Maine to Compete in Relay With Bowdoin

Bowdoin With Veteran Team is Striving to Average Maine's Cross-country Victory

Maine for the first time since 1917 will contend with Bowdoin in relay at the annual B. A. A. meet in Boston, Feb. 3. An attempt was made by the B. A. A. authorities to revive the old State of Maine championship run but Bowdoin and Colby objected to this plan. Colby this year will run Tufts and Boston University while Bates is scheduled to run Worcester Polytechnic and Rennselaer.

Maine has met with excellent success in relay in the past few years having won every run since the war, Tufts being the opponent since 1918. Last year a stronger opponent was given, Tufts having become too easy competition for our team, and Brown was the college chosen. Maine lost the race to Brown for the first time in quite a few years. Altho the team made as good time as the relay team in previous years, Brown succeeded in gaining an advantage in the early part of the race and held it thru to the finish.

New Literary Prizes Offered This Year

Three new prizes, two of twenty-five and one of fifteen dollars, are offered this year to undergraduate students in the university who have ability in writing either prose or verse. These, together with the prizes previously established, bring up the total amount to be awarded this year for excellence in composition to one hundred and fifty-five dollars. Full regulations for each of the prizes are posted on the Alumni and Estabrooke Hall bulletin boards.

The Literature Prize, twenty-five dollars, offered for the year 1922-23 by a member of the Class of 1905, will be awarded to the undergraduate student in the University who submits the best essay of from 2000 to 3000 words on any subject dealing with modern or ancient literature. The subject and general plan of the essay must be approved by the head of the language department to which it is most closely related, not later than February 1, 1923.

The Contributors' Club, publishers of the University literary magazine, the *Maine-Spring*, at a meeting held November 16, 1922, voted to offer two prizes, one of twenty-five dollars for the best prose article and one of fifteen dollars for the best poem submitted for publication in the *Maine-Spring* by any undergraduate student of the university during the academic year 1922-23.

Two prizes of fifteen dollars each are annually offered to the winners of the Sophomore Prize Essay contest, one for men and one for women. The essays, from 1500 to 2500 words in length, on any subject chosen by the student, must be submitted in outline to Professor Ellis, Associate Professor Draper, or Assistant Professor Watson on or before March 1, 1923.

The Maine Menorah Association has offered for several years a prize of ten dollars to that student in the university who presents the best essay dealing with any phase of Jewish history, character, or literature. There have been no students for the prize during the last three

Dr. Halverson Lectures In Portland

Professor Henry F. Halverson of the University conducted the first lecture in the Extension Course on Wednesday, Jan. 10, in Keith's Theater, Portland, under the auspices of the Church Federation. His subject was, "Some Practical Applications of Psychology." Professor Halverson made it his object to

Maine Easily Defeats New England College Five

Portland Men Are Outclassed by Superior Teamwork of Maine

Maine easily defeated the New England College five last Saturday night in Alumni Hall by the score of 35 to 11. The N. E. College five from Portland captained by Kelly, former Maine track star, put up a good game but lacked the superlative team work of the Maine

Winter Carnival Plans Approach Completion

Second Annual Carnival Program Has Many New Features Combined With the Best of Last Years

Carnival time is again approaching, and the air is full of speculation as to what the season will bring. Many a Maine man is already counting the days which must pass before he can see his home girl and show her the good times a carnival affords, and many a home girl is also counting the days, looking to her wardrobe all the while, so that in the brief week-end when she invades the college town, she can conquer not one, but every heart in sight.

Thursday, February 8, is the beginning of things. All day various victims of Cupid's dart will be meeting their ladies and getting them comfortably settled. Thursday evening the Maine Masque and the Domino start things off with a production in Alumni Hall.

After the Masque performance, the Carnival attendants will see an exceptional display of fireworks in front of Balentine Hall. This display, consisting

(Continued on Page Six)

Weight Men Practicing For State Track Meet

Preparation for the State track meet which comes in the spring has already started at the University of Maine. "Cuddy" Murphy has had a promising group of men working out under his direction, in the cage for several days. Much improvement in the form of doing the various things can be noticed and there are several men who promise to make a name for themselves and the university in the coming meet.

Much stress will be put on the form of these sports for a long time to come. Maine has a competent coach in "Cuddy" to train these men. The freshmen are showing up well and are steadily improving. Among these freshmen there are a number who came here with High School records and are showing the form that experience has taught them.

In the shot put, Jackson, a freshman from Deering High is showing up very well and promises to be a record holder before he gets out of college. Elliott is also keeping pace with Jackson at present and it now seems as tho he will be a point winner in the meet.

Fraser, Collins and Lipsett are all coming along fast and will make these others fight for their positions.

