

Bates Puck Chasers Nose Out Maine Team

Garnet Players Gain Winning Point of 5-4 Score in Last of Two Five-minute Overtime Periods

The people who were fortunate enough to have Tuesday afternoon off after three o'clock and took the opportunity to journey out to the hockey rink on Alumni Field, saw a hockey game there that kept them on their toes from start to finish. Both teams were in good condition and ready for a fight because of the fact that the game was a big cog in the championship wheel. In spite of the fight that the Maine men put up they were defeated after playing two five-minute overtime periods. The final score of the game was 5 to 4 with Bates in the lead.

With both teams anxiously waiting for the moment to go, Referee Blair dropped the puck between the sticks of Elliott of Maine and Cogan of Bates, thus starting a hockey game which was a fight in every sense of the word. The puck seemed to be steaming from friction but the smoke did not seem to bother Elliott, for he rushed in to take a pass from Stearns and shoved the rubber by Batten of Bates for the first count of the game. Soon the referee's whistle signified that the game was on again and this time Capt. Stearns was the man

Eight Girls Initiated By Delta Delta Delta

The Alpha Kappa chapter of Delta Delta Delta held their initiation ceremony Tuesday evening, February 20, at the home of Mrs. W. J. Sweetser in Orono.

Mrs. Cornelius Betters, the Alpha Province Deputy, was present for the occasion.

The evening's initiates were:

Katherine Andrews '26, Audrey Fenlason '26, Muriel Sprague '26, Hilda Merrill '26, Ruth Leman '26, Francis Perkins '25, Beatrice Johnson '24, and Pearl Snow '23.

The initiatory banquet was held Friday, February 23 at the Bangor House.

Doris Twitchell presided as toast-mistress for the occasion. The tables were prettily arranged with large bowls of pansies in the center, and about the table were unique candle sticks of pine cones holding the yellow candles. The place cards were daintily hand painted by Marjorie Rowe.

About thirty enjoyed this annual "get together," among whom were two delegates from Colby College and eight alumnae. Telegrams were received during the evening from fourteen absent members.

The speeches of the alumnae, as well as those of the active members and initiates added to the very pleasant evening.

\$1000 Prize Offered For the Best Scenario

University of Maine students have been invited to submit motion picture scenarios in a national scholarship contest conducted by President Carl Laemmle of the Universal Pictures Corporation, it was announced Tuesday by Prof. H. M. Ellis of the English department. One Thousand dollars will be paid to the American student who submits the best scenario before May 15, and the same amount will be paid to the college or university in which the successful contestant is enrolled.

The rules of the contest specify that in addition to the scholarship, the winning scenario will be paid for at a rate to be determined by the company, said amount to be not less than \$500. All students in colleges or universities are

Intra-mural Field Events Held Saturday Afternoon

Saturday afternoon Feb. 24 at 3.30 P. M. the intra-mural field events were held in the cage in the gymnasium. Interest and competition are always keen in the intra-mural events as the Charles Rice Cup is awarded to the fraternity scoring the greatest number of points. Coach Flack was absent on the basketball trip but the meet was very efficiently managed by Assistant Coach Murphy and Mr. Wallace, Director of Physical Activities. Stearns, varsity pole vaulter, did not compete as he had played in the Bowdoin-Maine hockey team preceding the meet. Ackley, varsity high jumper, had very little difficulty in winning the high jump. Among the freshmen who loomed up as prospects were Jackson, shot putter and Doerr who took third in the high jump and second in the broad jump. The running events will be held Saturday afternoon, March 3, on the outdoor board track.

TRACK EVENTS

40 yd. dash trials, hurdle trials, freshman relay trials, 220 yd. dash trials, 440 yd. dash, 40 yd. finals, hurdle finals, fat man's race, 220 yd. dash finals, 880 yd. run, three legged race, finals freshman relay, bag race, mile run.

Old Order of Freshman Banquet Memory of Past

After a week of trials and tribulations the class of '26 succeeded in reaching Bangor to hold their annual banquet at the A. O. H. Hall, Wednesday, Feb. 21st at 8 P. M. The usual excitement had prevailed, sophomores and freshmen had disappeared mysteriously and during the early hours of the morning preceding the banquet students had been seen wending their weary way homeward.

Promptly at eight about a hundred members of the freshman class filed into the banquet room to partake of the following feast:

Olives	Grapefruit-Oriental	Sweet Pickles
	Halibut Filet	
	Cranberry Sauce	
	Roast Stuffed Chicken	
Mashed Potatoes		June Peas
	Fruit Salad	
	Harlequin Ice Cream	
Coffee	Cake	Cheese
	Saltines	
	Cigarettes	
	TOASTS	
	J. N. Sweatt, Toastmaster	

Class of 1926	O. F. Fraser
Class Spirit	H. B. Eaton
Co-eds	F. C. Newhall
Athletics	Samuel Winer
To 1925, Our Respects	A. H. Snow

Founders' Day Banquet Held by Phi Epsilon Pi

On Sunday, Feb. 18th, Phi Epsilon Pi held the seventh annual Founder's Day and initiation banquet at the chapter house. The toastmaster of the evening was Frater Levenson '19. The initiates were the following: Lon Manoil '25, of Brooklyn, N. Y.; Jack Corash '26, of Worcester, Mass.; Barnett Shur '26 of Portland, Maine; James Abramson '26 of Berlin, N. H.; and Nehemiah Green '26 of Houlton, Maine.

