TWO STUDENTS RESCUED AFTER FALLING THRU ICE WHILE SKATING ON RIVER

**Donna Weymouth and
Leslie Higgins Attract
Help by Cries**

200 STUDENTS AT SCENE

**Freshman Saves Companion
From Stillwater River
Night Before**

Two University of Maine students were saved from drowning on Monday night when their cries for help were heard by other persons in nearby fraternity houses, after Donna Weymouth, of Abbot, and Leslie Higgins, of Bar Harbor, had broken through the ice while skating on the Stillwater River near the rear of the University's power house.

The two were skating up the river, and the darkness made it impossible to see the open water ahead. They plunged into the stream about a hundred feet apart, and both began to cry for help. Their cries attracted a crowd of over 200 students. The first on the scene were Doc Foster, James O'Connor, Donald Frazier, and Alfred Fuller. Foster and Fuller concentrated their efforts on rescuing Miss Weymouth, while O'Connor and Frazier attempted to assist Higgins. The current of the river, which is quite strong at this point, made the rescuing operations rather difficult.

A long pipe was used to rescue Miss Weymouth. Foster shoved the pipe to Miss Weymouth, while he himself was being held by Fuller. Frazier, held by O'Connor, crawled to Higgins' aid and removed him from the icy waters.

Miss Weymouth was conscious when she was pulled from the water, but collapsed before she had been taken to shore. Higgins was unconscious when he was taken from the water. The two were rushed into the Sigma Alpha Epsilon house where they were treated by Dr. W. C. Hall and Dr. E. Tomlinson of Orono. They are now fully recovered.

Considerable attention was drawn to the affair by the Orono Fire Department, which was called so that their pulmotor could be used in the resuscitation operations.

This is the second skating accident in the past few days on the river as the icy waters very nearly took their first toll of the year Sunday night.

John Stinchfield of Wayne, freshman of Hannibal Hamlin Hall and his roommate, Frank Chadwick of Haverhill, were skating at midstream when the solid appearing ice gave way and Stinchfield was plunged into the water. Weighted down by wet heavy clothing and hindered by a strong current, Stinchfield struggled mightily before he could reach a spot where his roommate lying flat on the ice, awaited him. After the ice had given way several times, Chadwick finally pulled his weakened classmate to safety.

After running to the nearby dormitories and after a hot shower the youths were little the worse for the experience.

Announce Time Of Registration

COLLEGE OF AGRICULTURE
All students in Agriculture, Forestry, and Home Economics should consult the bulletin board in WINSLOW HALL concerning hours for registration. Professor Dorsey instead of Dean Merrill will sign cards. See bulletin board for dates when he will sign registration cards.

COLLEGE OF ARTS AND SCIENCES

FRESHMEN may register in 100 Stevens Hall, as follows:

Thursday, January 26 from 10 to 12 A.M.
Friday, Jan. 27 from 1.30 to 4 P.M.
Monday, Jan. 30 from 10 to 12 A.M.
Tuesday, Jan. 31 from 10 to 12 A.M.
Wednesday, Feb. 1 from 1.30 to 4 P.M.

Thursday, Feb. 2 from 1.30 to 4 P.M.

UPPERCLASSMEN
in Botany: Students majoring in Botany or Entomology, register with Dr. Steinmetz, 24 Coburn, from 8 A.M. to 5 P.M. daily from Wednesday, January 25 to Thursday, February 2. Registration must be completed by Friday, Feb. 3.

in Economics & Sociology: See Bulletin Board of Department.
in Education: See Dean Lutes at 26 Fernald, Tuesday, January 24, all day; Tuesday and Wednesday, January 31 and February 1.

in English: See Professor Ellis as follows: Wednesday, January 25 from 10 to 11.30 A.M.; Thursday, January 26, from 10 to 11.30 and 2 to 4 P.M.; Friday, January 27, from 2 to 4 P.M.; Monday, January 29, from 9 to 11.30 A.M.; Tuesday, January 31 from 2 to 4.30 P.M.; Wednesday, February 1, from 2 to 4.30 P.M.

(Continued on Page Two)

**Official Pledging Date Will
Be February 15 this Season**

The official pledging date for fraternities this year will be February 15, according to an announcement made by Dean Lamert S. Corbett. At five o'clock on that date, the freshmen will see one of the biggest nights of campus activity, pledging night.

Said Dean Corbett, "It might be well to remind the freshmen that any pledge given prior to February 15, 1933, by freshmen is not binding. However, if a man accepts a bid on or after that date, he is definitely pledged to that fraternity. A man breaking a pledge must wait a year from the time of breaking the pledge before a new pledge may be made."

HEALTH BAN CHECKS MAINE'S SOCIAL LIFE

**Fear of Grippe Renewal Is
Reason Given Out by
Health Committee**

All social functions scheduled for the past week-end were cancelled at the request of the committee on health. The action was considered necessary because of the wide-spread epidemic of colds and influenza.

Although the peak of the disease has been reached, it was felt that with a renewed out-break the institution might be criticized. With final examinations only ten days away, students are finding it difficult to make up work missed through illness, and a renewal of the epidemic would seriously impair preparation for finals.

