of the Kentucky Education association at Louisville, speaking on the general program in the morning, in the mathematics section in the afternoon and again on the general program in the evening. Late in the afternoon of the same day he addressed the Kentucky Colored Teachers' Association, which was also in session in the city. For two years before coming to Maine Dr. Alely was located in Indianapolis as commissioner of education for Indiana so that his few days stay in Indiana was a most enjoyable as well as busy one.

Harry E. Bickford, an alumnus of the College of Agriculture, who for sixteen months has been foreman of the Ayerdale farm, Bangor, has been appointed assistant county agent for Aroostook. He will be located at Presque Isle and will begin his duties there May 1. John H. Philbrick of Houlton has been promoted to acting county agent, succeeding John H. Scribner, who recently resigned on account of the death of his father and is now carrying on the homestead farm.

Mr. Bickford is a native of Sears-mont. He served two years with the Maine Heavies, ten months of that period overseas. After his return from the service he was for six months foreman of Upland farms, Ipswich, Mass.

Editorial

Now that the University has received financial support for a couple of years to come why not do a little boosting for Maine. Not knowing whether there was going to be any university or not after this year nobody has done anything to enliven college spirit or to advertise Maine. But now we all know that Maine is here to stay. Those that are going to be here next year ought to do all they can to make it a real place to live in, to make their university days real ones. And those that are getting thru this year ought to do all that they possibly can to make their university one which they will be proud of.

Just now everybody is dead. One fellow leaves a certain job for the other fellow to do and that fellow does the same thing. When a bunch of fellows see a chapel notice, one says: "I guess they can get along without me." He doesn't go and neither do any of the others. When some organization gives a dance only a handful attend it. But it isn't because the fellows don't dance. We will guarantee that nearly fifty per cent of the fellows in the University are attending a dance somewhere that same evening.

If the recreation offered on the campus isn't good enough, instead of going elsewhere for it let's try to make it good enough here. Give a thought to your University. Spend a little of your money and energy on the campus and the campus will become the real live place you want. You will have to sacrifice a few good times at first but after you get started there will be no better place to go than to stay right here on the campus.

April 26, 1921

Mr. Henry Y. Howard
Editor-in-Chief of the "Campus"
Dear Mr. Howard:

As an alumni member of the Athletic Board and as a wearer of the "M" I wish to strongly advocate the passage by the student members of the association the addition to Section I of Article 5 of the By-Laws of the Constitution of the association. The amendment provides that:

"The 'M' shall be awarded
"In basketball, for playing in two-thirds of the periods or any part thereof of the games played in the second semester, it being understood that a player being taken out for injuries shall receive credit for the remainder of the game."

At the meeting of the Athletic Board April 14th at which this amendment was favorably acted upon I stated that I felt that an injustice was done to the two members of the varsity basketball team who were not awarded letters. These two men had worked faithfully for the team, had remained eligible and in the second semester because of the ineligibility of two so-called better men they had finally won place on the team.

There are some members of the "M" Club who would not recommend that

these two men be given letters because they believed that they were not good enough basketball players. It has never been the policy at this University or any other to refuse the granting of a letter to a member of a varsity team because he was not quite so good as some other man, either in college or who had played on a team and had graduated previously. The award of the "M" on the basis of ability is absurd.

Basketball is the only sport which runs through two semesters. The men we want on the basketball team are those who are good enough students to remain eligible so that they can play in the second semester. If our best men make the team the first semester they will be playing on it the second semester. Hence the rule proposed is absolutely fair. We need more than all things athletes who are students. If a man remains out for the team the first semester—keeps up in his studies—makes the team the second semester because another man becomes ineligible he certainly is the only man who deserves consideration for a letter.