Maine Hockey Team Defeated by Bowdoin

Maine Secures Lead over Bowdoin at Start. Bowdoin Fight Brings Them Victory in Last Period

The University of Maine hockey team went down to defeat before the warriors from Bowdoin last Saturday afternoon by a score of 4 to 3. It was a very interesting game to watch, but defeat came as a hard blow, for at the end of the first period Maine had three points to her credit with Bowdoin holding one point as the result of her work.

The old fight showed up at the first sound of the whistle, when Elliott took the puck from the Bowdoin center and passed it to Stearns, who in turn forwarded it to Stover at which point it started on its journey between the Bowdoin goal tender's legs thus giving Maine the first score of the game. In spite of the poor ice the Maine boys passed the puck skillfully and within a few minutes of the first score Stover took the rubber down the rink and easily shot another goal. At this point the Bowdoin boys found out that they had a hard battle to fight and they seemed to strengthen all at once, for after several tries they managed to slip the rubber by Baxter for their first point of the game. The scoring for the period was not over at this point for after the Bowdoin boys had chased Elliott over the rink trying to get the puck away, he slipped it to Stearns when they were not looking and he shot a fair goal from the forward line.

The second period started with a bang for Maine because the boys from Brunswick came back strong and managed to

\$500,000 Goal Set for Gymnasium-Armory Drive

The latest plans regarding the drive for the Gymnasium-Armory indicate that the solicitation for money, from alumni, alumnae and former students and friends of Maine will begin Easter Monday, April 2. The goal is \$500,000 and it is hoped that this will be reached by June 9, alumni day of the Commencement. If this comes true, it will be a history breaking day and ground for the gym will be broken.

Sec. Wayland Towner is chairman of the sub-committee in charge of the solicitation and is putting in some mighty hard work on the drive. He is now on his second trip around the "Alumni Circuit," visiting many of the Alumni Associations.

His words regarding the campaign are, "The country has been divided into regional areas for the purpose of carrying on a personal solicitation of every alumnus, alumna and former student. Field workers under the supervision of Regional chairmen, who in turn are responsible to the General Committee, form the nucleus of the soliciting organization."

The work accomplished thus far by the Memorial Fund Committee has been in the form of organization and advertising.

Prof. Sprague Delivers A Lecture to Freshmen

At the freshman technology chapel that was held last Friday in 305 Aubert, the subject discussed was Civil Engineering. Prof. Sprague took charge of the meeting and delivered a very interesting talk on civil engineering. He outlined the work of the course thru the whole four years and explained the many opportunities open to trained "civils." He also showed how every other engineering course was in some way dependent upon civil engineering for its existence. For example, the mechanical engineer has to have a civil construct the base for his engine, and the electrical engineer has to have a civil build the dam for his hydro-electric installation. The meeting was one of the most interesting thus far given and should encourage many of our embryo civil engineers.

Maine Athletes Excel At Winter Carnivals

The Bangor and Auburn Carnivals Are Added to Long List of Victories For Maine This Season

Annual Sophomore Hop Is Successful Affair

The annual Sophomore Hop was held in the gymnasium, Wednesday, February 21.

The hall was attractively decorated in the class colors, green and white. Festoons of alternate colors were suspended across the hall and caught in the center to form a canopy. Streamers were used in decorating the balconies and hung below as fringe. At intervals through the center of the hall, cone shaped ornaments of green and white, were suspended.

The same color scheme was carried out in the fraternity and patroness booths which were attractively furnished.

Music for the dancing was furnished by Vallee's Orchestra.

At intermission refreshments of ice cream, and fancy crackers, were served. In the reception line were: Dr. and Mrs. C. C. Little, Colonel Strickland, Dean Hart and Mr. James Blair.

The patronesses were Mrs. L. S. Merrill, Mrs. H. S. Boardman, Mrs. J. M. Briscoe, Mrs. J. H. Huddleston, Mrs. K. C. Estabrooke, Mrs. Mary Parker, Mrs. Munson, Mrs. Stuart, Mrs. Hendrickson, Mrs. Mason and Mrs. Weeks.

Many Students Succeed In Making Dean's List

In spite of the hard ranking of the past semester 107 students succeeded in making the required rank for the Dean's list. This number is much larger than that of last Spring's list and shows much improvement.

The College of Arts and Sciences succeeded in placing 37 names on the list, the College of Agriculture came second with 26, the College of Technology third with 23. The Freshman class as a whole placed 21 names on the much envied list.

SPRING 1923 (First half)

COLLEGE OF ARTS & SCIENCES

Egbert M. Andrews, Anna M. Ashley, Annie L. Bartlett, Howard L. Bowen, Beatrice N. Cleaves, Theodore S. Currier, Elwood L. Dean, Frances S. Farrar, Mary H. Friend, Annie M. Fuller, Cecil C. Garland, Anna E. Green, Eugene B. Griffiths, David Gross, Carl M. Harmon, Philip A. Harriman, Helen H. Harvey, Alice R. Hill, Mildred E. Lombard, John E. McNamara, Annie M. McPhee, Louise E. Messer, Mabel B. Peabody, Ethelyn M. Percival, Mary C. Perkins, Ellen V. Pierson, Laura E. Pratt, Lenora S. Pretto, Elizabeth Ring, Thelma I. Sawyer, William A. Simpson, Donald L. Trouant, Doris F. Twitchell, Edith G. Twitchell, Helen B. Wentworth, Eunice H. Winslow, Sarah C. Wiswell.