The social functions which were affected by this action are: the Sophomore Eagles stag dance, which was to be held in Alumni Gym Friday evening; the Balentine-Maples informal, scheduled for Saturday evening in Alumni Gym; Colvin Hall informal party, Saturday evening; and the Sigma Chi informal, which had been scheduled for Saturday evening. At present, new dates have not been set for these parties, which will be held early next semester.

No social activities will be held this week-end as it is the last before final examinations.

Arthur L. Deering, director of the Extension Service and president of the General Alumni Association, has been made a member of the Regional Agricultural Credit Corporation, a division of the Reconstruction Finance Corporation. He is also a member of the loan committee of the corporation.

Other members of the committee are: R. H. Burris, manager of the corporation; Henry W. Cushman, president of the Merrill Trust Company; Harry A. Littlefield, president of the Eastern Trust Company; and William H. Martin, former president of the Bangor Chamber of Commerce.

KAPPA PSI SORORITY TO BE DISCONTINUED BY VOTE OF MEMBERS

**Give University \$200 Loan
Fund To Begin This Spring;
Help Unemployed**

Kappa Psi sorority has decided to dissolve by common agreement of all members. Kappa Psi is the oldest local sorority on this campus, having been founded in 1923. They have built up an excellent reputation as a social and scholastic group.

In order to preserve the name and aims of the sorority, Kappa Psi has arranged to leave a loan fund of \$200 to the University of Maine. A part of this fund is to be awarded each year to a woman of the junior or senior class whose scholarship and conduct is deserving, and who is in need of financial assistance. The loan fund is to go into effect this spring semester.

Kappa Psi has also made a contribution to the Unemployment Fund of Orono.

(Continued on Page Two)

FOSTER WINNER IN SPEAKING CONTEST

**Competition Among Colleges
Scheduled To Take Place
At Maine Next Month**

Kenneth Foster '34 was chosen first prize winner and the University of Maine representative for the oratorical contest in which all Maine colleges will participate here on Feb. 21. The second prize was given to Robert Reese '34.

The competition which took place Tuesday was the preliminary contest sponsored by the Intercollegiate Peace Association. Kenneth Cleaves, Walter Emerson, and John Wiley were the other contestants. The board of judges was composed of twenty students chosen from the public speaking classes of Mr. Bricker. Kendrick Sparrow '35 acted as chairman.

Auto Accident Victims Show Improvement

Miss Margaret Sewall and Miss Libby Philbrook, freshman girls who were injured in the automobile accident on the Old Town road two weeks ago, are improving as rapidly as can be expected.

Miss Philbrook who has been in the Deering Hospital in Old Town, has now sufficiently recovered to return to the Sewall home. Miss Sewall, who is at the Eastern Maine General Hospital in Bangor, will have her leg in a cast for a month. It is expected that they will be able to resume their studies in about five weeks.

TECH KNOCK RACY

By Cecil G. Garland
Assistant Professor of Economics and Sociology

I refuse to be alarmed by the gloomy prediction of Technocracy. When I am told that the machine has achieved such efficiency that if the present rate of labor displacement is continued our 10,000,000 unemployed will be increased to 20,000,000 or more by 1934, I demand reasonable proof. When I am told that democracy has failed; that socialism, communism, and fascism likewise are inadequate to cope with the machine; I must be convinced. When I am told that the "price" system is doomed, that our present economic and social order must be discarded; when I am told that the developments of centuries must be replaced with something called Technocracy, when I hear these things I demand the proof.

I fail to thrill to the mirage when Technocracy holds out a chromium-plated, rust proof millenium in the following proposal: "Turn over the business system to the Technocrats and for the labor of the working population between the ages of 25 to 45 for four hours a day, four days a week for 10 months per year receive a standard of living ten times that of 1929 or approximately a \$20,000 per year income for every one." Are these prophecies based on fact or on fiction?

Now let us look at the supporting data. Convincing proof there is none. No one will deny that the machine has increased the efficiency of production. But that the time has arrived when human labor can

\$160,000 SLASHED FROM ANNUAL BUDGET TO MEET REDUCTION IN LAND VALUATION

Beard Growing Contest To Be Held Thru Finals

"How's the whiskers on your chin?
How has everybody been?
How do you do, Andy Gump, How are you?"

Can you grow a beard? The Maine Campus announces a mammoth beard-growing contest open to all undergraduates. Competition will begin tomorrow, Friday, afternoon and last for two weeks. At the end of that time the contestants will present themselves to the judges for inspection, and the person with the best beard in the opinion of the judges will be awarded the grand prize. There will also be a second prize, and the person taking third place will receive honorable mention. President Herbert Lewis and secretary-treasurer Monroe Romansky of the Senior Skulls and President John F. Wilson of the Student Senate will be the judges of the contest.

The rules of the contest are:

1. All contestants must present themselves, clean shaven, for inspection at the Maine Campus office on the third floor of the M. C. A. Building between 3:30 and 5:00 o'clock on Friday afternoon, January 20.