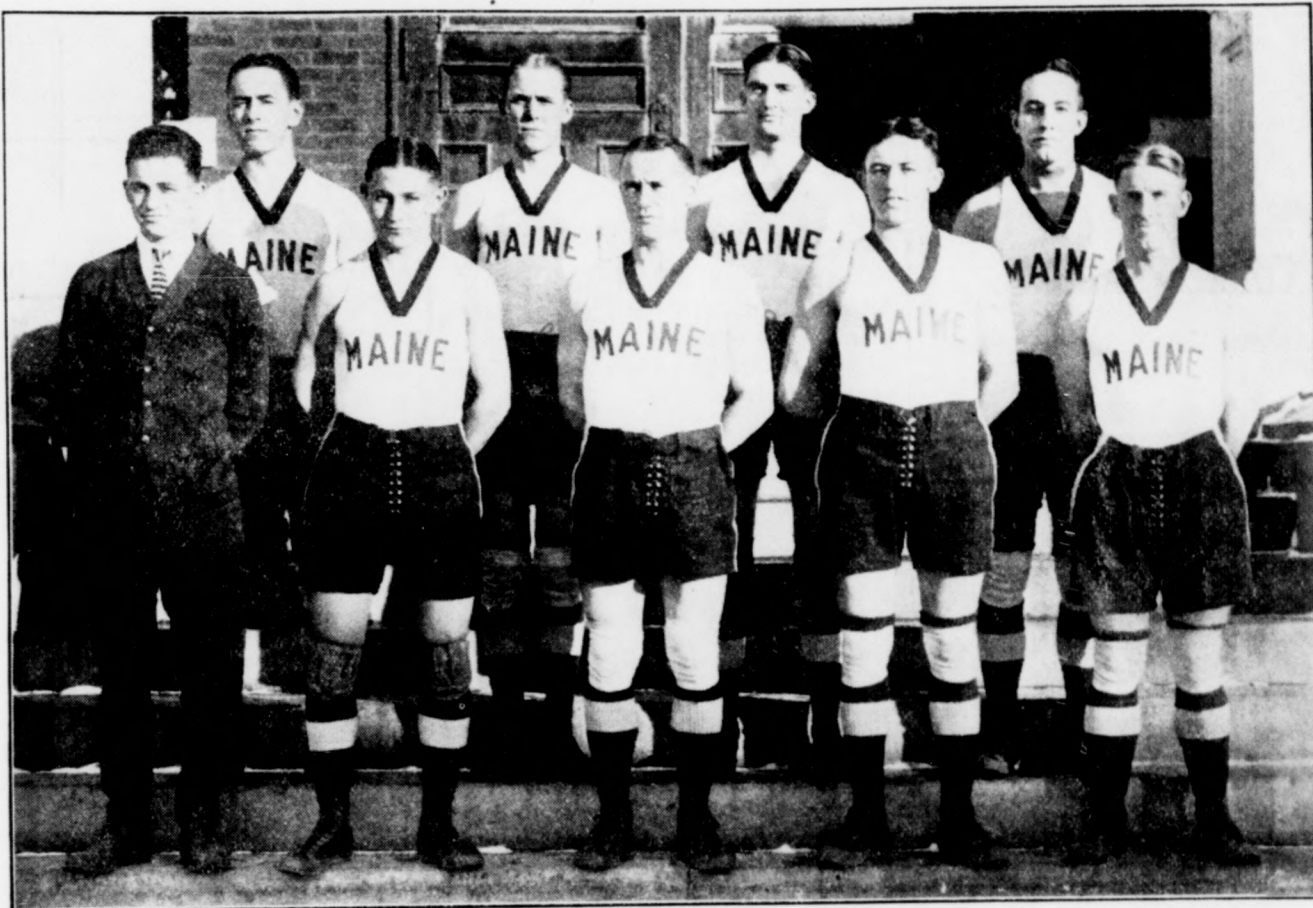

There doesn't seem to be quite as much material for the hammer throwing, but there is sure to be a good hammer thrower develop from the men who are working hard to acquire the form which are Cambell, Barrows, Fraser and Lipsett.

Jackson seems to be leading the group of discus throwers with "Len" Jordan as a close second. Sargent is also a very promising prospect from last year's squad. Banks, Sherer and Monroe are all improving and promise to develop into good material by the end of the season.

Much interest is shown at the practice afternoons, both by the boys and "Cuddy" and it is not uncommon to see the cage filled with students watching the practice.

Basketball Schedule For Girls Announced

Manager Winslow has announced the schedule for the girls' basketball team. January 26 Lee Academy at Orono February 2 New Hampshire State at Orono February 17 Plymouth at Plymouth March 9 Gorham Normal at Gorham March 10 New Hampshire State at Durham March 17 Plymouth at Orono

BASKETBALL TEAM 1922-23

North Dakota Debaters Defeat the Maine Team

The debating team of the North Dakota Agricultural College, undefeated during its trans-continental trip, won a unanimous decision of the judges over the Maine team in the Bangor City Hall Jan. 10, before a crowd of 1000 people. The subject of the debate was "Resolved that the United States Should Adopt the Towner-Sterling Education Bill." The teams were, for North Dakota: Jonas Sturlaugson and Snorri M. Thorfinnson; for Maine, Edward M. Curran '25, of Bangor, and Theodore W. Monroe '24, of Milo. The judges were Edgar M. Simpson, Harvey D. Miller, and Walter A. Danforth, all of Bangor.

The affair started with a concert by the University of Maine band, which was followed by a rendering of the North Dakota song, "The Yellow and the Green," during the entrance of the Western team; the Stein song was played during the entrance of the Maine team. Dean Stevens, as chairman of the evening, welcomed the Westerners in behalf of the University of Maine, and gave an outline of the order of the contest. North Dakota upheld the affirmative and Maine the negative.

The Westerners showed the effect of their long trip in the early stages of the debate, and, opposed by Curran's forceful delivery, and Monroe's strong, convincing arguments, were clearly out-pointed in the main speeches. Their experience, gained by debating the same

(Continued on Page Five)

Drive Is Started to Locate Lost Alumni

The Memorial Fund Committee, in order to get in touch with as many Alumni as possible relative to subscriptions to the Memorial Gymnasium-Armory Fund is making a drive for "lost alumni." In order to locate these "lost" men and women a list has been made up and will be found elsewhere in the Campus. If any student knows the whereabouts of any of these "lost alumni" won't he please notify the Alumni office?

squad. Coach Flack sent in all substitutes before the game was over. Berg baffled the Portlanders by his zig-zag dribbling and kept up the interest of the game in so doing. Capt. Newall netted eight points by classy shooting. Cahill who is filling Jowett's shoes showed up exceptionally well against the fast center of the College five. Cobb and Horsman also played a good game for Maine.

For the College five, Tribolet, former Rhode Island State man, played a flashy game, but lacked the support of his team mates. A large crowd was in attendance. The game was followed by a dance.

(Continued on Page Six)

"M" Club Selects Caps For the Varsity Men

The "M" Club has made a selection of caps for the varsity men. The style of these caps will be similar to that of the Senior Skulls, only a little longer in shape. The caps will be of dark blue with a light blue "M" in front.

As the University Store Company does not wish to take the responsibility for the sale of these hats at the present time, men wishing to obtain them should inform the secretary of the "M" Club and he will send for them as soon as enough are ordered. The price of these hats is undecided at present.

It will not be possible to have the charms as was at first thought.

New Members Elected To Campus Board

At the last meeting of the Campus Board the following, who have been trying out and doing good work during the year, were elected to the Board as reporters:

Henry Boynton '24, Donald Hastings '26, Charles Johnson '25, Mansfield Packard '25, Wesley Patterson '24, Theodore Skolfield '24, Mary Friend '24, Mary Loomis '25, and Bernice Purington '25.

Other elections recently made were as follows: Roy H. Carter, Business Manager; Wilfred C. Burr, Circulation Manager; and Frank Hussey, Assistant Circulation Manager.

Plans Are Well Underway For New Memorial Building

Alumni day on the commencement program for 1923, will probably witness an elaborate celebration in connection with the breaking of ground for the erection of the new Memorial Gymnasium-Armory. Students and alumni will naturally be expected to join in this celebration.

As is now generally known, the campaign to raise \$500,000 for the construction of an appropriate building in honor of the 41 men who lost their lives in the World War, was started at a meeting of the Alumni Council on November 19. A large committee was selected and the services of William McC. Sawyer '01 secured for campaign director. Since that time good progress has been made in working out the plans of an intensive campaign. Offices were opened in the Eastern Trust building in Bangor and Alumni Secretary Towner, with his assistants, has moved there to assist in the active work of the big drive.

The plan of action already well developed, includes extensive advertising and newspaper publicity educational work, followed by direct-by-mail appeals and personal solicitation. The appeal is to be made to alumni, alumnae, former student and all friends of the University of Maine, not forgetting the active student body, which will be expected, and as already intimated, will naturally wish

(Continued on Page Five)

Five New Members Are Initiated to Alpha Zeta

Friday evening, Jan. 12, Alpha Zeta held its usual winter initiation. Five new members were welcomed into the membership of Alpha Zeta. Owing to the severe storm and heavy fall of snow, the customary large attendance of alumni was missed by the active members.