Coach Clark Issues Call For Baseball Men

Coach Clark has posted a notice for all batting men for baseball to report to him, March 5. This get-together will be very important, as the coach wishes to state his plans, talk things over with the men, and plan some actual practice for an early date.

Coach Clark hopes that a large number of baseball players will report on this date so that he may get an idea of the material with which he has to work.

The University of Maine has been cleaning up the winter carnivals—winning her own Carnival on the 9th and 10th of February, and the Augusta Carnival on the 16th and 17th. This week the U. of M. team went to Bangor and won the Carnival on Washington's Birthday and finally wound up the week by taking the honors at Auburn Saturday.

Thursday the Blue team won the snow events at the Bangor Carnival by a wide margin. The day was just right and there were around two thousand people to see the fun. The Indians from Old Town were entered in many of the events but failed to win from the Maine boys.

Ivan Pease won the Fancy Skating contest for men at the Kenduskeag Rink and placed in the Mile Skating Race.

Summary:

Invitation Intercollegiate Snowshoe Relay Race won by the University of Maine (Patten, Curtis, Plummer, Haines); Colby, second (Barnes, Johnson, Payne, Laughton); Bowdoin, third (Nelson, Fish, Heeb, Eastman).

(Continued on Page Four)

Basketball Team Meets Defeat On Recent Trip

The basketball team found the games a little bit too much on the recent basketball trip. P. A. C. was hopelessly outclassed, but M. I. T. and N. H. State managed to just nose out Capt. Newell's five.

On Feb. 21st at Boston, M. I. T. defeated Maine 21 to 20 on Tech's court. At the end of the first period Tech was leading 14 to 9, Maine came back strongly in the second half and tied the score. Storb for Tech scored the winning basket in the last half minute of play.

Summary:

M. I. T.	U. OF MAINE
Miller H.	rg Berg
Davidson (Starb) rf	lg Horsman
Coleman c	c Cahill
Johnston lg	rf Holmes (Small)
Cook rg	lf Newell

Score—M. I. T. 21, Maine 20. Goals from floor—Miller 4, Davidson 3, Coleman, Storb, Holmes 2, Newell 3. Goals on free tries—Miller 3, Berg 10. Referee—Coady. Time—20 min. periods.

P. A. C. quintet on the 22nd at Portland lost to Maine by the score of 46-18. Ollie Berg was the individual star of the contest, and his shooting from floor and foul line was responsible for much of the big lead obtained by Maine. P. A. C.

Sigma Nu Enjoys Its Annual Week-end Party

Delta Nu Chapter of Sigma Nu fraternity entertained 30 guests at its annual week-end house party Friday and Saturday, with a formal dance Friday night and a cabaret party Saturday evening. Capt. and Mrs. Leon S. Norris were the chaperons and music for both dancing parties was furnished by Reiche's student orchestra.

The house was attractively decorated with streamers of green and white, evergreen, and colored lights. The path from the house to the road was bordered with hedges of fir trees and illuminated with colored lights. The favors were gold collar and cuff sets engraved with the Sigma Nu shield.

The guests were: Marion McKechnie, Dover-Foxcroft; Evelyn Goodwin, Dover-Foxcroft; Evelyn Goodwin, Dover-Foxcroft; Evelyn Goodwin, Dover-Foxcroft.

New Reporters

This year a wonderful opportunity presents itself to students who have not been active but are now nursing a desire to be so. *The Campus* needs more reporters, and as in all cases, the individual who steps in in time of need, will be amply rewarded. The person who shows a willingness to be a reporter, a real reporter with energy and ambition, is in line for rapid advancement on our staff next year.

Reasons why the student should desire to work out for *The Campus*:

(1) He will be doing his college a real service—men and women of calibre are needed in this field as well as in athletics.

(2) He will receive good training in writing and in elementary journalism. Everyone experiences little thrills when provided with opportunity for self-expression. This satisfaction is greatly augmented when one sees his work actually in print.

(3) He is offered the opportunity of getting in touch with the heart of things in college. The reporter must come in close contact with various phases of college activity, and enjoys the position of being absolutely up to date on all events.

(4) He makes valuable acquaintances. As a reporter, the individual becomes personally acquainted with all the "Who's Who" people on this campus both in the student body and in the faculty.

(5) He obtains knowledge on college conditions and movements all over the country. He learns what other colleges are doing—what college men are doing, and thinking everywhere.

Inducements that are offered to the successful young journalist.

(1) Students who have successfully completed a year's work as a reporter or who have showed a desirable quality of work for a fraction of the year receive a beautifully engraved certificate or shingle. These are awarded at the annual banquet in the spring.

(2) Individuals who successfully complete a year's work as a staff editor receive an attractive pendant or charm, in gold and black enamel.

Reporters are needed right away. Those who have ability along this line, or the desire to serve will find the work interesting. Any candidates who show any real intention to work will receive the hearty cooperation of all editors. In the spring election of editors, all individuals will be chosen because of their ability and no other influences will enter in—an opportunity which any individual desires a chance to succeed on personal merit, alone.