2. All contestants must again present themselves to the judges at the Book Store between 3:30 and 5:00 o'clock on Friday afternoon, February 3.

3. The winning beard will be the one which in the opinion of the judges is longest, cleanest, most evenly distributed, and most handsome.

4. There is no restriction on the amount of hair tonic that contestants may use.

5. Contestants may shave during the contest if they think they have a chance of winning even after giving the other contestants a head start.

6. The nature of the prize will be kept secret until the contest closes, but contestants are assured that it will be not only useful, but also ornamental. There will be a first and second prize and the third best beard will receive honorable mention.

7. All contestants are expected to shave immediately following the close of the contest.

The Campus announces that its purpose in sponsoring this contest is merely to provide a bit of diversion from the drudgery of final examinations. The Campus further wishes to announce that it is not starting a campaign to break the razor blade industry, put the barbers out of business, break the shaving cream trust, or discover some new Mr. Hydes for the motion picture industry. The Campus also is not going into the hair tonic industry, or planning to start a House of David bridge team.

Don't forget! Register Friday at the Campus office

QUEEN TO BE PICKED AT MID-WINTER HOP

**Intramural Ball Takes Place
February 21. Band
To Be Announced**

A mid-winter ball queen to preside over the annual mid-winter ball will be an innovation in that social activity here this year. The ball will be held on the evening of February 21, the night before Washington's birthday.

According to an announcement made yesterday by the committee in charge of the ball consisting of: Jack Leddy, chairman, Monroe Romansky, John Doyle, and Ralph Stone, the queen may be any girl, either a student at Maine or an outsider, who attends the ball. A vote of the entire student body will be taken with all girls eligible for election. Then the names of the highest in the student vote will be placed upon a ballot, and those having tickets to the ball will vote on the evening of the ball. The queen will be awarded a most attractive prize.

The orchestra for the affair, the committee announced, will be one which has never played at the University before, and the name of it will be divulged in the near future.

Freshman Girls Discard Berets After Games Sat.

Although the sophomore girls won over the freshmen by a score of 60-40 in the annual Games Carnival on Saturday morning, freshman caps are off. This decision was announced by the All Maine Women and approved by the Eagles, on account of the good sportsmanship shown by the freshmen.

The carnival, held in Alumni gym, opened with the entrance of the freshmen, marching to the freshman band song, and dressed in regulation gym suits with green crepe paper capes and green bows on their capes and shoes. Following the freshmen, the sophomores entered, and formed the letters S and F on the floor. After songs and cheers, the games got under way, with one of the All Maine Women in charge of each game and acting as official. Each class was well represented in the following events: dodge ball, ladder climbing, Eliza crossing the ice, spelling match, bean bag relay, balloon race, and broad jump.

Many Magazines Are Missing from Library

The following magazines are missing from the Library. The return of any of them will be greatly appreciated.

"American Forests," June, Sept., Oct., 1932; "Amer. Journal of Botany," July and November, 1932; "Atlantic Monthly," July, 1932; "Congressional Digest," Mar., 1932; "Dept. of Elementary School Principals Bulletin," July, 1932; "Forum," August, 1932; "Harper's," October, 1932; "Pl. of Abnormal and Social Psychology," April-June, 1932; "Jl. of Chemical Education," Sept., 1932.

"Jl. of the Amer. Statistical Assoc.," Sept., 1932; "Junior-Senior High School Clearing House," Nov., 1932; "Mathematics Teacher," May, 1932; "Mechanical Engineering," May, 1932; "Nature," Aug. 6, 1932; "Peabody Journal of Education," July, 1932; "Poetry," July, 1932.

(Continued on Page Two)

**U. of M. Will Contribute
\$100,000 Yearly To
Balance Budget**

TOTAL IS 21 P. C. LOWER

**Cut To Take Effect on Build-
ing Program, Activities,
And Salaries**

The University will operate the next two years on a budget reduced \$160,000 annually, according to an announcement made early in the week by Bertram E. Packard, State Commissioner of Education.

According to the Associated Press: "This reduction," he said, "will be offset by such economies as the administration may find necessary and 'it will practically mean a suspension for two years in building construction, although such construction is very much needed, further curtailment in university activities, and a readjustment of salary schedules.'"

Because the state valuation, which is the basis for the application of the university one mill tax, is to be reduced approximately \$60,000,000, the university's appropriations will be automatically cut \$60,000 a year. On top of that loss the trustees, "believing that the present emergency would justify further economies in university administration * * * decided the university should be prepared and should agree to return to the state in each year for the next two years a sum of \$100,000 which is equivalent to 14 per cent of the amount authorized under the one mill tax law," Packard said.

"This voluntary contribution," he said, "together with the automatic reduction in income caused by the reduced state valuation, means that the university will operate during each of the next two years on a budget reduced by approximately \$160,000, a reduction of over 21 per cent compared to the present year."

The construction program now underway involves the completion of two wings to the Arts and Sciences building. The memorial gymnasium, now in process of construction, is being erected at no cost to the state, it being a gift to the institution from its alumni.

