

Maine Trackmen Defeat Bates By Single Point In Hectic Meet At Lewiston Saturday

Track history was made Saturday at Lewiston when the Pale Blue barely copped a win from the Bates tracksters, 59-58. A complete shut out in the high jump was the deciding factor in Maine's hard earned victory wherein Cuozzo made the deciding jump on which a win or a tie rested.

Leaving four scoring threats at home on the bench, Richardson, Maine's two-miler, and Stiles and Lufkin, hurdlers, and Dekin, a good bet in the dashes, Coach Jenkins took a track team to the Dual Meet which he did not expect to score a win on the small indoor track at Bates. The Maine runners had to compete on a small track containing ten laps to the mile with high banks which the Maine men were not used to running and which resulted for a complete victory for the Bates men in the running events.

Lindsay, however, was able to lower the record in the two mile to 9.34 2 and Gowell and Webber set a new record in the discus throw and shot put. Maine's complete strength in the weight events may be judged from the fact that, led by Captain Gowell, the Maine weight men scored 25 of a possible 27 points in the three events.

Maine scored the first victory of the meet when White dashed ahead of Knox to win the 40 yard dash and Walt Riley sprung a surprise by scoring a third place, netting Maine six points where five were expected. A complete shut out in the 35 lb. weight followed for Maine when Gowell won this event with Webber second and Fickett third. In the next event, the 45 yard high hurdles, Bates had their way and Fisher copped a first place with Yerxa scoring a third.

In the one mile run, due to the absence of Lindsay who was forced to run the two mile event in Richardson's demise. Gunning fought a losing battle against the competent Viles and Hayes who came thru to an easy win on their small track. In the mean time Levi Wescott had sprung one of the sensations of the meet by defeating Dill of Bates in the pole vault and Harry Burnham had succeeded in obtaining a tie for second.

Webber succeeded in winning the shot put easily to break the indoor record and Captain Gowell nabbed an easy second with Hoyt of Bates nabbing the only other point Bates obtained in the weight events. Lindsay loped along to an easy win in the two mile run to break the indoor record while Brooks put up a hard fight to score a third position with Whitten of Bates copping a second. Brooks
(Continued on Page Four)

Maine Frosh Win On Aroostook Trip

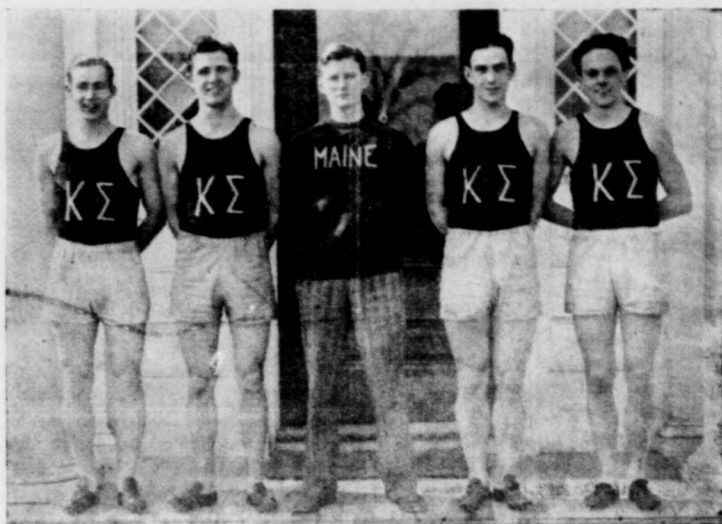

The frosh basketball squad lived up to the prophecy that it would have a clean slate for the season when they tore thru Aroostook County to defeat every team of the five quintets they competed against.

Tackling their first opponents in the Presque Isle High School aggregation they netted their first win by five baskets, 30-20. Meeting Fort Kent High School the next night they swamped this quintet 48-16. They duplicated the work of the night before when they took Caribou High School into court 47-22. In the mixup with Houlton High school who has been picked for the Maine Tournament they met their hardest game of the trip. It was a tight game throughout. The score was 9-9 at the half and in the third period Houlton was leading by one basket, 18-17. In the final quarter they were able to break away to scoop a win 25-22. Fort Fairfield, playing two of their stars from last season also fell before their attack 46-21.