In football the "M" is awarded for playing "six periods or any part thereof in the regular Maine Intercollegiate series it being understood that a player being taken out for injuries shall receive credit for the remainder of the game." The State series are never reached until at least half the schedule of games is played. In basketball half the schedule is played the fall semester. Why should not the men who are on the team the second half of the season in basketball receive the same consideration in the award of a letter that the football men do? Is there any difference? It takes eleven men to win a game of football and it takes five men to win a game of basketball. Team work counts and team workers should receive the athletic award of our University in these two sports.

I am wondering how many men as candidates for the basketball team will remain out for the team until the second semester if there is no chance to win an "M" even if they finally make the team the second semester.

Is not the man who remains eligible and is playing in two-thirds of the periods in the second semester really the man who is to be considered a member of the team. If this is true, favor an award which will give him his letter. Vote "Yes" on this amendment and you will be making a clear-headed and fairminded decision in awarding basketball letters. Vote "Yes" and you will record your agreement with the Athletic Board.

Sincerely yours,

W. D. Towner
Alumni Secretary

My skin is all bloated,
It wrinkles—it sags.
I'm stewed to the limit,
The last of my jags.
My heart is as gay
As a song bird in June.
I feel no remorse
For I'm only a prune.

Alumni Notes

At noon, Tuesday, April 19th, at the home of Dr. and Mrs. Fremont L. Russell, their daughter, Sibyl Lois, was united in marriage with Rev. Milan J. Smith, of Lakeside, N. H. The bride is a graduate of the University of Maine, class of 1916, and a member of the Alpha Omicron Pi Sorority. The bridegroom is a graduate of Bowdoin College and a member of the Maine conference. The ceremony was performed by Rev. T. Everett Fairchild in the presence of the family of the bride and a few intimate friends. A wedding luncheon was served, after which the young people started on their honeymoon. They will make their home in Berlin, N. H., Mr. Smith having been recently appointed pastor of the Methodist Episcopal church in that place.

Roger Long '16 was a recent visitor on the campus.

Warren Brewer '13 was at the University one day last week. Mr. Brewer was called to Orono because of the death of his father-in-law, Doctor Harvey.

Walter Chadbourne '20 was at Sigma Chi over the week-end on his way back to Harvard where he is taking a two year course in the School of Finance. Mr. Chadbourne reports that there are several former Maine men who are at present students at Harvard in the various colleges. Among this number are Cecil Sweatt '20 who is studying in the Law School; Kenneth Thwing Young '19, Theodore Stevens '20, Norman B. Murphy ex-'22 in the School of Medicine. Vernon Wallingford '19 is taking advanced work in Arts and Sciences and Francis Head '18 is pursuing a course in landscape gardening.

The Knights of Columbus of Portland have elected F. A. French '17 of Deering as manager of their baseball club for the coming season. The Knights expect to put out a very fast team this year. They are planning to arrange games with several of the colleges as well as the leagues in New England.

Harold M. Pierce '19 who has been employed by the bond house of Arthur F. Perry, Boston, has accepted a position with the First National Bank, Bangor, in the bond department.

Thelma Sawyer ex-'22 is teaching this year at South China.

Philip Garland '12 is one of the first tenors in the Ralston Musical Club of Seattle, Washington.

Harold Blackwood and W. J. Connolly, both ex-'18 men are teaching in Pembroke.

E. W. McKeena '12 and Margaret Merrill '18 are teaching at Leavitt Institute, Turner, Me.

Beryl Cram '18 and Elwyna '19 are teaching in Old Orchard.

Mary Coughlin ex-'21 who is teaching in Rockland this year, is planning to return to the University next fall to finish her college work.

NOTICES

April 28 Meeting of the Economics Club in Coburn Hall at 8.00.
Mr. Toelle will speak on the City Manager Plan.

April 24 Military Hop
April 30 Physical Training Track and Field Meet, Saturday at 2.30.
May 20 Junior Prom

The following men are to take the trip to Philadelphia, leaving Bangor at 8 o'clock Wednesday night: Pratt, Lawrence, Cohen, Hegarty and Herrick.