Packard said the treasurer of the university has been instructed to pay \$50,000 at once to the state as a means toward assisting in balancing the state budget for the current fiscal year ending June 30. "If an additional amount is required the trustees stand willing to cooperate in every possible way to meet the emergency," he declared.

Tech College Will Give New Courses

Two new courses in the College of Technology, which will be offered next semester are:

Civil Eng. 82—Advanced Engineering Geology.—The study and application of geology to the engineering phases of construction problems. Such subjects as river improvements, shore line protection, ground water, quarrying, earthquakes, dams and reservoirs, will be considered. A part of the work includes presentation and discussion of reports. Prerequisites, 16 and 25. Classroom, three hours a week. Three credit hours. Mr. Twinem, instructor.

Mechanical Eng. 78—Mechanical Laboratory.—A course arranged for students taking hydraulic option, in Civil Engineering. Testing of impulse and reaction water wheels, flow measurement and friction in pipes and channels, etc. Course 73 is prerequisite. Laboratory, three hours a week. One and one-half credit hours. Mr. Sparrow.

The annual interscholastic high school basketball tournament will be held in the Memorial Armory March 9, 10, and 11. The State Championship between the winners of the Maine and Bates tournaments will be played off at Bates on the following week.

Those wishing to buy a Prism should order immediately as only enough paper will be ordered for use in the number of books that are asked for. Therefore it is important that orders be put in promptly to be certain of getting a Prism.

About Technocracy

The United States is engulfed in a serious economic depression. We have the paradox of having more than we need with nearly everyone needing more than he has. In the fall of 1929 this depression started. It is now the spring of 1933 and conditions are constantly growing worse, despite the efforts of governments and men to make a change for the better.

Ten years ago, Howard Scott, engineer and technician of the Muscle Shoals Project, began a research known as "The Energy Survey of North America." He gathered about him a group of engineers and economists, who called themselves "Technocracy." These men made a study of production, energy, and employment, charting their work to show the highs and lows of inflation and depressions. Soon after they began their work, they figured through their charts that the United States would have the present depression, but predicted it for 1930 instead of 1929.

Their most sensational finding has been that the present method of machine production is so efficient that if every person between the ages of twenty-five and forty-five available for work should work four hours a day four days a week ten months a year enough would be produced, so that if it were distributed properly the standard of living would be ten times higher than it was in 1929. In other words, each person would have an income of \$20,000 per year.

They are very much alarmed over the increase in production through machinery in the past twenty years, in which they claim it has advanced many times the total advance in production for 7,000 years previous. Pointing out that under conditions of competition manufacturers work for larger production and lower costs of production, they claim that the largest cuts in the cost of production have been made in replacing men with machines. Since one machine can do the work of many men this is obviously an efficient method of cutting costs.

The Technocrats go further. They claim that the only hope for the world is to abolish the present price system and replace it with an energy system. Since the price system is based on the facts that human wants are unlimited and therefore will never be satisfied, and that human labor is a necessary factor in the production of wealth, these men attempt to tear down these economic laws. They claim that machine production can not only satisfy all human wants but can produce more than all the people can ever use, and that man hours per unit of production have dropped to almost nothing.

Technocracy has certainly caused a great furor in this country. The statement has been made by Technocracy that unless something is done about the price system in the very near future the country will be thrown into chaos in less than eighteen months.

All of these facts are hard to believe. Not only so they seem incredible, but they are unpleasant. As a result Technocracy is being attacked from every angle.

It is difficult for anyone to admit that he is wrong, so naturally economists, engineers, and politicians are strong in their attacks against Technocracy. Nevertheless, we the college students, who really know very little about this world and whose ideas are not, or should not be, too well established, ought to consider Technocracy with an open mind.

The 'M' a Distinction

Block "M's", worn by unauthorized persons are again becoming too prevalent. Many students are wearing them painted on the backs of rain-coats or jackets, and are wearing them not only about the campus but elsewhere.

The block "M" is a reward for athletic effort. A ruling of the University gives the Athletic Board complete control over

CORRESPONDENCE

(The correspondence columns of The Campus are open to the public on pertinent subjects, and letters are welcomed. All letters should be signed with the author's real name, but a pen name will be used in publication of the letter if desired. The ideas stated in these columns are not necessarily those of The Campus and should not be so considered. The editor reserves the right to withhold any letter or a part of any letter.)

Editor, the Maine Campus
Dear Sir:

A few days ago when one of the Campus reporters requested me to write an article on technocracy I told him that I was not in the least interested in so doing. The only reason that I am writing to you is to ask that you allot some space to correct what I feel to be an all too prevalent belief on the part of the public regarding the relation of engineers to this question or movement.

It is interesting to note in that connection that the American Engineering Council which is a representative body of national, regional, and local engineering societies in the United States, has stated that the claims of technocracy are intolerant and extravagant and the Council has drawn up resolutions, which were adopted, disavowing any responsibility for these claims. William S. Lee, President of the Council, a noted American engineer, offered the following resolution, which was adopted.