All candidates desiring to work out are requested to appear at the weekly meeting at 1 Alumni Hall on Wednesday at 1 o'clock or to send their names and addresses to Hazen Ayer of the Phi Kappa Sigma fraternity.

Every day in every way we need our appropriation more and more.

Student Chapel

By I. B. Kelley

Student Chapel is becoming an inactive body. Shall we do away with this exercise and let it be written in the future that the present student body were not active and did not show enough

spirit to keep the thing alive? No, if we are to have a student chapel, and we are, let it be recorded that a new code of laws was formulated in 1923 which made the noon-day exercises a very popular affair.

At present the students go to chapel because it is compulsory. When an important special meeting is called, only a few show up and they leave before it is over. Spirit runs high at football games, why not show the same enthusiasm at chapel exercises, in fact everything that pertains to the college.

The one aspect of the exercise that is lacking is in regard to the singing. That is the one thing in which all should take part and make some kind of a noise that might be called music. That would be better than remaining dumb. We know the college song, let us learn something else. Let us see how many songs we can teach ourselves and how many we can teach the seniors before they leave. Let us make a regular old Maine drive and do something.

Informal Dance Held By Phi Mu Sorority

Phi Mu Sorority closed Initiation festivities with an informal dance in the gym on Saturday night. The gym itself was entirely disguised in a unique scheme of decoration. Upon entering the fir-banked gateway, a veritable rose garden stretched ahead. Rose and white streamers formed a low canopy, beneath which hung huge balloons of every hue, shaded lights sending shadows in all directions. On every side from balcony to floor, fir trees were banked, while rambler roses ran wild over the whole garden.

The music for the evening was furnished by Al Johnson's six piece orchestra. The special dance of the evening was the balloon dance and amid much noise the balloons were hauled down and broken.

Refreshments of fruit salad, stuffed dates, ice cream, cake and punch were served at intermission by the six initiates.

The patronesses of the dance were Mrs. J. N. Hart, Mrs. J. H. Huddleston, Mrs. Mary Stuart and Mrs. Louise Hendrickson.

Several visitors and alumnae were present including the Misses Elizabeth Kellett, Louise Steele, and Mildred Ott of Beta Beta chapter at Colby; Misses Frances Curran, Lucy Chamberlain, Gladys Gerd, Gertrude F. Strout, Florence Morrill, Madeline Moore, Dorothy Buzzell, and Marion Buzzell.

The other guests of the evening were Messrs. Wilkins, Whitcomb, Ayer, Newhall, Barnard, Hart, Powell, Patten, Strout, Hillman, L. Kelly, Bannister, Hutton, Ames, Foster, McKeeman, Foss, Hodgdon, I. Kelley, Martin, Linscott, McNamara, Durgin, Pettigill, Stickney, Hoyt, Doten, Gould, Lappin, Burdick, Dolliver, and Margeson and House of Bowdoin.

The Deputation Team Spends Week-end at Milo

The M. C. A. Deputation Team of the University visited, during the last week-end, the churches of Milo. The team, composed of Stanley Hyde, Hervey Bean, and Austin Wilkins spent three days on this trip.

The team left the campus during Friday afternoon, arriving in Milo in time to attend a "father and son" social in the Methodist church. The various members of the team spoke on the relationship that a father should bear to his son.

Saturday afternoon, the deputation supervised a hike, attending which were more than twenty of the Milo boys. They enjoyed a pleasant afternoon, after which they roasted hot dogs and made coffee for their supper.

That evening the Baptist church gave a social. At this, various games were played, and the M. C. A. men spoke shortly on 'College Life.'

Sunday morning they spoke at the two churches, led the boys' classes in Sunday School, and in the evening attended a joint meeting of the Epworth League and the Christian Endeavor. The team feels that it has accomplished a great deal of good on this trip. Two weeks later they will journey down to Orrington for a week end visit.

At the last meeting of the Dormitory Council it was voted to have a matron for the two dormitories, Hannibal Hamlin Hall and Oak Hall. The matter is now before the Board of Trustees and it is almost certain that a matron will be secured immediately.

Men Well Satisfied With R. O. T. C. Camp

The following article is taken from the student book, published at the end of the R. O. T. C. Camp at Camp Devens last year and due to the fact that a goodly number here in the Corps are contemplating going to Camp this summer it is published for their information. Its value lies in the fact that it gives the viewpoint of the student.

"The writer hopes this article will echo the sentiments of the R. O. T. C. Students as a whole. Some diverging opinions doubtless exist but there is in evidence the dominating thought that the R. O. T. C. Camp this summer has been highly enjoyable as well as profitable.

"Everybody, collectively and individually has 'crabbed' the officers, the food, the mosquitoes, and military in general. As we look forward to tomorrow we hope it will rain so that we will have an easy day. If tomorrow is rainy we crab the weather and wish it were pleasant. We have worked equally hard in either case and have been glad for it afterwards. The fact that we go out singing in the morning and return singing at night argues well for our regard for the work.

We have been united in a common purpose. We have forgotten fraternities and clubs which divided us into separate groups at college. We have made many friends and formed associations to which we will always look with pleasure and satisfaction. We have obtained the other person's point of view and have been under a great broadening and leveling influence.