The following men were initiated into the inner mysteries of Alpha Zeta.

Seniors: Edward Holden, Phi Kappa Sigma; Julius Garsoe, Lambda Chi. Juniors: George Lord, Lambda Chi; Earl Osgood, Frank Clark.

Town of Orono A Community Study

The report which is presented this week is the final one in the series for which material was prepared last year by students in the Department of Economics and Sociology.

Summary of Statistical Data Based on a Study of Two Hundred Thirteen Orono Homes.

The homes studied are scattered and fairly representative of Orono as a whole. Total number of families studied.....213

Total number of individuals studied.....1030

Average no. of individuals in each home (including lodgers and hired help).....4.84

No. of families having lodgers.....40

No. of homes where meals are given to lodgers.....15

No. of homes where meals are given to outsiders.....4

No. of families having hired help.....23

No. of individuals studied exclusive of lodgers and hired help.....900

Average no. of individuals in each home exclusive of lodgers and hired help.....4.23

No. of families having children under 18 years of age.....131

Percent of entire number of families having children under 18 years of age.....61.5%

No. of families whose head is employed by the University of Maine.....37

No. of families whose head is employed by the University of Maine having children under 18 years of age.....26

Percent of entire no. of families whose head is employed by the University of Maine having children under 18 years of age.....70.3%

Average no. of years spent in Orono by heads of families for whom time is specified.....19.22

Average no. of years spent in Orono by heads of families for whom time is specified and who are employed by the University.....8.79

No. of heads of families who are native born Americans.....161

No. of heads of families who are aliens and have not filed first naturalization papers.....18

No. of heads of families who have filed first naturalization papers.....12

No. of heads of families who are naturalized Americans.....11

No. of heads of families whose citizenship is not reported.....11

No. of heads of families having membership in at least one fraternal order.....98

No. of Catholic families.....79

No. of Protestant families.....124

(This last number indicates mere preference or casual attendance as well as church membership)

No. of families for whom no church relation is reported.....10

No. of families living in single houses.....152

No. of families living in two-family houses.....43

No. of families living in three-family houses.....14

No. of families living in four-family houses.....4

No. of families living in houses built of wood.....211

No. of families living in houses built of brick.....2

No. of families living in houses whose exterior appearance is good.....133

No. of families living in houses whose exterior appearance is fair.....73

No. of families living in houses whose exterior appearance is poor.....8

No. of families living where condition of grounds about the house is good.....128

No. of families living where condition of grounds about the house is fair.....72

No. of families living where condition of grounds about the house is poor.....13

No. of families who are tenants.....81

No. of families who own their home.....132

Aggregate no. of rooms occupied by 207 families for whom this information was obtained.....1611

Average no. of rooms per family.....7.78

Since the average no. of individuals in each home is 4.84, this gives as an average no. of rooms per individual.....1.61

No. of homes having telephone.....92

No. of homes heated by stoves.....119

No. of homes heated by furnace.....94

No. of homes lighted by oil.....40

No. of homes lighted by electricity.....173

No. of homes supplied with town water.....213

No. of homes having well or spring water in addition to town water.....18

No. of homes having inside toilet facilities.....169

No. of homes having bathtubs.....124

Junior Prism Editors Appeal for Material

The Grinds department of the 1924 "Prism" needs much more material. Everyone is urgently requested to contribute snapshots, jokes, original drawings, clever poems, or anything else that is suitable. Contributions should be handed to Conrad Kennison, Phi Eta Kappa, or to any other member of the "Prism" board.

Junior write-ups and Senior honor lists must be sent in at once to Hazen Ayer, Phi Kappa Sigma.

No. of families living in houses connected with the main sewer.....63

No. of families living in houses connected with private sewers.....77

No. of families living in houses with cesspool drainage.....54

No. of families living in houses for which sewerage disposal was not reported.....19

Note: The number of houses now connected with the main sewer is considerably larger than it was a few months ago when our data were collected.

What makes you look so bored?
I just ate a planked steak.

Summary of Etiquette In Using American Flag

"I pledge allegiance to my flag and the Republic for which it stands, one Nation, indivisible, with liberty and justice for all."

The American Flag, the emblem of our Country, is the third oldest National Flag in the world. It represents liberty, and liberty means obedience to law. In the heart of every American citizen the American Flag must have the first and highest place—must be supreme.

The FLAG should be raised at sunrise and lowered at sunset. It may be raised at other times, but should never be left out at night, EXCEPT when it is under the fire of an enemy.

On MEMORIAL DAY the FLAG should be displayed at half-staff from sunrise until noon, and at the peak from noon until sunset.

In raising the FLAG to half-staff or half-mast, it should always be run to the peak and then lowered ONE BREADTH OF THE FLAG. In retiring it, it should first be run back to the peak and then retired. It should never be allowed to touch the ground.

When the "STAR SPANGLED BANNER" is played or sung, stand and remain standing, in silence, until it is finished.

When the FLAG is passing on parade, or in review, if you are walking, halt; if sitting, rise, stand at attention and uncover.

The FLAG should never be worn as the whole or part of a costume. As a badge, it should be worn over the left breast.

In decorating, the FLAG should never be festooned or draped. Always hung flat.

If hung so stripes are horizontal, Union should be in left upper corner.

If hung perpendicularly, Union should be in right upper corner.

When the NATIONAL FLAG and another flag fly from the same pole there should be double halyards, one for each flag.

The FLAG should never be placed below a person sitting.

When carried in parade, or when crossed with other flags, the STARS AND STRIPES should always be at right.

When the FLAG is used in unveiling a statue or monument it should not be allowed to fall to the ground, but should be carried aloft to wave out, forming a distinctive feature during the remainder of the ceremony.

When the FLAG is placed over a bier or casket, the blue field should be at the head.

As an altar covering, the Union should be at the right as you face the altar, and

INTERCOLLEGIATE

Yale—Yale and Harvard are discussing the addition of a track athletic event as an added feature of their annual Commencement program. Those who favor it believe that if the Yale-Harvard dual track games were held in graduation week it would prove as popular as the Yale-Harvard baseball game, which is always held at that time.

Dartmouth—Approximately forty men have recently signed up for classes in recreational basketball, which started recently. These men will be organized into the Intra-mural Recreational Basketball League. Competitive games will be arranged, and it is expected that a certain entry fee will be charged for the members of each team, with which it is proposed to buy a chicken pie dinner for the winning team.

New York University—Two semester hours' credit are granted to the staff of

(Continued on Page Four)

nothing should be placed upon the FLAG except the Holy Bible.

The FLAG should never be reversed except in case of distress at sea.

The Engineering in a Curling Iron

What sort of engineering is it that makes a study of the needs and the interests of women and creates products to satisfy them? Does it seem that, in practice at least, this sort of thing is a little different from your understanding of what an engineer really is and does?