"The statements of a group of men organized under the name 'technocracy' have received wide publicity through the press by reason of startling predictions which involve a complete overturn in our economic structure. These pronouncements, circulated as coming from engineers, have led to the belief that they represent practical engineering thought.

"Propose Class Dictatorship"

"Many requests for information on technocracy have come to the American Engineering Council, which is the representative of national, regional, and local engineering societies in the United States.

"The Council has endeavored to obtain from the promoters of the movement an authoritative statement of their findings and their program. It is significant that no information could be obtained beyond what has appeared in the press.

"The accepted practice among engineers of presenting new developments to some engineering society for critical study and discussion has not been followed. The data and statistics brought forward in magazine and newspaper articles as a basis for speculative claims are open to question; some of the findings have been discredited or disproved by other investigations.

"These statements and conclusions may have the serious effect of undermining public confidence in our present civilization, and they hold out an unwarranted promise of a quick solution of economic

the issuing of these letters and authorizing persons to wear them. The Athletic Board awards letters to men who have served the University in athletics on major teams. If the letter is to have any significance, it must be given out very carefully and only for the highest type of athletic service. The men who earn them should have the exclusive right to wear them.

There are numerous organizations on the campus that want permission to give a block "M" as an emblem of award for service in that organization. If such permission were given, the significance of the letter would dwindle to nearly nothing.

It is the duty of the student body to look with disfavor on those who, either through lack of forethought or through an attempt to impress the "folks in the home town," are wearing block "M's." According to the Athletic Board ruling the decoration "U. M." or "U. of M." can be worn, but the "U" must appear very plainly.

Play Class Presents 'That Ferguson Family'

The play production class presented Howard Chenery's, "That Ferguson Family," in chapel Tuesday evening. The cast presented a well-rounded performance, each doing his part well.

The cast:
Mertie Ferguson, Cora Barton, '33;
Fred Ferguson, Everett Page, '33; Tavia Ferguson, Sylvia Eames, '33; Joe Ferguson, Errol Higgins, '33; Rupert Stricker, Ludwig Long, '33; Laura Connelly, Helen Gilman, '33; Bert Connelly, Prescott Ward, '33; Mrs. Sarah Thorne, Arlene Merrill, '34; Bill Fleming, Thomas Viola, Jr., '33; Mary Fleming, Helen Findlay, '33.

Liberal Club Will Hear Guyer Talk on War Debts

Max Guyer of the history department will speak on the war debt situation at a meeting of the Liberal Club at 7:30 o'clock tonight in 275 Stevens Hall.

At this meeting it is hoped that the plans of the club may be outlined to insure a definite schedule of meetings in the future.

Kappa Psi Sorority To Be Discontinued by Vote of Members

The present members intend to form a new society which is to be a non-fraternal organization.

Many Magazines Are Missing from Library

"Psychological Abstracts," July, 1932; "School Life," May and April, 1932; "School Review," October, 1932; "Scribner's," July, Oct., Nov., 1932; "World Tomorrow," Jan., 1932, Sept. 7, 1932; "Yale Review," Fall Issue, 1932.

These have all disappeared since the opening of college in September.

Mr. Cutter, a well-known spiritualist of Boston, gave a lecture and conducted a seance at the Monday meeting of Sigma Mu Sigma, honorary psychology fraternity, held at the home of Professor Brush. Spirit messages were received by the following: Doctor Levinson, Professor Brush, Miss Hatfield, Miss Lengyel, Miss Rogers, Mr. and Mrs. Smith Ames, Berla Smythe, and Donald Good.

"The method of presentation has been marked by exaggerated, intolerant and extravagant claims.

"They have capitalized the fears, miseries and uncertainties due to the depression and have proposed a control which is, in effect, class dictatorship. . . ."

Yours very truly,
Paul Cloke, Dean

Fellowship Church

January 22, 1933

10:30 A.M.—Service of Worship and Preaching. Sermon theme: "The Church on Wheels." Dr. Sharpe. Soloist: Miss Bettina Sullivan, Soprano, University of Maine.

6:30 P.M.—Young People's Sunday Evening Club—Students. At the Mansie. Discussion between Young Men's and Young Women's Groups on the subject: "The Sort of Man (or Woman) I Would Prefer to Marry." Usual social features. All students invited. Closes at 8:15.