All the men went good and the MacMichael twins were the high scoring aces of the trip, Alfred scoring 48 points and Albert 47. Kane was high man of the Presque Isle game and Hallgren crashed thru to be high point tallier of the Houlton scrimmage.

This ends a season for the Frosh that Maine should feel proud of. They have not been beaten by a single team during the year in any sport including football, basketball, and track. The Eastern Maine Conference Regular line-up faced each other for the place and game was a fight to the finish. Mac-
The Bridgton team took the lead at first and held it until the end of the first
(Continued on Page Four)

Make New Relay Record

Kappa Sigma succeeded in winning the Intra-Mural relay cup to break the old record established by Lambda Chi Alpha of 1.44 by one-fifth of a second setting a new mark at 1.43 4-5. Phi Eta Kappa was second with Lambda Chi Alpha third.

Fast Bouts Feature Interfrat Boxing Semi-Finals; Vernon Wins Title

Nine fast semi-final bouts were run off last night in the Armory before the championship basketball game. The final bouts will be fought Saturday afternoon at 1:30 before the final game of the basketball tournament.

In the first bout of the evening McLaughlin of Alpha Gamma Rho won over Kosciolk of Phi Kappa in the light-weight class.

Smith of A.T.O. and Zottoli of Sigma Chi was fast and furious but resulted in a draw.

Vernon of A.T.O. outreached Murphy of Theta Chi for the decision in the third bout. The men were lightweights and put up a good show although Murphy confined his blows to the mid section while Vernon's reach was incidental in several severe jabs to Murphy's head.

Bobbie Whitten again got the decision over Butler of Delta Tau Delta in the light class. Whitten boxed cleverly to out point Butler who tried to rush the unwilling Bob. Bob waited for his chances and made them all count.

Asali of Phi Kappa had no trouble in getting the decision over Pomfret of the Dorn in the 140 to 155 pound class. Asali dodged and ducked cleverly, hitting Pomfret at will. There was no doubt about

the decision from the opening tinkle of the Big Ben.

In the heavy division, Richardson of Alpha Gamma Rho was defeated by Fitz of A.T.O.

Stone of the Dorn took Michaud of Phi Kappa to easily grab the decision in the last two rounds of the 155 lb class.

Red Avery of Sigma Phi Sigma and Clem of the Dorn had one of the best goes of the evening. Both were willing to mix it up although Avery had the upper hand most of the fray and won the decision.

Robertshaw, Off-Campus, scored a technical knockout from Bud Hincley of Kappa Sigma in the 140 to 155 class when Bill Kenyon kindly stopped the impending KO. Robertshaw was rugged enough to stand Bud's rugged punches and his wicked left soon settled the decision before the jolly tinkle of the alarm clock could ring out.

BOXING FINALS

In the final round Saturday afternoon at 1:30 there will be three bouts. Stone and Zottoli will fight in the heavy class. McLaughlin and Vernon in the light-weight and Asali and Robertshaw in the light heavy division.

Beta Defeats Phi Gam to Win Interfrat Basket Ball Title

Beta Theta Pi took a rough, hard fought tussle from Phi Gamma Delta, 17 to 14, to win the Intra-Mural Basketball championship for the third consecutive year. Both teams played basketball which was far below their usual standard. Fast play from the opening whistle made the game full of personal fouls and basketball was often overlooked in the mad scramble for the ball.

The game stood 5 to 3 in favor of Phi Gam at the end of the first period and was at 11 all at the half. Beta led 14 to 13 at the end of the third quarter. Bill Wells and Jack Moran tied for scoring honors with seven points apiece. Don Wilson dropped two pretty shots through the hoop and Less Higgins for the Betas made three difficult baskets.

Summary:
BETA THETA PI 17
PHI GAMMA DELTA 14
Lamb, rf, 1
Higgins, lf, 3
Wells, c, 2 (3)
Packard, rg (1)

TOURNAMENT PROGRAM

Houlton meets Calais tonight at 7:30 in the high school tournament at the Armory. At 8:30, Bangor and Monson will play. The semi-finals will be played Friday evening at 7:30 and the finals Saturday afternoon at 3 o'clock.