Athletic Association Elects New Officers

The nomination for officers of the Athletic Association for next year are as follows:

President: A. E. Johnson, H. L. Jackson, H. W. Fifield, K. L. Oakes.
Vice-President: A. L. Bisson, D. W. Hoyt, E. S. Lawrence, O. E. Norell.
Secretary: E. O. Berg, P. T. Oak, P. H. Taylor, H. D. Small.

Senior Member of Board: I. M. Rusk, C. A. Sargent, H. G. Webster, S. H. Pinkham.
Junior Member of Board: T. C. Dobbins, L. Lord, R. W. Raymond, D. F. Thomas.

The election will be held Tuesday, May 10 from 1 to 5 o'clock.

THE YOUNG DIE TOUGH

By ordering Spring Lamb in a poor restaurant you realize how tough it is to die young.

Predict Success of Dr. Morse in New Position

Dr. G. M. Twitchell, in a communication published in last week's issue of the Maine Farmer, had this to say of the appointment of Dr. W. J. Morse as director of the Maine Agricultural Experiment Station:

"The appointment of that loyal co-worker with the farmers of Maine, Dr. W. J. Morse, as director of the station at Orono, will give satisfaction in every quarter. Here is a man to whom the farmers can go freely and with whom they can work. His faithful services during the many years of his labors in searching out plant diseases fit him especially for the larger service so wisely given into his hands. The fact of a close union of the station with the farms must prove a saving factor in years to come. It is now up to the farmers to strike hands with Dr. Morse for bigger work all over Maine. Every farmer needs the service the station can render and, measured by the record of the past, the director wants the hearty cooperation of every farmer. If there is failure in the future it will not be on his side."

The latest issue of New England Homestead published an editorial heartily approving the appointment of Dr. Morse. It said of him, in part:

"He is recognized as one of the leading experts of the country, if not the leader, on potato diseases, which for more than twenty years he has intensively studied. Dr. Morse is farm born and brought up, with farm sympathies and thorough appreciation of the farmers' problems and point of view."

LOOKING BACK

A YEAR AGO

Maine won from Boston University 7-6, and lost to Holy Cross and Bates while on the annual Massachusetts trip. The score of the Holy Cross game was 21-3, while that of the Bates game was 2-0.

The Maine second team defeated Higgins Classical Institute by a score of 6-5.

The annual Interclass Track and Field Meet was won by the class of '23, who secured 40 points. The sophomores were second with 37 points.

FIVE YEARS AGO

The varsity baseball team whitewashed the Easterns by a 6-0 score, while the second team defeated Bangor High School, 21-2.

Maine divided honors with Colby in the annual debates held Saturday at each college.

Early as it is for the bathing season to begin, six freshmen were plunged into the "briny foam" of the Stillwater, in punishment for their misdemeanors against the upperclassmen. Two of the victims, who had more serious charges against them, were also given haircuts. Sigma Chi won first place in the Bowling Tournament, wresting the title from the Lambda Chi Alpha team.

Professor W. P. Daggett read "Romeo and Juliet" to the students at the Shakespeare Tercentennial exercises held in chapel Wednesday.

TEN YEARS AGO

The baseball team has undertaken its annual out-of-state trip and is scheduled to play Harvard, April 27; Rhode Island State, April 28; and Boston College, April 29. The track team has left for the University of Vermont, where it will compete in a dual meet, April 28. Maine lost to Colby by a score of 13-12 in the annual exhibition game, played Patriot's Day.

The Maine Musical Clubs have secured engagements for concerts in Camden, Rockland, and Warren this week.

TWENTY YEARS AGO

The celebration of Maine's victory over Wesleyan was carried a trifle too far, in the opinion of the faculty, when the upper waiting room was burned to the ground by the students.

Weight men for the track team are becoming numerous. A number of the candidates were seen in rear of Oak Hall throwing bricks into Major Wood's room.

Judging from the frequent mishaps to student canoeists on the Stillwater, a bath tub would be a more suitable place for the beginners.

Jack: "What kind of a fellow is Blinks?"