The MAINE SNOOPUS

NOW THAT the frosh have finished working their heads off trying to get upperclassmen to write their long themes for them, many a sigh of relief has been sighed. . . . We beg to announce a new racket—"Jig-Saw Puzzles for Rent, five cents per day from 100 to 300 pieces. Room 106, Balentine." Come quick while they last (not the girls, you dope). . . . Imagine Gerry Waxman's embarrassment when he found he was snowballed Lt. Col. Peanut Bunker. . . . Personal nomination for the best looking bangs on campus—none other than Louise Steeves. . . . Funeral rites were observed Saturday at the Maples when the freshman hats were strung up at half-mast. . . . Maybe it was exuberance over winning the Frosh-Soph meet, or maybe it was just absent-mindedness—anyway, one cute kid used cold cream on her teeth and insisted something was wrong. It's a good thing it wasn't vanishing cream. . . . Frank Peaslee's pin has made a happy landing—it's Sue Lord's now. Both are doing well, thank you. . . . We understand that Jack Dickson, former Senior Skull president, is unintentionally breaking many hearts in Connecticut. Same old Jack. . . . Speaking of Dickson, that reminds us that the foresters are coming, hooray, hooray. And Dixie's so excited these days she sent Freddie a letter to Princeton, Mass. . . . Speaking of foresters, they'll be in top shape to enter the local beard-growing contest. Still, they won't be amateurs, and 'tain't fair to the rest of us. Women are not barred from entering the contest, we presume? One innocent thinks it's just another agricultural experiment—well, isn't it? . . . And speaking of beards, how's the shadow on your lip progressing, Kilgore? We hope there won't be an eclipse. . . . We wonder what it was that made Paul Langlois miss his supper Sunday night after his little visit to Dexter. Of course, walking all over town takes time—we understand, Paul, ol' boy. Come home now, all is forgiven. . . . We regret about our not being quite specific, to wit: the Judd who was mentioned last week is not Morris Judd of Phi Mu Delta. Your time, will come, Morris. . . . And one of the Balentine candidates for house-prexy promises to give the co-eds beer Sunday nights instead of cocoa. Here's luck to you, pal—we'll take ours straight. . . . We wonder how it feels to be a popular local musician and have to "cool off" your hot music in Old Town, as so-and-so did last Sunday night. . . . Picture of content: Sam Bachrach surrounded by a bevy of beautiful frosh in the libe. What price education! . . . Stubbaport spent the week recuperating at the Dunn family mansion in Bangor, and so—Merrietta caught up on her home-work. . . . Can Romansky keep his promise? Ask Marj and Dixie. . . . Well, here's hoping your finals don't turn out to be final. . . . Love and kisses from the face on the bathroom floor.

Tech Knock Racy

(Continued from Page One)

rence? Have we not within our present system the capacity of adjustment to the problems as efficiently as that of Technocracy? Have not hours of labor been consistently reduced under our present system?

The criticism of money as a measure of value since it fluctuates widely is not new. The measure of value and the median of exchange of the Technocrats may also fluctuate as our utilization of energy producers increase or decrease in efficiency. Some form of economic planning within our own system will produce as effective results.

The Technocrats also err in attempting to convert theoretical attainment into practical attainability, particularly where their statistical sample is inadequate and in a large measure unattainable. For example, the Technocrats state that a modern brick yard could produce 400,000 bricks per man per day, but few plants at present can produce more than 2,000 bricks per man per day. And even if theoretically possible the cost of transportation of raw material and the finished product would be impracticable.

Any attempt to limit man's progress in the future by our existing power over energy resources is bound to be in error. It measures what can be done by what has been done. Who knows when the creative force of the human mind may release the energy of the atom, or utilize more effectively the energy of the sun?

If national bankruptcy is threatened in 18 months why withhold the supporting

Oak Hall Bridge Tourney Progresses Fifth of Way

Another instance of man invading woman's sphere has come to light. Selvin Hershon and Burton Mullen, the bridge champions of Oak Hall, have been challenged to a bridge tournament by David Brown and William Berry, also of Oak Hall. The goal is 50,000 points and the winner is to have a margin of 1000 points. The winners are to be entertained by the losers in Bangor. At present, Berry and Brown are leading with the score 11,459-10,854.

CO-EDS AT CONFERENCE ON FOREIGN MISSIONS

A conference of Maine college students interested in foreign missions took place during the past week-end at Colby College. Representatives of Maine, Colby, and Bates were present. The chief speaker at this convention was Raymond Currier of New York, the head of the Volunteer Movement for Foreign Missions. The Maine group was composed of Clarine Coffin '32, Violet Morrison '33, Francis Morrison '34, and Vivian Moors '33. The next conference will be held here early in May.

data? Why dote out the alarming information in monthly installments in the "New Republic"? Let the data from which these predictions were deduced be examined and checked by impartial, recognized fact-finding bodies. Let us have the truth, the whole truth and nothing but the truth.

COLVIN FORMAL DINNER HAS FINE ENTERTAINMENT

Colvin Hall held their formal dinner last Thursday evening. The tables were decorated in a color scheme of green and pink.

The guests of honor were: President and Mrs. Boardman, Miss Colvin, Dean and Mrs. Hart, Dean and Mrs. Corbett, Dean Bean, Mr. and Mrs. Moreland, Miss Osgood, and Mrs. Sweetman.

After dinner, the guests were entertained with a recitation by Kay Small, called *At the Movies*. Marcia Adelman played two piano solos, Schubert's *Serenade* and Chaminade's *Scarlet Dance*. This was followed by an extract from *Tom Sawyer*, given by Barbara Sawyer. The program was brought to a conclusion with two piano solos rendered by Jean Walker, *Manhattan Serenade* and *Trees*.

MAINE OUTING CLUB PLANS OVERNIGHT HIKE

A meeting of the Maine Outing Club was held Wednesday evening, January 11. At this meeting, plans were discussed for an overnight hike to be held in the near future. The requirements for obtaining the M.O.C. insignia were announced, and it was decided to reduce the dues to fifty cents per year.