The Maine varsity sextette lost to Connecticut Aggies 28-26 Friday afternoon, March 7 at the Connecticut gymnasium at Storrs, Conn. On the same trip the Maine co-eds were defeated by Posse-Nissen 38-18.

Phi Gam Only House To Favor Keeping Interfrat Conference

Phi Gamma Delta was the only fraternity on the campus that voted against combining the Inter-Fraternity Council with the Student Senate, while the other sixteen fraternities voted to automatically turn the power of the Inter-Fraternity Council over to the Student Senate, at a meeting of the Student Senate held Tuesday night. A special meeting of the Student Senate will be held tonight to decide upon the action to be taken in regard to the combining of the two organizations.

Officers for the Student Senate will be nominated April 8, and regardless of house elections the present members of the Senate should attend the meetings until after the officers are elected.

FOURTEEN ELECTED TO PHI BETA KAPPA

At the Student Government meeting Monday morning, Dean Stevens announced the election of fourteen to Phi Beta Kappa. He also read the names of alumni who were elected to the society this year. The list was as follows:

1930: Francis Harriet Babb, Charles Munro Getchell, Frieda Wardwell Hatch, Harold Howard Inman, Fred Lincoln Lamoreau, Lillian Frances Lovett, Rosella Adeline Lovett, Helen Amanda MacLaughlin, Rachel Matthews, Rebecca Matthews, Elizabeth Florence Murphy, Thomas Boyd Smith.

1931: Fanny Fineberg, Hazel Luella Hammond.

Alumni members from class of 1915: Miretta Lydia Bickford, Ava Harriet Chadbourne, Stephen Caldwell Clement, William Hope Martin, Paul Alanson Warren.

Men's Dormitories Will Be Converted Into Freshman Halls Under Trustee Ruling

Dean Corbett Makes Announcement of New Plan; Action Necessitated by Deficiencies Of Present Housing Situation; Dean Corbett Makes Plea for Student Cooperation With University Administration

Kent Resigns As Faculty Manager

B. C. KENT

B. C. Kent, faculty manager of athletics at the University of Maine, resigned his position in this capacity in favor of his work as head of the Department of Mechanical Drawing.

Previous to 1924 Mr. Kent was an assistant professor in the Department of Mechanical Engineering. In the fall of 1924, he began his duties at the University as faculty manager of athletics.

Vodvil Night Program To Be Presented Sat.

Contrary to all the rumors that are going around the campus, Vodvil Nite will be Saturday night, March 15th, at 7:30 P.M.

At 6:30 our Varsity Girls' Basketball Team will meet the N.Y.U. quintet in the old gym. This is the first, last and only home game for our girls and it should be a good one.

Promptly at 7:30 the Vodvil Nite program will start in the Chapel. The variety of entertainment to be presented there is amazing. Everything from "Song and Dance" to heavy drama.

The judges, who are Miss Louise Campbell, Mrs. Marion Sweetman, Mr. Louis Cabrera, Captain Hugh Wear, and Mr. Carl Wedell, will decide the awarding of the cups. These were presented by Goldsmith's Toggery Shop, The Orono Spa (Perry's), and Dakin's. One of the cups is now on exhibition at the Book store.

After the show there will be a Stag Dance in the gym with music by Neil Calderwood's orchestra, a six-piece team. The chaperones will be Professor and Mrs. Steinmetz and Captain and Mrs. Wear.

Tickets are fifty cents (\$50) and are for sale in all fraternities and sororities and in the dormitories. They may also be obtained at the M.C.A. office. A ticket admits the bearer to both the show and dance; no extra charge for the dance.

So come early, see the basketball game, enjoy the show, and stay for the dance.

INCREASE IN TUITION FOR FRESHMEN BECOMES EFFECTIVE IN SEPTEMBER

Freshmen entering in Sept., 1930 will pay the following tuition rates in state, \$150 and out of state, \$250. Sophomores, juniors and seniors registering in Sept., 1930 will pay the present tuition rates: in state, \$125 and out of state, \$190. All students registering in the University in Sept., 1931 will pay the new tuition rates of \$150 and \$250 respectively, for in and out of state students.