Bill: "Well, he is one of those fellows who always grab the stool when there is a piano to be moved."

HAVE
YOU
NOTICED

CHIPS

WHEN A-GOING, KEEP A-GOING

If you've made a winning hit
Don't sit down and boast of it,
Thinking you're supremely fit;
Just control your tongue a bit.

Maybe someone else will try
For the goal to qualify—
Leave your record stranded dry—
While on couch of ease you lie.

Up and ready for the fray;
Keep a-going, that's the way:
Don't be satisfied to say
There's but one Achievement Day.
—A. L. T. Cummings.

The girls all thought the world of him,
He was so cute and dear!
They had the sweetest smiles for him,
Whenever he came near.
I never thought so much of him,
His manners were not good.
He never acted very bright
As though he understood.
He ate his meals so noisily,
And gurgled so when drinking,
Whatever made him popular,
Has always kept me thinking.
He even lapped his whiskers,
And once I saw him spat
And then I had to wonder
What the girls saw in that cat!

The other night while going home
Somewhat later than usual
I was waylaid
By a masked marauder
Who massaged my ribs
With a Colt .38
And asked me very politely
For my cash
But when I told him that I had
Been out with a coed
He handed me a five-dollar bill
And passed silently on.

HE PROBABLY WAS

Father: "My boy, what do you expect to be when you get out of college?"

Son: "An old man, father."

RIGHT

Don't you consider my views on the question sound?

Yes, mostly sound.

One would think from the name that a grass widow was green.

According to the schedule in the Secretary's office there are no classes in the judging pavilion after supper.

Physics Club Holds
Interesting Meeting

The semi-monthly meeting of the Physics Club brought a few surprises to the members present. Mr. Bless, an instructor in the Physics department, gave a most intensely interesting lecture on the "Aluminum Rectifier." The subject was one which Mr. Bless had been investigating in his preparation for a Master's degree.

To the astonishment of the Club members, Mr. Bless, during the course of his lecture, disclosed the fact that Dr. Fitch, the present head of our Physics department, while at the University of Michigan some years ago, conducted investigations along somewhat similar lines. Dr. Fitch's investigations resulted in the acceptance by scientists of certain theories of the actions within the "Aluminum Rectifier," and a mathematical formula by which the actions could be determined in advance.

Mr. Bless in his investigations had not obtained the same results as Dr. Fitch. It was impossible in the limited amount of time which Mr. Bless had at his disposal, to present sufficient data and proof to entirely upset Dr. Fitch's theories, but some simple experiments, performed during the course of the lecture, seemed to back Mr. Bless' statements. Mr. Bless did not entirely differ from Dr. Fitch in all points and did not claim to have sufficiently covered the field to have positively upset Dr. Fitch's theories. However, sufficient proof was submitted to rouse a doubt in the minds of those present as to which theory was valid.

At the close of the meeting it was announced that Mr. Townsend would give a lecture May 10 on "Wireless Telegraphy."

"My heart is in the ocean," cried the poet rapturously.

"You've gone me one better," said a seafaring friend, as he took a firmer grip on the rail.

Enthusiastic Artist—Have you seen my "Descent into Hell?"

Bored Patron—No, but I certainly would like to.

HUNGARIAN ROYAL PALACE
 BUDAPEST, HUNGARY

Most of the famous buildings of the world
 are equipped with Otis Elevators

EVERY part of this beautiful Palace was designed and built by Hungarians—except one. This was the elevator installation.

When they needed elevators in keeping with this structure of white Hungarian marble and sandstone, there was only one firm considered—the international firm of Otis. Two passenger elevators were supplied, and in those days they were used by the Emperor, members of the Royal Household, and guests.

That was more than twenty years ago. Otis was then the leader in the elevator industry, as Otis is now.

In palaces of kings, in the greatest and the tallest office buildings of the world, in residences, ships, towers, theatres—everywhere where vertical transportation is required, you will find Otis Elevators—the safest and most efficient of all.