"More remotely than the above is the knowledge and satisfaction that we are doing a patriotic duty in preparing ourselves for a national emergency. We believe we have learned a lesson in physical and mental self-control. We hope we have obtained co-ordination of body and mind in a degree sufficient to assume our required position should the necessity for such action arise.

We all agree that the first six weeks of camp are the hardest. However, we have had a unique experience and are glad to have had it."

By Lawrence J. Doolin '23,
Vermont University

Two Prizes Are Offered For Essays on Military

The officers of the Military Department offer a prize of fifteen dollars (\$15.00) for the best essay and ten dollars (\$10.00) for the second best essay on the required subjects of the program for the second year advanced course in Military Art.

The specific requirements of the program are:

"I. Facts of American Military History including the World War as to:

(a) The sources of authority for our Military Establishment.

(b) The development of the Military resources and the Military strength of the United States.

(c) The state of national preparedness for war at critical periods in the history of the United States.

(d) The cost of American Wars in relation to national unpreparedness.

2. Lessons from American Military History as to:

(a) The traditional military policy of the United States.

(b) The need for national organization for the military defense of the nation."

The essay on the subject must not be less than two thousand (2000) words. The following conditions must also be observed:

(1) The essay must be submitted at the Military Office by or before noon of May 12th, 1923.

(2) The following basis will be used in grading papers:

(a) Accuracy of statements and completeness of facts and logical arrangement of facts and data 75%

(b) English composition 25%

3. Papers will be graded as to (2) (a) by the military instructor and as to (2) (b), by a member of the faculty of the English Department, selected by the head of the Department.

For further information as to method of marking and submitting the essay, and for a list of reference books, the Military Office should be consulted.

The University of Maine Senate meets in 11 Coburn Hall at 4:30 o'clock, Thursday afternoon, March 1. Very important business is to be brought up, and every member should be present.

Vital Questions Topics For Bible Discussions

"As students in this university are interested in keeping up with the latest developments along the lines which they are studying, should not their ideas along religious lines keep pace with their general progress?"

It is with this idea in mind that the M. C. A. is starting a bible study group that will meet Thursday afternoons at 4:15 in 11 Fernald Hall, commencing March 1. Eighteen have so far signified their intention of joining the class, but there is plenty of room for others. The method of study will be similar to that used in the bible study groups held in the different houses during the fall semester. Each student will choose a particular theme on which to report, after search and investigation. Folders describing the course were sent to all those listed as members of some church, but all others are more than welcome to the meetings.

The purpose of these talks will be to seek for a basis for a reasonable, practical, non-theological religion, that will be of help to the everyday man in his everyday life. The subjects for discussion during the fourteen weeks will be as follows:

1. Can a man know God?
2. What is the purpose of God in creation?
3. Does God have a particular will or design for each one of our lives?
4. Can we know what his design for us is, and accomplish it?
5. Does Christ really come into men's lives today?
6. Where did we get our bible?
7. To what extent is the bible true?
8. What is the nature of sin?
9. Whence did it come and what is its mission or purpose?
10. Can God forgive sin?
11. Are there fires of hell?
12. Do we still need christian "faith"?
13. What does it mean today for a man to be "saved"?
14. Can God bless?

Doctor Cheney Speaks At M. C. A. Meeting

The weekly meeting of the M. C. A. was held in 30 Coburn, Thursday evening, Feb. 22. Rev. Mr. Cheney, representing the Y. M. C. A. and its work was the speaker of the evening. His subject was "The Principles by which Christians Should Choose their Life Work."

Dr. Cheney said that a Christian should choose an occupation worthy of his best efforts, and one that would grow on him as he went through life.

Dr. Cheney spoke especially on the opportunities in Y. M. C. A. work. He told about the boys' clubs, the industrial work, and the country and city associations. Dr. Cheney is a member of the faculty of the Y. M. C. A. Training College in Springfield, Mass., and therefore was well qualified to speak on Y. M. C. A. work.

At the end of his speech the meeting was dismissed. A few of the men remained, and formed an informal discussion group to ask questions of Dr. Cheney. Several of the young men were quite interested in the work.

Delta Delta Delta Gives A Tea at Balentine Hall

On February 19, the Delta Delta Delta Sorority gave a tea in the Sun Parlor at Balentine Hall for their Alpha Province deputy, Mrs. Betten, who came from Ithaca, New York.

Mrs. Hendrickson, Mrs. Connors and Mrs. Price received with Mrs. Betten, and members from all of the girls' fraternities attended.

Dainty refreshments were served.

The red light was out at Kappa Sigma Monday, February 19, for the initiation of Charles E. Gero '26, of Waterville, and affiliation of Arthur Donald Patterson '25, of Vinalhaven. There are now thirty-four active members in the chapter with thirty-one living in the house.

Over in Kentucky there is a man who is so hard that he can ride a porcupine through a bed of cactus and never get a scratch.

When the donkey saw the zebra He began to switch his tail; "Well, I never," was his comment, "There's a mule that's been in jail."

That Maine has cleaned up in all the winter carnivals?

That the last week-end was a busy one socially?

That being on silence is golden for others?

Our Bowdoin guests?

That "Kay" Hunt was one of the speakers at the Freshman Banquet last week?

That it is said that the speakers actually had a chance to talk at the banquet the other night?

That the Sophomore Hop was not supported as it should have been?