Dormitory men, at dinner in the Commons Friday noon, were treated to an unexpected surprise when told by Dean Corbett that the men's dormitories would next year be devoted to the incoming freshman class. Details of this radical change in housing conditions at the University have not as yet been completed. The Dean, however, well aware of the consternation that the announcement would cause and of the effect that it might have upon certain men in regard to fraternity rushing, thought it best to inform the students as soon as possible in order that they might make their plans for next year accordingly.

Dean Corbett in a statement to a CAMPUS reporter explained that the housing conditions on the campus have long been under the scrutiny of the Administration and Board of Trustees who have been only too cognizant of the shortage of accommodations. Inasmuch as the building plans of the college give priority to certain buildings necessary to the educational progress of the school, it is not probable that there will be any building of dormitories in the near future and the present facilities must therefore be used to the best advantage of the school and its student body. Feeling that the present Freshman class is at a disadvantage in living in scattered quarters, with no means of becoming acquainted with each other or of mixing with upperclassmen and thereby deriving benefit from the wisdom of the experienced, it has been decided that the men's dorms shall be converted into freshman dorms in which the freshman class shall be given the opportunity to occupy it in place of the upperclassmen with the preference being
(Continued on Page Four)

Winter Sports Made Minor Sport by Vote Of Athletic Board

Winter sports have now gained official recognition at the University of Maine, according to the decision made by the Athletic Board last Thursday, when a petition from the Outing Club asking for the recognition of its winter sports teams was granted. Winter sports will from now on be rated as a minor sport at Maine. This award comes as a result of the creditable work of the winter sports teams during the past two years.

The career of winter sports at Maine has been somewhat varied. It was first adopted by the IntraMural Association and for several years managed with success. The annual Winter Carnival was then one of the major athletic and social events of the year. But a period of snowless winters and financial difficulties set in, and winter sports were finally dropped. Then, two years ago, several winter sports enthusiasts entered Maine and succeeded in getting the Outing Club to back their pastime. The interest in the teams has since then grown rapidly, and the efforts of the Outing Club have now finally been rewarded.

A big season is expected for winter sports next year. Much excellent material is coming to Maine next fall from high and preparatory schools, and the talent that is now at the university is not to be laughed at.

Since winter sports are now regulated by the minor sports rules of the Athletic Association, the team members who distinguish themselves during the season will be awarded with a minor sports "M" instead of the usual M.O.C. insignia. Winter sports will, however, still be backed by the organization which has so successfully revived it, the Maine Outing Club.

WELCOME

The student body of the University of Maine extends a most hearty welcome to the high school basketball teams that are competing on the campus this week-end for the Eastern Maine Interscholastic Basketball Championship. It is hoped that the high school players and their followers will enjoy their stay at Maine and also take advantage of the opportunities offered them while on the campus. It is the wish of all university organizations that their stay be a pleasant one.

The Sophomore Owl society and the Senior Skulls will act as hosts to the visitors, and will do all in their power to give the visitors any information that they desire, and also to show them around the campus during the time between games.

The University of Maine takes great pride in sponsoring a tournament for the high schools in the eastern part of the state of Maine, and it is hoped that some of the men who will play in the tournament games over this week-end may later come to Maine, and go into college athletics. Maine gets a great number of her students from high and preparatory school groups that participate in contests sponsored by the university, and there is no reason why a large number of the participants in this tournament should not be prospective Maine men.

COOPERATION

With the approach of spring the lawns on the campus become soft and muddy. While they are in this condition it is very easy to ruin their appearance by traveling over them. The Maine campus is a beautiful one, and students should try to keep it so. Bare spots detract from the appearance of our lawns. Do your part by walking on the sidewalks. A straight line may be the shortest distance between two points, but remember that the longest road is sometimes the shortest way home.

There is no question but that the student body should co-operate with the university in keeping the lawns in good condition, but it also seems logical that the university authorities should co-operate with the students by giving them adequate sidewalks on which to walk.

For a long time the two lines of foot traffic have vied for positions on the sidewalk between the book store corner and the Arts and Sciences building. As a result of this, many of the pedestrians have been forced off the walk and are walking on the lawn on both sides of the way. This barren, muddy path on either side of the walk is very unsightly, and it is also exceedingly muddy walking.