Miss Elizabeth S. Ring, of the History Department, began a series of weekly fifteen minute talks on current topics last Thursday night in Balentine sun-parlor.

This first talk formed a background for the ones which are to follow. It was concerned with President-Elect Roosevelt and his family, probable members of the new Cabinet, Technocracy, and Tammany Hall.

Dr. and Mrs. G. D. Chase entertained the members of the Latin department on Wednesday evening at their home on Main Street. A pleasant social evening was enjoyed, after which refreshments were served.

Dean Muilenburg was guest speaker at a meeting of Sigma Mu Sigma held on Monday of last week at the home of Miss Helen Lengyel in Orono. Dean Muilenburg discussed the psychological aspects of religion. Among the guests were Dean Bean, Miss Elizabeth Foster, and Mr. Brush.

Phi Sigma, the honorary biological fraternity, held a meeting January eleven at which Professor Hyland spoke on "Figured Woods." Emily Thompson gave a report of her trip to the Science Convention at Atlantic City on December 27 and 28. An informal discussion followed.

Francis Lord '34 To Give Organ Recitals in Alumni

A series of organ recitals is to be given by Francis Lord '34 during the first week of examinations in the Chapel of Alumni Hall. These recitals will take place on Jan. 25, 26, 27, 30, and 31, and possibly on Feb. 1 at 4:30 P.M. and will last one half hour. Printed programs of the selections to be played will be given out before each recital.

Methodist Episcopal Church and Wesley Foundation

"If You Were God" is the theme of the morning sermon, Rev. Herman D. Berlew speaking. The Student Forum this week will be a question period, when those present will be given the opportunity to present their perplexing questions regarding religion and life for frank facing by the group. The Forum Hour begins at 7:30.

Fellowship Hour and luncheon from 6:30 to 7:30.

MAINE MASQUE PLEDGES SEVEN NEW MEMBERS

Ernestine Merrill, president of the Maine Masque, pledged seven students to that organization between the acts of the last Masque play, *Hedda Gabler*.

The students pledged are: Ruth Libby, Frank Morong, Ludwig Long, Elston Ingalls, Kenneth Foster, Helen Gilman, and Almon Cooper. Dorothy Sawyer and Alfred Sweeney were named associate members at this time.

Professor E. H. Sprague, head of the Civil Engineering Department, is attending the annual convention of the American Institute of Civil Engineers held in New York City.

Students are reminded that all books out from the Library on "Special Permission" are due on or before February 4, 1933. Anyone wishing to retain them for work during the spring semester should make arrangements with the Librarian, otherwise fines will be charged from Feb. 4.

A deputation team sent out by the Maine Christian Association spent the past week-end in Dexter where they spoke at the Universalist and Methodist Churches. The group was composed of Paul Langlois, Gordon Heath, Shirley Young, and Christine Homer.

ILLUSION:

One of Houdini's most spectacular escape feats was performed with a huge milk can filled with water. He invited persons of the audience to bring padlocks and lock him into the can. He got into the can, the lid was put on and fastened with several padlocks. A screen was placed in front of the can. Assistants stood by with stop watches and fire axes to save him from drowning after a certain time. About a minute later, the screen was removed, Houdini was seen panting and dripping...the padlocks remaining intact!

EXPLANATION:

The usual method of escaping from a milk can is as follows: The lid of the can is apparently securely padlocked to the lower portion, but actually the metal band to which the staples are attached is the top of a short inner lining. The performer, after being locked into the can, pushes the lid upward with his head and the short inner lining is forced out of place, permitting his escape. The screen is then removed.

*It's FUN TO BE FOOLED
...IT'S MORE FUN TO KNOW*

What exciting magic there is in cigarette advertising!

Let's look at one of its greatest illusions...that cigarettes can be mysteriously given superior "FLAVOR."

THE EXPLANATION: Just three factors control the flavor of a cigarette. The addition of artificial flavoring...the blending of various tobaccos...and the quality of the tobaccos themselves. Quality is the most important. Artificial flavoring can never wholly disguise the poor flavor of cheap tobaccos.

The blending of several cheap, raw tobaccos cannot improve the flavor of any of them. A fine cigarette is a cigarette blended from costly, ripe tobaccos.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

This is why the Camel flavor has never been rivaled... why Camels have given more pleasure to more people than any other cigarette ever made.

In more costly tobaccos lies the secret of Camels' delicate "bouquet"...of their rich, cool flavor—of their non-irritating mildness. It's the tobacco that counts.

All the natural goodness of Camel's tobacco is kept fresh and rich for you by the air-tight, welded Humidor Pack. Don't remove it. Its moisture-proof cellophane also protects your Camels from dust and germs. Put a pack in your pocket today.

FROSH VANQUISH E.M.C.S. 26-22 FOR 3RD STRAIGHT

Woodbury Leads Team In Closely Fought Spectacle

Scoring their third consecutive win in as many starts, the Freshman A hoopers turned back a gamely fighting Bucksport Seminary quintet, 26-22, at the Armory last night before a large crowd. Woodbury and Johnstone turned in their usual brilliant performance for the yearlings, while Toby and Dillon excelled for the E.M.C.S. team.