After all, when you come to think of it, engineering is concerned with all the facts of life. It takes the old facts and interprets them in new and broader ways; but its big job is the very big job of making more living, —fuller living,—readily available. It is, in every aspect, a thing worth doing, whether it concerns itself with curling irons or converters, or any of the thousands of products in between.

This is truly the day of the engineer. His judgments and his equip-

ment are sought in almost every phase of living. Engineering is remaking the business of housekeeping. Its methods are being applied to merchandising, to distribution, to the wrapping of bundles and the packing of boxes, to the lighting of streets and the hundreds of things that, a few years back, were strictly "rule-of-thumb". By the time you are at work out in the world, there will be more—though there are only a few of them left.

Whatever is worth doing is worth engineering; engineering effort dignifies itself. Whether it puts more usefulness into transformers or curling irons or turbines does not matter. The thing that counts is the work, the creative, constructive service that is going on for the lasting benefit of mankind.

Westinghouse

ACHIEVEMENT & OPPORTUNITY

HISTORY OF FRATERNITIES

Kappa Sigma

Before the present Kappa Sigma fraternity became a chapter in the National Fraternity, it was organized in 1884 as the K. K. F. Society. A year later, with the help of the Beta Theta Pi fraternity the only chapter of a national fraternity on the campus at that time, the K. K. F. Society became Kappa Sigma. The charter was granted December 1, 1885 making the Maine State College chapter the second chapter to be formed in the North. The charter members are John D. Blagden, Josiah M. Ayer, Charles B. Gould, Gilbert S. Vickery, Norman Tupp, Seymour F. Miller, Charles A. Mason, Frank R. Collins, Seyman E. Rogers, Hugh A. McNally, Alfred S. Ruth.

In 1895, the Kappa Sigma House, the first fraternity house on the Campus was built. Up to this time the society had held its meetings in the third floor of Fernald Hall.

Professor Adelbert Sprague '05, Director of music at the University of Maine set the Stein Song to music when Lincoln Colcord wrote it.

Robert Drummond '05 is now head of the German Department at the University.

Lore A. Rogers '92 is a forestry inspector for the United States in foreign countries. Russell Smith '11 known as the "little giant" on the diamond, starred as captain of baseball and has continued to make good, now as an Inspector of Dairies in the National Dairy Department at Washington.

William Parker '11 helped put Maine on the map in football and held the captaincy three years. He was instantly killed by electricity the year after he graduated. He was said to be one of the most popular students to graduate from Maine.

Luther Rogers '13 broke the New England Intercollegiate pole vault record. He

of Foreign Wars here at the University. have been named for him. A memorial cup has been given by the Kappa Sigma fraternity to the University of Maine.

Guy Palmer '17 was the first man to receive the gold watch given by the Washington Alumni Association to the man who does the most for his college. He was a captain of football. Jerry Reardon '19 captain of both football and basketball, also received the gold watch.

Kappa Sigma had an excellent war record. Two weeks after the United States had declared war, thirty of the thirty-six in the house had enlisted and gone, and the house was closed. Guy Palmer lost his health thru overwork as an instructor in the Training Camps.

William Nash in the Engineers Corps helped lay the first rails by the A.E.F. and ran the first locomotive over them.

There have been 399 members initiated in Psi Chapter. Those in college now are Adolph L. Bisson, Skowhegan; Lawrence C. Connor, Bangor; Armando J. Conti, Eastport; Frank B. Edwards, Fred B. Edwards, Shelbourne, N. H.; Leslie E. Fayle, Old Town; Raymond C. Fitzhenry, Lubec; George H. Gruhn, Columbus, Wisconsin; Stanley B. Hyde,

KAPPA SIGMA HOUSE

This house has been the home of many of the big men who have graduated from the University of Maine. Some of them were athletes and others who were not, have since gained international fame.

Dr. Jeremiah S. Ferguson '89 served as chief executive of the Kappa Sigma Fraternity for three years and is still one of the five National officers.

Lincoln Colcord '05 wrote the words of the Stein Song and some of the other University songs and has since gained international fame as a writer, poet and journalist. Judge George F. Rich is a successful corporation lawyer. These three received at the hands of the University of Maine last June the honorary degrees of LL.D.

is now chief inspector of the Electrical Department of the Boston and Albany Railroad with headquarters in New York.

Charles Ruffner '16 was captain of football a year. After coming thru the war without a scar, he lost his life in a mine explosion while trying to save the lives of the men in his charge. Roger Bell, also '16 was never defeated in a Cross Country race. He was captain of the team and broke the Maine Intercollegiate Record.

There were several stars in the class of '17. Charles Rice '17 the wonder sprinter needs no comment as to his ability. He died of wounds during the war and the Legion of Honor post in his home town as well as the Veterans

Saco; Donald F. Hastings, Rockland; Albert E. Jones, Brighton, Mass.; Leonard B. Jordan, Westbrook; Russell S. Leighton, Columbia Falls; Charles F. Moody, Saco; Donald H. Pike, Mansfield, Mass.; Wesley F. Porter, Patten; Howard H. Randlette, Richmond; Roger B. Stone, Swampscott; Fred Treccartin, Lubec; Herbert J. Wood, Lewiston; Paul E. Atwood, Bangor; Burton R. Carroll, Lynn, Mass.; Wallace H. Elliott, Presque Isle; George H. Frye, Harrington; Reginald F. Johnson, Hancock; Bernard D. Knowles, North New Portland; Richard W. Nelson, Boothbay Harbor; W. Stanley Ross, Columbia Falls; Alfred F. Stevens, Oakland; Arthur C. Sylvester, Mars Hill; Karl B. Whitcomb, Orono.

Personnel of The Senior Skill Society

The Senior Skill Society is an honorary fraternity, founded in 1906, with the general purpose of promoting college customs, and bringing about in every way a closer unity of the student body. The members are chosen at the end of their junior year for their popularity and general activity in college affairs.

"Joe" Beckett, Sigma Chi, comes to us from Calais. His career at the University has been wide and varied. He has been treasurer of his class for two years, and has been associated with the Campus Board for three years, first as contributor and then as Business Manager. He was manager of varsity track his junior year, following a season as assistant manager. He was a Sophomore Owl and a Junior Mask, and is a member of Sigma Delta Chi, the honorary journalistic society.

"Dave" Hoyt, Sigma Phi Sigma, hails from Eaton, in Aroostook County. He was a member of the Campus Board his sophomore year and was Business Manager of the Prism his junior year. He was assistant manager of football last year, and is the present varsity manager of that sport. He was a Sophomore Owl and a Junior Mask, and is a member of the Economics Club.

"Jack" Jowett, Sigma Nu, claims Uxbridge, Mass. as his home. He first shone in basketball, playing on both class and varsity squads. Baseball is his specialty, however, and it is in that sport that he has distinguished himself most.

"Jack" was a Sophomore Owl and a Junior Mask.