The alumni and the alumnae here over the week-end?

Ted Currier locking up Balentine Hall every night?

That there are only five more weeks to mid-semesters?

That Phil Hodgdon is working out for the job that Jerry Dunn left at Balentine?

The new cross-country sweaters?

That Cony knows how many k's there are in milk cart?

The Three Musketeers on the Campus?

Radio Engineering Has Great Educational Value

(By E. F. W. Alexanderson, Chief Engineer, Radio Corporation of America)

An eminent specialist on administration told me once that all executives should have engineering training. This has not been possible in the past, but it is becoming possible now, because the scientific education of our engineering schools and institutions produces trained minds which have been found to have superior qualifications in all positions.

It is true that engineering is a part of a liberal education, alongside of mathematics and Latin, it is particularly true of electrical engineering, and I venture to say that of all branches of electrical engineering, radio engineering has the greatest educational value. To prove this thesis I should like to point out some of the interesting aspects of radio engineering.

A technical subject, to have an educational value, should have theoretical, practical and human aspects.

From a theoretical point of view, radio engineering has extraordinary possibilities. It presents a set of phenomena of the most varied nature, all of which are capable of exact and logical analysis. Wave motion in space, wave motion in wires, absorption of energy in a semi-conducting ground under an antenna; oscillating circuits, electronic discharge in vacuum under the influence of electric and magnetic fields; the behavior of iron in a high frequency magnetic field, etc., almost ad infinitum.

The practical aspects of radio engineering are no less numerous, and so well known that they need not be mentioned specifically. In relation to the experimenter and educator, the practical aspect of the technique has, however, a greater significance than in any other branch of engineering. Other theoretical experimenters must work under artificial conditions in a laboratory, whereas the radio experimenter is in touch with the ultimate realities. He has the whole world for his laboratory, and therein he may choose at will what assistance he desires for his various experiments. He may mingle with his fellows in the vagaries of short-wave work, and he may reach out over the continent some night with his own transmitter, even spanning the Atlantic when all conditions happen to be in his favor.

Over every field of human endeavor stretches the field of the radio transmitter. In an airplane speeds a young radio engineer, testing out some new form of radio compass, or a newly developed transmitter.

On land, he learns the fascinations of the railroad world, as he talks from the Twentieth Century Limited to some distant signal tower. He joins hands with the entertainers of the world as he speeds their joyousness through the

Basketball Team Meets Defeat on Recent Trip

(Continued from Page One)

went fairly well in the first half holding the blue and white to a 16 to 11 count, but fast passing and clever shooting kept the ball in Portland's territory and during the second half Cahill, Captain Newell, Holmes and Berg all contributed to the scoring.

The summary:

U. OF M. (46) (18) P. A. C.
Newell lf.....lf Smith
Holmes rf.....rf O'Connell
Cahill c.....c Duffy
Horsman lg.....lg Prince
Berg rg.....rg Rouse

Substitutions: U. of M., Small for Newell; Schlowburg for Cahill; P. A. C., Woodbury for Smith; Smith for O'Connell; White for Duffy; Berryman for Rouse; O'Connell for Smith; Hawkes for O'Connell; Rouse for Prince.

Goals from floor: U. of M., Holmes, 3; Newell 3; Cahill 6; Schlowburg 1; Berg 4; Horsman 1. P. A. C., O'Connell 1; Hawkes 2; Duffy 1; White 2; Rouse 1; Prince 1.

Goals from fouls, U. of M., Berg 10; Smith 1. Referee, Edwards. Timer, Welch. Scorer, Stack. Time, two 20-minute periods.

On Saturday night at Durham, N. H. the New Hampshire State College nosed out Coach Flack's proteges in the last half of a contest that was full of thrills from the first whistle to the final blast.

At the end of the first half the score was deadlocked at seven-all. But soon after the second chapter opened, New Hampshire caged a pretty shot, and the ensuing two points put the N. H. State College in the lead and Maine was unable to even up the score.

The struggle was marked by the clever covering of opponents by both teams. This strict shadowing of each other kept the score down to a small count.

The summary:

N. H. STATE (15) (9) MAINE
Metcalf lf.....lf Newell
Callahan rf.....rf Holmes
McKinley c.....c Soderberg
Stafford rg.....rg Berg

Substitutions, Ray for Callahan, Wentworth for Metcalf, Atkinson for Stafford. Goals from floor, Ray, Wentworth, McKinley 3, Stafford, Holmes, Newell, Berg, Horsman. Goals from fouls, Stafford 3, Berg. Referee, Powers. Time, two 20-minute periods.

\$1000 Prize Offered for the Best Scenario

(Continued from Page One)

eligible to compete and the name of the author and of the college and university will appear on the film when produced.

Scenarios should be written in short story form, the rules specify, and all non-essential details should be omitted. Ideas used must be original and the company reserves the right to make any changes considered necessary in title or story. Announcement of the winner of the contest will be made not later than Sept. 15, 1923.

President Little has indorsed the Laemmle Scholarship Contest and several students interested in scenario writing are expected to compete.

Any student may obtain further information concerning the contest from Prof. H. M. Ellis.

Old Order of Freshman Banquet Memory of Past

(Continued from Page One)

GUESTS

Senior Skulls: E. L. Kneeland, E. S. Lawrence.

Junior Mask: R. M. Hutchins.