FROSH B TEAM EKES OUT 16-14 WIN OVER DEXTER

Fighting down repeated rallies, the Maine Freshman Team B nosed out a stubborn but inexperienced Dexter High team 16-14, Saturday night at the indoor gymnasium. Dexter led 9-6 at the end of the half. Bearse then put on a scoring spree to tie the score and send the frosh into the lead. But the fighting Dexterites again tied it up, and when the visitors almost took the lead, Duncan, star forward who had been ill, was inserted into the game and his beautiful long shot broke the deadlock. Kenney then dropped one in for the frosh to offset a long one made by Bucknam, right guard of the visitors, who was a thorn in the side of the freshmen all evening. The game ended a moment later with the score 16-14.

JO MUTTY ELECTED CO-ED RIFLE TEAM CAPTAIN

The officers of the Girls' Rifle Team for the coming year were elected at a meeting in Balentine Hall Wednesday noon. They are as follows: M. Josephine Mutty, captain; Doris Hutchinson, manager; and Mildred Haney, secretary-treasurer.

DURHAM, N. C.

Four terms of eleven weeks are given each year. These may be taken consecutively (M.D. in three years) or three terms may be taken each year (M.D. in four years). The entrance requirements are intelligence, character and at least two years of college work, including the subjects specified for Grade A Medical Schools. Catalogues and application forms may be obtained from the Dean.

OXFORD Shirts are THE thing

The Arrow GORDON

\$1.95 in WHITE and in
SOLID COLORS

There's nothing smarter today than the Oxford shirt with button-down collar. And there's no finer Oxford shirt than the Arrow Gordon. It's expertly styled—beautifully tailored—with the snug, trim collar that seems to be an Arrow copy-right. Sanforized-Shrink—it's the one Oxford shirt guaranteed against shrinkage. The Gordon comes in white and plain colors with plain or button-down collar. An outstanding value at \$1.95.

VIRGIE'S

Frosh Tracksters To Meet South Portland

After a long period of strenuous practice and careful grooming under the eye of Coach Jenkins, the freshman track team will see action in the first of its winter schedule of dual meets Saturday afternoon at the Armory when it takes on South Portland High.

Although the team is noticeably weak in the distance runs, Coach Jenkins is confident that the strength of his men in the weight and field events will offset this handicap, and he predicts that his charges

will give a good account of themselves in their indoor meets this season. One of the men upon whom the coach is relying strongly in the dashes is Donald Huff. Huff won the hundred in the Christmas Handicap meet against some of the strongest competition the school had to offer. Another prospect who is expected to develop into a first class dash man is Elmer Sisco who took third in the hundred in the Christmas races.

In the hurdles, the outstanding candidate thus far is Mel Goulette. Under the tutelage of the track coach he has developed remarkably, and is expected to be a valuable asset to the team.

James "Pinky" O'Connor has shown himself to be the leading contender in the quarter and half mile distances. In both the sophomore and Christmas meets he ran against the Black brothers, Ken and Ernie, and forced them all the way.

Myron Collette, shot heaver, is expected to have little difficulty in holding up Maine's end in this event. In the inter-class meet he tossed the shot 47 feet. The winning distance for the shot in the South Portland-Bowdoin Frosh meet last Saturday was only 36 feet. Collette is also a valuable hurdler, winning the hundred

yard low hurdle race in the soph-frosh meet.

Another brilliant performer in the field events is Jack Thompson. Thompson has scored a first and second in the discus and shot, respectively, against some of the strongest competition of the University. Along with Thompson in the field events, rank Dana Sidelinger and George Frame. Frame won the hammer throw in the Christmas Handicap. Sidelinger has shown unusual ability in the weight, and with practice may develop into a first rate discus heaver.

Arthur Roberts easily ranks first among the frosh javelin throwers, and is slated to carry on next year for the varsity. He took first in this event in both the inter-class and the handicap meet.

Kenneth Ireland will be the yearling team's best hope in the broad jump. He is likewise a valuable high jumper, and will be aided in that event by Perkins.

In the pole vault the first year men will be represented by Gross and Richter, who tied for first in the freshman-sophomore meet.

In the distance runs, Coach Jenkins is placing his hopes on Ives, Beal, and Hirsch. All of these men won their numerals in cross country, and have showed up well in practice thus far.

Dean Cloke is to attend the annual convention of the American Institute of Electrical Engineers in New York City, Jan. 23-27.

THE UNIVERSITY OF BUFFALO

School of Dentistry

Established 1892

The next annual session will begin July 3rd, 1933. A three-year course of instruction is offered, quarter plan, leading to the degree of Doctor of Dental Surgery. The course is recognized as class A by the University of the State of New York and the Dental Educational Council of America.

There are many new features in the curriculum which are outlined in the catalogue. An abundance of clinical material is provided at the school and at the hospitals. Classes are limited in number. Catalogue mailed upon request.