"Ed" Kneeland, Phi Eta Kappa, is the pride of Princeton, Me. He has distinguished himself in various lines during his career. He ran in class track his first two years and in varsity track his second and third years, and was a member of the champion cross country team last year. He was Associate Editor of the Prism, and is now Athletic Editor of the Campus and Editor-in-Chief of the Mainiac. He is a member of Sigma Delta Chi and the Contributors' Club.

"Ned" Lawrence, Phi Gamma Delta, comes from Gardiner. He was a member of the Varsity relay squad his first and second years, and was elected captain his third year. He has distinguished himself in varsity track throughout his course. His sophomore year, he was the winner of the "Pat French" cup. As varsity cheer leader last year, he put the old pep into the student body. "Ned" was a Sophomore Owl and a Junior Mask, and is a member of Alpha Chi Sigma.

"Len" Lord, Alpha Tau Omega, claims Saco as his home. He has starred in football throughout his four years at college, playing first on the class team and then on the varsity squad. He was also on the varsity track squad his sophomore year. He was a Sophomore Owl and a Junior Mask and is a member of Alpha Chi Sigma.

"Mac" McKeeman, Phi Eta Kappa, hails from Calais, Me. He was a member of the class baseball team his sophomore year, and was also elected assistant manager of track the same year. However, he distinguished himself by his good work on the cross country squad

last year. He is the present cross country captain. "Mac" was a Sophomore Owl.

"Ike" Prescott, Lambda Chi Alpha, is a native of Sanford. Baseball is his specialty, and he has been on the varsity team his three years at college. He was a Sophomore Owl and a Junior Mask, and is a member of Alpha Zeta, the honorary Agricultural fraternity.

"Buck" Thomas, Phi Kappa Sigma, comes from Camden. He has been prominent in both track and football, being a member of both varsity squads. He was president of his class his sophomore year, and was a Sophomore Owl and a Junior Mask.

"Chub" Thomas, Phi Kappa Sigma, is another pride of Camden. He was manager of baseball last year, following a season as assistant manager. He was president of the class his junior year, and was a Junior Mask. He is now president of the Athletic Association.

Sigma Chi Informal

A most enjoyable party was held at the Sigma Chi House, Friday evening, January 12. The dance celebrated the opening of the chapter house which has been recently remodeled. The rooms were finished in an artistic color scheme.

Reiche's orchestra furnished music for the dancing, which was enjoyed by the members of the party.

Refreshments of ice cream and cake were served at intermission.

The chaperones for the evening were Dr. and Mrs. Whitcomb, Mr. and Mrs. Sweetser and Mr. and Mrs. Towner.

(Continued from Page Three)

Intercollegiate

the "New York University News" Board.

New Hampshire State—A joint committee of faculty and students named to consider winter sports has recommended the expenditure of \$1000 on a ski jump and skating rink. The erection of a fifty foot tower with concrete piers on a site a mile and a half from the campus to enable jumpers to make 100 feet is recommended.

M. I. T.—Registration figures for this year have been finally tabulated and show a total of 3244, which is a decrease of 291 under the high mark set by last year's enrollment. The Senior class leads all other classes with a showing of 759. Sophomores come second with 727 and Juniors third with 682. The Freshmen trail this year with only 607. There are 269 graduate students pursuing courses for advanced degrees or taking special work without classification. There are 37 co-eds registered at the Institute.

According to little Daniel he expects to be graduated from Columbia college in two and one-half years. He will attend summer school every session. At the present time he is including mathematics, languages, and contemporary civilization.

Shibles Tells Hecks Of Agricultural Club

The Two Year Heck Club held a very interesting meeting in Room 12, Winslow Hall, on the evening of Wednesday, Jan. 10. After the regular business meeting, the members of the club listened to a very interesting and instructive talk by Mr. Shibles, the leader of the Boys' and Girls' Clubs of this state. Mr. Shibles outlined his work in a very clear way, and brought out phases with which most of the Agricultural students are not familiar.

After the talk by Mr. Shibles, the meeting was opened for an informal general discussion and refreshments consisting of apples, peanuts and plenty of "smokes" were provided for all.

This club, which was formed some time ago by the students registered in the two-year school course of agriculture, holds regular meetings on the second and fourth Wednesday of each month. Some sort of program is planned for each meeting and it is endeavored to make them interesting to all school course men. The entertainment committee plans to have speakers from the different departments of the Aggie College and also from the Extension Service and Experiment Station, to explain their work and its relation to the farmer. Other meetings will be given over to discussions on subjects of interest to the members.

The next meeting, which will be the last before the annual meeting and election, will probably be held on the evening of the twenty-fourth. Mr. Day and Mr. Garland, both first year men, will have charge of the discussion at this meeting, which will be of special interest to all students in this course.

JOHN WARD men remember when the standards of dress at leading Universities ran to corduroys and jerseys. The undergraduate today is the best dressed man in all the country. Taste in shoes, for instance, is most exacting. The pattern of the John Ward styles and the volume of the John Ward business prove it.

University of Maine

The State University Maintained by the State and General Government

COLLEGE OF ARTS AND SCIENCES.—Major subjects in Biology, Chemistry, Economics and Sociology, Education, English, French, German, Greek Language and Literature, History, Latin, Mathematics and Astronomy, Psychology, Physics, and Spanish and Italian. Special provisions for graduates of normal schools.

COLLEGE OF AGRICULTURE.—Curricula in Agricultural Education, Agronomy, Animal Husbandry, Biology, Dairy Husbandry, Forestry, Home Economics, Horticulture, Poultry Husbandry, School Course in Agriculture (two years). Short winter courses. Farmers' Week. Correspondence and lecture course. Demonstration work.

COLLEGE OF TECHNOLOGY.—Curricula in Chemical Engineering, Chemistry, Civil Engineering, Electrical Engineering, and Mechanical Engineering.

MAINE AGRICULTURAL EXPERIMENT STATION.—Offices and principal laboratories in Orono; Experiment Farms in Monmouth and Presque Isle.

GRADUATE COURSES leading to the Master's degree are offered by the various colleges.

SUMMER TERM of six weeks (graduate and undergraduate credit).

Mr. Kelley Attends Babson Institute Meeting

The program of the fourth meeting of the Association of Business Officers of New England Educational Institutions which was held at Babson Institute, Wellesley Hills, Mass., December 27th and 28th, was outlined at Chapel exercises by Edward H. Kelley, Asst. Treasurer of the University of Maine.

The meeting opened Wednesday evening with a banquet at Wellesley Inn. H. A. Vickers, President of the Association and George W. Colman, President of Babson Institute, were the principal speakers. The next session was held on Thursday morning at Assembly Hall, Babson School, Babson Institute, and the speakers were as follows:

"Tuition Charges—State and Out-of-State Students," Mr. Kelley, University of Maine; "Some Phases of College Investment Problems," H. C. Edgerton, Treasurer, Dartmouth College; "Scholarships for the Undergraduate," F. B. Johnson, Bursar of Yale University; "Loan Scholarships," H. S. Ford, Bursar of Mass. Institute of Technology.