The success of the well arranged and orderly banquet was due to the efforts of the Committee, A. S. Hillman, chairman, C. E. Emmons, H. A. Hussey, W. B. Plate, and C. F. Ward.

The freshman class officers are: O. F. Fraser, president; F. C. Newhall, vice-president; Kathleen J. Hunt, secretary; A. H. Doerr, treasurer.

"I had a terrible dream last night."

"Tell me about it."

"I dreamed that I was eating shredded wheat, and woke up in the middle of the night and half the mattress was gone."

"Oh, oh, oh, oh, oh, I can't see."

"Oh, oh, oh, oh, oh, what's the matter?"

"My eyes are shut."

Prof., do you believe in exams?

Prof.: I think that they are excellent training.

Well, I guess so, I practiced two weeks last year learning how to turn pages with my toe for the finals.

Radio Engineering Has Great Educational Value

(Continued from Page One)

medium of the broadcasting station, to lonely homes afar.

He mingles with the telephone engineers, in their orderly mazes, as he sends the wired word by wireless. In the huge transoceanic stations he sees all the solidity and order of any other power station.

At sea, he installs a telephone radio set and calls up Land Central to plug him in to some local desk telephone in a city in the Middle West.

Even under the sea, he listens in on the loop antenna of a submerged underwater craft and catches the orders of the flagship above.

The radio engineer is one of the most broadminded of the entire engineering fraternity, because he meets with, and exchanges ideas with so many other engineers of divergent callings, in the pursuit of his daily task.

INTERCOLLEGIATE

University of Missouri—The campus of the University of Missouri is soon to become the setting for a motion picture, the first of its kind, dealing strictly with college life. The characters are to be selected from the students now attending the university, and the picture will be exhibited thruout the state with a view to advertising the university, and presenting various phases of college life to the prospective students.

Wesleyan University—Wesleyan will meet Yale February 13th at New Haven in the annual swimming meet. The championship Yale team will engage in fourteen meets during the coming season. In eight of these meets there will be water polo games. On their schedule this year are included Dartmouth, Brown, Princeton and M. I. T.

West Virginia University—The Freshmen at West Virginia University are compelled to take part in some recognized college activity, after the second week of the college year. Logical explanation must be given to the Student Council, if they fail to comply with this rule.

Pennsylvania State College—Centre College is on the Pennsylvania State College football schedule for 1923, according to a recent announcement from Philadelphia. Because of the showing Centre College had made this year on the football gridiron, Pennsylvania has given her recognition as a sister college.

Washington State College—Fifteen scholarships to the State College of Washington have been offered by the Union Pacific R. R. to boys in the counties which the Union Pacific touches. The scholarships consist of \$75 each and railroad fare to and from Pullman. The boys are chosen by the county agent on the basis of activities in the community and scholarship. The Union Pacific intends to increase the number of scholarships from fifteen to twenty-five.

Colgate—In spite of the fact that five new chapters of Greek Letter fraternities were founded at Colgate between 1916 and 1918, the COLGATE MAROON finds that even the increased number of fraternities fails to meet the needs. The housing problem is stumping most societies just at present, as there are no houses to rent in Hamilton and only a few purchasable. The plan in operation at Northwestern is being considered. At that institution the college builds the houses and leases them to the fraternities for long periods. The buildings are all much the same style and as nearly as possible of equal value. When Colgate succeeds in solving the housing problem satisfactorily, the Maroon thinks that the question of a large number of fraternal organizations will settle itself.

Makes the Hair Stay Combed

"Lava," wrote the Freshman, "is what you use to shave with"

AND perhaps the Freshman was not so far wrong at that. He may have been thinking of lather that rolled down his cheeks, dried on his face, and erupted his feelings in the process.

Today, there is something better—Williams' differs from any shaving lather you ever used. For Williams' Shaving Cream contains a certain ingredient that is distinctly beneficial to the skin. And Williams' is easier to shave with. It softens whisker resistance with a speed that takes all the tedium out of the shaving process. Get a tube of Williams' today and begin enjoying its helpful care.

Notice the blinged cap. You can't lose it—and the tube hangs up!

Bates Puck Chasers Nose Out Maine Team

(Continued from Page One)

who, after a few minutes of hard fighting by all, carried the puck to the Bates danger line and with a final twist of his stick shot it into the cage. The crowd was wild at this point for now Maine was two points ahead of her opponent. Bates tightened up at this and by a lucky shot which landed in a peculiar angle from Baxter's mitt gave them the only point of the period.

When the whistle blew Elliott quickly had the rubber going around the back of Maine's goal, and was not stopped until he had flown by the Bates' goal leaving the rubber grinded in the net for the start of the second period. Things looked bad for Bates at this point, but soon the tide turned, for while Capt. Stearns was off the ice, Corey of Bates carried the puck to Maine's goal. The few minutes which remained in this period were furious ones for the players. Elliott left the ice for a minute then Roberts of Bates came over with him for a minute. Soon they were all back playing again and the sound of the timer's whistle was in the air, but not soon enough, for Bates had slipped another shot by Baxter.

The third period started with a tie score of 3 all. The same old fight was here again, but ended for a few seconds as Stover passed one by Batten thus putting Maine in the lead. This lead was only held for a few minutes, however, for at this point the Bates offense puzzled the Maine players to the extent of losing the score which tied the game again. There was still plenty of fight left but this was of no advantage, for the third period ended 4 to 4.