At the afternoon session the election of officers took place, and the reports of committees were read. This was followed by a paper by Miss Ethel Bedieret Director of Harmon Foundation. "Handling Student Loans" was the subject chosen by her, and it is a subject that is of the greatest interest to the University of Maine. Another paper rather startling in its possibilities was "Reducing College Costs," by Frank P. Spere, President of Northeastern University. A Round Table discussion closed the program.

Mr. Kelley further outlined briefly the main points contained in the paper which he read before the Association. "Discrimination between state and out-of-state students in the matter of tuition, in the land grant colleges and universities of the country, is evidently a matter of expediency rather than of equity."

"As a result of the action of the executive and legislative circles of certain states, several land grant institutions in the East have been influenced in increasing the charges against outside students. Here in Maine our Legislature has taken practically the same attitude, and consequently the Board of Trustees has increased tuition charges so that they now are \$125. for residents of Maine and \$190 for out-of-state students. This of course covers all charges for laboratory fees and does away with the former 'blanket tax' for athletics and student publications.

"The tuition charges for resident students at the University of Maine have increased from nothing to the point reached to-day. This has been made necessary on account of the increased demands upon the state for appropriations to care for the larger number of students and to meet the modern demands of instructional work. Nevertheless the present tuition at Maine is greatly in excess of the charge made by any other land grant colleges, with the exception of possibly one or two. This fact will have little weight with the legislature as long as the percentage received through tuition is still considerably less than the actual cost.

"It was maintained that we could not rightfully discriminate against state and out-of-state students because of the fact that the Federal Government endowed the institution by the grant of land during the dark days of the Civil War and was appropriating thru the Morrill Act a substantial sum for maintenance. In more recent days the amount received from the state has exceeded the \$50,000 appropriated by the Morrill Act and we are not in a position to maintain the same attitude as heretofore."

"Land grant colleges may in the future agree on a fixed rate for out-of-state students. However, it should not be maintained that all land grant colleges, regardless of facilities or opportunities, should have one charge for all students.

"A state should provide higher education for its students at the lowest possible cost, and if any action is taken it should aim to reduce tuition charges of resident students. 'New England may not be disposed to deal so liberally with its own as the states of the Middle and far West, but I feel that we should not lose sight of the fundamental ideas incorporated in our first catalog, which proposed to 'Give the young men of the state who desire it at a moderate cost the advantages of a thorough, liberal, and practical education.'"

One reason why there are no women locomotive engineers is that they would have to be out all night with the fast mails.

Kappa Phi Kappa Chapter Installed at University

A chapter of Kappa Phi Kappa, an educational fraternity, open to men only, is to be installed at the University of Maine, Wednesday afternoon, Jan. 17.

The purpose of Kappa Phi Kappa is two-fold: first, to interest worth-while men in undergraduate student bodies in teaching as a profession; second, to afford a medium of social and professional contact of such men as are of outstanding promise in this field.

Kappa Phi Kappa is a recently established fraternity, and has possibilities of an exceedingly useful future. Dr. Riverda Jordan, Prof. of Education at Cornell University is president.

The following men are to be charter members of the Maine chapter:

Undergraduates: G. M. Bates, H. L. Bowen, F. U. Burke, R. F. Coney, F. B. Dobbins, H. S. Emory, E. J. Felker, J. M. Grant, C. M. Hamm, P. H. Harri-man, M. E. Higgins, A. G. Knights, L. B. Jordan, A. S. Knoyes, E. L. Kneeland, H. S. Newall, A. C. Perry, R. F. Plummer, H. H. Randlette, W. A. Simpson, M. C. Whitcomb, P. L. Whitcomb.

Graduates: H. P. Foster, C. W. Peterson, E. C. McGraw, H. P. Swicker.

Faculty: Prof. Halverson, and Prof. Pollard.

Girl's Athletic Board Furnishes Snowshoes

The Girls' Student Athletic Board has bought six pairs of snowshoes for the use of any girl who wishes to participate in that sport. These snowshoes were bought especially for the girls who wish to take part in the Augusta and Maine Carnivals, but have no snowshoes. The Augusta Carnival takes place Feb. 16, and there the girls will race the girls from Bates. Last year the U. of M. girls won the race, and they should be able to repeat their victory this year, providing enough girls take an active interest in it. Watch the Campus for the date of the tryout.

At the U. of M. Carnival there will be a snowshoe, a ski, and an obstacle race between the girls of Balentine and those of Mt. Vernon. There the girls will have a chance to practice for the Augusta Carnival, as well as to help win prizes for their respective dormitories.

Extension Faculty Holds Semi-Annual Conference

Another gathering of importance held on the campus in the Christmas vacation was the semi-annual conference of members of the College of Agriculture extension service. The conference occupied four days. The program was devoted largely to discussions of methods and practices in extension work. Those in attendance were:

Dr. Leon S. Merrill, director; Charles E. Crossland, executive secretary; A. L. T. Cummings, agricultural editor; A. K. Gardner, crops and soils specialist; M. D. Jones, farm management demonstrator; R. F. Talbot, dairy specialist; Lester H. Shibles and Mrs. Arra S. Mixer, leaders of boys' and girls' club work; O. M. Wilbur, poultry specialist; Miss Edna M. Cobb and Miss Eleanor Jackson, home economics specialists; A. L. Deering, county agent leader; Miss Rosalind M. Jewett, home demonstration agent leader.

County Agents: R. N. Atherton, Androscoggin-Sagadahoc; H. E. Bickford, Hancock; C. A. Day, Kennebec; R. B. Dodge, Penobscot; N. S. Donahue, Waldo; W. M. Gray, York; C. C. Larrabee, Piscataquis; R. H. Lovejoy, Oxford; E. W. Morton and J. H. Philbrick, Aroostook; J. H. Pulsifer, Franklin; D. W. Reed, Washington; W. S. Rowe, Cumberland; C. A. Storer, Somerset; R. C. Wentworth, Knox-Lincoln.

Home Demonstration Agents: Iva V. Barker, Penobscot; Helen Clark, Kennebec; Della I. Connor, Cumberland; Helen P. Cooper, Androscoggin-Sagadahoc; Mary G. Flint, Washington; Marion G. Hare, Somerset; Claire Herrick, Knox-Lincoln; Flora Howard, Piscataquis; A. Evelyn Howe, Hancock; Estelle Nason, Waldo; Anita Nicholson, Oxford; Helen C. Spaulding, York; Marjorie P. Symonds, Franklin.

(Continued from Page One)

Plans Are Well Underway for New Memorial Building

to contribute as large a sum as possible to the fund.

Very Large Enrollment In Boy's and Girl's Clubs

Early enrollment in the boys' and girls' agricultural and home-making clubs of Maine, a feature of College of Agricultural extension work, indicates that this year will rival 1922 in membership. The enrollment to date is far ahead of that of the corresponding period a year ago. Oxford is leading all the counties. Waldo is in second place, Hancock third, Aroostook fourth, York sixth and Somerset seventh.

Final Interclass Games To Be Played This Week

Wednesday, January 17, at 7:30 the final interclass games will be played: sophomores vs. seniors, and freshmen vs. juniors. The teams are well matched, and both games should prove interesting. Admission 20 cents. Miss Huesman will pick the 'varsity squad from the class teams. Any girl wishing to make 'varsity should try out at once, as many more girls are needed.

Delta Sigma Nu Elects Monroe to Membership

Delta Sigma Nu, the local honorary debating fraternity, wishes to announce the following pledge: Theodore W. Monroe '24, of Milo. He won this honor by his remarkable showing in the Maine-North Dakota debate. He is a member of the "M" Club, Junior Masks, and the S. A. E. fraternity.

At the last meeting of Delta Sigma Nu, the following officers were elected from the remainder of the year: H. E. Wilson '23, president; E. M. Curran '25, vice-president, and H. L. Richardson '24, secretary-treasurer.

Military Party Enjoys Dinner at Balentine

Mrs. Louise Hendrickson of Balentine Hall entertained the Army officers and their wives, and the R. O. T. C. officers and sponsors at dinner Sunday night. Informal after-dinner speaking was in order, and a most delightful time was enjoyed by all. Other guests included Mrs. Clarence Little, Dean and Mrs. Boardman, and Mr. and Mrs. A. L. T. Cummings.

Tau Beta Pi Initiation

On Monday evening, Jan. 15th, at 7:30 P. M., Maine Alpha Chapter of Tau Beta Pi Association held the first initiation of the year in Wingate Hall at which those men elected during the fall semester were formally received into the order. After the ceremonies were completed under the able direction of President Adrian L. Ackley, those present enjoyed an instructive as well as amusing talk by Professor C. P. Weston, the subject of which was "Why and What is an Education?" Professor Weston strongly advised all college men to go out for their "letters" in the three main branches of college life, i. e., intellectual pursuits, athletics, and social activities. In the first branch the letters to be striven for were the letter A or the letter B; in the second, the letter "M" was the one to be attained; in the third branch which involves necessarily the contact with man's complement—woman, the recommendation was again letter B (let'er be).

Following the speaking suggestions were made and plans adopted for a very interesting season for the chapter during the remainder of the year. Excellent refreshments were served and the evening was concluded with a general social discussion.

Those initiated were Wilbur E. Meserve '23, Lionel St. Pierre '23, Verlie A. Webber '23, Howard E. Wilson '23, Arthur E. Kittredge '23, Henry S. Boynton '24.

Already many of the students have approached the general committee with offers of assistance. Assistant Campaign Director Phil R. Hussey '12, who is putting his whole time into this campaign, has replied that these offers are keenly appreciated and that very shortly the committee will work out the definite plan by which these offers may be made available.

Probably a fixed sum will be asked of the student body, with the understanding

that the money be raised from any source except the alumni and such other individuals as would naturally be reached by the general committee. This sum will be large enough to give the student body a substantial interest in the movement and redound to their credit in the years to come.

While tentative plans of the prospective building are being prepared for campaign purposes, it will be some time before the complete details of the requirements can be worked out. In general, the building will be of ample size to accommodate the Physical Training, Athletic and Military department of the University. The Memorial Gymnasium-Armory will be several times larger than Alumni Hall and of sufficient capacity to provide for a baseball diamond, football practice and battalion maneuvers of the Military department. Cinder tracks and a straight-away, jumping, vaulting and weight pits, a gallery for rifle range, basketball courts and gymnasium for the department of physical education will be provided, as well as offices, class rooms and general headquarters for the different departments to be accommodated.

The general plans for the raising of the required amount are being carefully worked out. The actual solicitation will be thorough and effective. Maine's alumni have never been called upon to contribute. They are to be depended upon to put this thing through with a bang. The students can and will help immensely and in due time the Memorial Gymnasium-Armory will be a wonderful asset to the Maine Campus.

(Continued from Page One)

North Dakota Debaters Defeat the Maine Team

question throughout their trip, enabled them, however, to make the most of every weakness of the Maine case in the rebuttal. Thorfinnson, the last speaker of the evening, clinched the debate for the affirmative by cleverly showing that the local team had interpreted the bill too liberally.

The features of the debate were Monroe's main speech and Thorfinnson's rebuttal. The Maine team presented a case that would have proven invincible to any team with equal experience. Never was Curran more versatile in his arguments nor forceful in his delivery. "Ted" Monroe, although participating in a debate for the first time, displayed the same 'punch' that he has shown in baseball and football. He gave proof of having every qualification of a successful debater.

The debating coach, Prof. Bailey, was well satisfied with the showing made by the team. It has been his policy from the beginning to develop his speakers by sending them against stronger teams rather than to weaken their future usefulness by allowing them to win from teams that could teach them nothing. The debating squad is now busily engaged in preparing for the Occidental College debate in April.

(Continued from Page One)

Maine to Compete in Relay with Bowdoin

This year the B. A. A. authorities have tried to make the program shorter and run more teams at a time—thus the change in Maine's opponent.

Relay got an early start before the Christmas vacation and the most of the squad reported for practice to get into condition. Since the close of the holidays the weather has been far from ideal but the squad has been hard at work on the outdoor track at the rear of Alumni Hall. With the race only a few weeks away intensive training has started and Maine hopes to have a relay team which will hold up the reputation she has made in her past relay races.

Ed Kneeland is Capt. of this year's squad, he is a member of Phi Eta Kappa and has been a member of cross country and track teams for the past three years and was a member of the relay team last year. Lawrence and Pick O'Connor are the other two veterans of the team. Lawrence is ex-captain of the relay team and captain of varsity track this year, he is also holder of the quarter mile record in the state and has been a member of the track and relay teams for the past three years. O'Connor has represented the university both in track and relay for the past two years and bids fair to accomplish good work both in relay and track this year. Jim Blair, the other veteran of the team has turned his attention to hockey this year.

An added inspiration to the men running is the Pat French relay cup which is awarded for a year to the man running the fastest time trial in relay on the board track. Last year Kneeland and Blair was tied for time which was 57 seconds. The first year that it was

awarded, two years ago, it went to Ned Lawrence. Howard Flack, Track and Basketball Coach, has the squad under his direction and all those who have followed him in his work at Maine know that he will do his utmost to produce a winning team. Altho coaching basketball too he finds time to devote himself to both activities and help in other activities as well. Conrad Kennison is manager of track and his assistants are Ben English and Don Penley. This is a busy time for these men as the track must be kept in condition in spite of the weather conditions. The freshmen working out under these men are Rowe, Jordan, Sweett, Getchell, Lucas, Small and Stevens. The student body hardly realizes that these men are putting in time and energy on this work until election time and then they wonder who they are. It is a good time now to get acquainted with them and know what they are doing.