By agreement of the two Captains it was decided to play two extra five minute periods with an exchange of goals. In spite of desperate tries by both sides, neither could score in the first five minutes. It was a different story, however, in the last five minutes, for Bates made a lucky shot with only a minute left to play. The same old pep was in the Maine players but they were unable to cage a goal in the time remaining, thus leaving the score with Bates 5 and Maine 4.

The result of this game puts Maine out of the running for first place in the league, but she is nearly sure of the next position. The following is the standing of the league:

	Won	Lost	%
Bates	4	0	1.000
Bowdoin	4	2	.666
Maine	1	4	.200
Colby	1	4	.200

The summary of the game follows:

U. OF M. (4) BATES (5)
Stover rw.....rw Corey
Stearns lw.....lw Roberts
Elliott c.....c Cogan (R. Stanley)
Mackay rd.....rd Scott
Coakley ld.....ld J. Stanley
Baxter g.....g Batten

Goals: Elliott 2, Stearns 1, Stover 1,
Corey 2, Cogan 2, Roberts 1.

Referee, Blair. Time, 3 10 minute
periods. Two 5 minute over time peri-
ods.

Maine Athletes Excel at Winter Carnivals

(Continued from Page One)

Intercollegiate Half Mile Snowshoe race won by Patten of Maine, Eastman of Bowdoin, second; Wilson of Maine third; Ham of Maine fourth.

One Mile and One Half Cross Country won by Patten of Maine, Eastman of Bowdoin second, Paine of Maine third. Time 14 min., 6.7 sec.

100 Yard Snowshoe Dash for Men won by Plummer of Maine, Curtis of Maine second, Smith of B. H. S. third. 200 Yard Ski Dash won by Elliott of Maine, Bergenstrahle of Bowdoin second, Stubbs of Bowdoin third. Time 42.9 sec.

Obstacle Race won by Patten of Maine, Francis (Indian) second, Ham of Maine third.

Ski jumping won by Anderson of Bangor, Elliott of Maine second.

Maine won the finals in the snow events at the Auburn Carnival Saturday afternoon. Bowdoin excelled in the Ski races and Bates took first in the ski jumping but by taking all three places in two of the three snowshoe events and winning the third, the Blue team scored 23 points to 20 for Bowdoin, while Bates and Colby took 16 and 4 points respectively.

Summary:

220 yard Snowshoe Race won by Patten of Maine, Curtis of Maine second, Plummer of Maine third.

220 yard Ski Race won by Bergenstrahle of Bowdoin, Archibald of Bates second, Spear of Bowdoin third.

Snowshoe Obstacle Race won by Patten of Maine, Curtis of Maine second, Plummer of Maine third.

Ski Relay Race won by Bowdoin, Bates second, Colby third.

Three Mile Ski Race won by Bergenstrahle of Bowdoin, Gilpatrick of Bates second, Palmer of Bates third.

Cross Country Snowshoe Race won by Patten of Maine, Eastman of Bowdoin second, Chadbourne of Bates third.

Ski Jumping won by Huntington of Bates, 115 ft.; Jordan of Colby, 111 ft. second; Stubbs of Bowdoin 104½ ft. third.

Bill Elliott and Scrapper Hay of Maine, both sure point winners in the skii events, were unable to be at the Auburn Carnival as Elliott was playing hockey here at Orono and Hay was ill.

Maine Hockey Team Defeated by Bowdoin

(Continued from Page One)

add one more point to their score within a couple of minutes play. The Maine players seemed to have lost their eye for the rubber because soon another goal was put by Baxter from the stick of Plaisted. This tied the score and it seemed for a long time as if the scoring was over for that period but just before the whistle blew Tolman of Bowdoin came down the rink on the war path for after that rush Elliott came out with a cut across his chin and Tolman was the means of getting the winning point for Bowdoin. Elliott was not hurt so but what he was in the start of the third period and by the way he went after that no one would suspect that a Bowdoin man had touched him.

Mackay and Coakley managed to break up all of the Bowdoin rushes after this and the same could be said of the Bowdoin goal tender for he stopped some Maine shots that looked good at the start. This last period was not as fast as the others but there was some good work done by both sides.

The game was comparatively clean for such a hard fought contest. Elliott and Coakley both were obliged to leave the ice for one minute each, and Croin of Bowdoin tried to get away with a little rough play but was caught.

The only substitute used by "Cuddy" Murphy was Stone at left defense, who fought hard during the time he played. Weiden of Bowdoin took Croin's place.

Capt. Stearns, Elliott, and Stover were the out-standing players for Maine while Bucknam, the Bowdoin leader, directed his charges well.

Summary of the game:

MAINE 3 BOWDOIN 4
Stover rw.....lw Bucknam
Elliott c.....c Croin (Weiden)
Stearns (Capt) lw.....rw Cutter
Coakley (Stone) ld.....rd Miguel
Mackay rd.....ld Plaisted
Baxter g.....g Tolman

Bowdoin 4, University of Maine 3.
Goal, Stearns, Stover, Plaisted 2,
Bucknam 2. Referee, Blair of University of Maine. Timer, Capt. Norris,
U. S. A. Goal umpires, Ammidown,
Travers. Time, three 13 minute periods.