The following upperclassmen are reporting for practice every day: Lord, Strong, Murray, Ames, Webb, Lawry, Blethen and Scott. Nearly all these men have track experience and will give keen competition for a place on the team. The freshmen are: Cahill, Ross, Whitcomb, Tibbetts, Moody, D. L., Milliken, Hart, Hamilton, Cutting, Beedle, Atwood, Plummer, Gowdy, Ward and Ridlon. Cahill won both the quarter mile and two-twenty yard run at the pumpkin meet last fall, he hails from Bath and will prove to be a dangerous contender for the varsity men. Among the other freshmen who are showing up well are Ross, Cutting, Beedle and Ridlon.

Bowdoin will put a strong team in the field next month with three veterans in college. Hunt having been lost by graduation, Mason, Butler and Palmer will be three strong contenders and the other man will be probably chosen from new material entering this year. The squad from Brunswick will not be easy contenders and Maine must put forth a good team to keep up with the Bowdoin boys.

A Butterfly Carnival To Be Given at Orono

One of the most interesting events of the future will be the Butterfly Carnival to be given in the Orono Town Hall, January 24 and 25. This is given by the Woman's Club of Orono.

In the first evening a musical play, "Titian, the Queen of the Fairies" will be given and this promises to be a great feature. Thursday evening there will be a dance to which University students are especially invited. Each afternoon there will be sales at the different booths.

Maine student can help make this a success by attending partaking of the refreshments for sale and having a lot of dance.

W. N. Rogers L'16 Elected to Congress

To become one of the youngest members of the national Congress is the honor which comes to William N. Rogers, Law 1916, as the result of his political activity in his native state of New Hampshire. He will have just reached 31 years of age when he is sworn in next March. This is his second try for Congress, having been a candidate four years ago and defeated by only a 1500 majority. This year he was part and parcel of the Democratic landslide in New Hampshire, polling a 6500 majority in the First New Hampshire District.

Rogers has had a spectacular political career, serving four terms in the House and being the virtual party leader in every session. He won instant recognition by his maiden speech, which was one of the most brilliant ever made in the Legislature by a new member, and he has electrified the House by his speeches in every session since.

Soon after his first session in the House he became a member of the staff in the law office of Streeter, Demond, Woodworth & Sulloway, of Concord, N. H., and he has proved as successful as a trial lawyer as in the debates on the floor of the House, having many notable victories in court cases to his credit.

Rogers was born in Wakefield, N. H., and still holds his home there altho he practices law in Concord. He is a grandson of the late John W. Sanborn, for many years the dominant leader of the Republican party when that party was in the zenith of its power in New Hampshire. He prepared for college at the Brewster Free Academy, entered Dartmouth College, transferred to the Maine Law School and graduated in 1916. While in the Law School he was exceedingly popular, served as editor of the Maine Law Review, and successfully coached the Bangor High School football team.

Annual Farmers' Week Comes During Vacation

Every year, during the spring vacation, is held at the College of Agriculture a short course of lectures and demonstrations especially adapted to farmers. The occasion is scheduled as Farmers' Week. Members of the teaching force of the College of Agriculture, specialists of the extension service, members of the Maine Department of Agriculture, one or two representatives of the United States Department of Agriculture, officers of various agricultural associations and Maine farmers who have specialized in certain lines are assigned as speakers. For the women there are lectures, discussions and demonstrations on various topics relating to home economics. Board is furnished at the dormitories.

Farmers' Week this year will occur March 26-30. Dean Merrill and Prof. Corbett are arranging the program. The Maine Federation of Agricultural Associations, the Maine Federation of Farm Bureaus and the Maine Livestock Breeders' Association will hold their annual meetings on the campus at that time, and it is expected that other agricultural organizations, among them the Maine Pomological Society, the Maine Seed Improvement Association, the Maine Holstein Breeders' Association and the Maine Beekeepers, will also have special assignments on the program.

New Literary Prizes Offered This Year

years, but it is hoped that several papers may be presented to the Head of the Department of English before May 1, 1923.

In addition to these prizes available for all students, one of the New York Alumni Association Scholarships, fifty dollars, is annually awarded to the junior student in technology who submits the best written paper in a two-hour contest held during the spring. The student's advancement as shown by his grades in English courses are also taken into consideration in granting the prize.

"I understand that Phil and Betty were married in Canada."

"Yeh, they wanted a tight knot tied."

She (airily): I don't use powder as a rule.

He: What then?

She: I use t a a cosmetic!

Winter Carnival Plans Approach Completion

of 175 pieces, including elaborate sets and tableaux, has been procured at considerable expense, and should prove well worth seeing.

Friday will be a busy day, and our hats are doffed to any one who can weather the program with anything short of complete exhaustion. In the morning at nine o'clock come the trials for the snowshoe races, and semi-finals of the house relay teams. At two-thirty P. M. a hockey game will be played with some high class team—probably one of the Maine colleges, though this is not definite. Between periods of the hockey game, there will be an exhibition of fancy and acrobatic skating. Russ Jones, a famous rink man from the Boston arena, is being corresponded with, as are two other stars from the New York Hippodrome. The skater having the best references will undoubtedly be chosen.

The Carnival Ball is slated for Friday evening. The Carnival committee has made extensive arrangements for a costume affair, in place of last year's semi-formal, but this plan seems to be meeting with disfavor in some parts of the campus. The committee planned the dance with the idea that its novelty would appeal to every one, and that it would be supported unusually well. If this is not the case, another type of dance may be substituted.

Nothing is scheduled for Saturday morning but long, restful sleep for all. Saturday afternoon the rest of the snowshoe and ski races will be held, and after that the ski jumping. Just to give an idea of the sort of jump we have, Bill Elliott recently tried a few leaps. The snow was rather deep, and Bill called the slide "slow," but nevertheless he made forty feet, which is just twelve feet more than last year's winning leap.

An interesting feature of the carnival will be the school meet, held by teams from Orono, Bangor, Old Town, Brewer, and possibly other high schools. The events will be the hundred yard, mile, and snowshoe relay for the web-foots, and a two-hundred yard dash. It is plain that a meet of this sort is the best of advertising for the college, and should place many good men in the class of twenty-seven.

(Continued from Page One)

Dr. Halverson Lectures in Portland

correct the common misunderstanding concerning Psychology, and to discuss its close relation to life and its every-day application. He treated rather fully its connection with education, advertising, law, medicine, industry, and society. He went into detail about mental tests and discussed the advantage of the three kinds—individual, group, and special ability. Professor Halverson also explained Psycho-Analysis, and warned his audience against the fakirs who set up establishments, claiming to be professional Psycho-Analysts. The lecture, although given at the very inconvenient hour of five, was very well attended. Professor Halverson was also to have delivered a lecture in Dover-Foxcroft Wednesday evening, but he was snow-bound and was unable to keep his appointment.

Said the spider to the fly, with whom he was making a blind date, "You aren't stringing me, are you?"