The university could very well spend some money to good advantage in widening the Arts and Sciences walk. The widening of this walk is not a luxury that we would like to have, but rather a necessity that we must have.

In order to uphold the standards already established by the Student Senate, the various fraternities should use care in electing new delegates to the Senate and choose men who will speak not only their own convictions but also those of the organization which they represent.

The Student Senate has made much progress on the campus this year and to keep up this progress it must have men who are willing to spend both time and energy on projects that are of interest to the student body and the university.

Correspondence

March 11, 1930

Editor of the Campus

Dear Sir:

The writer of this letter holds no brief for the service at the University Store. I, too, have suffered together with the complaining student in your last week's edition. However, there are certain facts that should not be overlooked before passing judgment on the accused. The store is, or should be, a place of business, not a social center. At certain hours of the day it must be impossible for the attendants to know who are customers and who are not.

In the days of the saloon the purchase of a glass of beer entitled one to a free lunch. On the same theory, I suppose, a Coca Cola or a chocolate bar permits the customer to occupy a stool or to lean against the counters ad infinitum. In other words, a considerable part of the poor service is the result of a situation which must displease the management but can hardly be avoided with conditions as they exist.

This criticism is not without its good points. It emphasizes the need of a Student Union on the Campus, a place where students can meet to exchange ideas and indulge in other social activi-

ties. When such a building is provided the store will be a place of business and the Library a place to study.

Very truly yours,
A Faculty Member

Editor, Maine Campus,

Dear Sir:

Will you please print this in your correspondence column.

In every athletic league there is a well-known custom of picking "All" teams at the end of the season. I have never heard of anyone ever picking an all-star team at the end of the Inter-Fraternity season at Maine and I hope I will start interest in this matter by submitting my choice of an All-Campus team made up of men who played in the Inter-Fraternity league this winter.

Following is my choice of an "All-Campus" team:
Right Forward—Hagen, Phi Gamma Delta
Left Forward—Hebert, Theta Chi Center—Wells, Beta Theta Pi
Right Guard—Emerson, Sigma Nu
Left Guard—Moore, Sigma Alpha Epsilon

No doubt many of the dopesters will disagree with my selections. In case they

FINALS IN R.O.T.C. COMPETITION

The competitive platoon drill of the R.O.T.C. is nearing its end. Captain Stewart announces that the Company commanders assisted by the battalion staff officers will select the first platoons out of each company on March 15 for final competition. These four platoons will enter into a final competition to take place on April 5th.

The basis of the rating will be as follows: Drill, 40% or points; Grades, 20% or points; Demerits, 20% or points; Absences, 20% or points.

The drill will be rated as follows: a list of platoon movements will be given each commander in which he must drill the platoon and the judges will give each platoon a proper standing. As part of the drill, steadiness in ranks and the appearance of the men will be taken into consideration for the final competition. The best platoon in drill will be given 4 points, second 3, third 2, fourth 1.

In appearance the same: Best platoon in drill 4x5—20; best platoon in appearance 4x2.5—10; best platoon in steadiness 4x2.5—10; Total, 40.

Grade: Each platoon will be given a relative standing and in the final competition the best platoon will have four points, the second three, etc. or 20 and 15 points, respectively.

The same basis of rating will be used for absences and demerits as is used in figuring the grades. Grades for the first semester only will be considered. Demerits and absences will be considered from the beginning of the first semester up to a date just prior to the active competition.

The best platoon will be awarded a silver cup and each man in the winning platoon will receive a bonus of three points for his final grade on his final grade for the spring semester.

The standing of the platoons at present is:

Company	Grade	Cuts	Demerits
Company A	2.54	4.30	.545
1st Platoon	2.12	3.72	1.16
2nd Platoon			
Company B	2.25	3.07	.275
1st Platoon	2.39	1.8	.18
2nd Platoon			
Company C	2.88	3.19	.53
1st Platoon	2.68	2.34	.25
2nd Platoon	2.56	2.01	.36
3rd Platoon			
Company D	2.20	2.63	.162
1st Platoon	2.81	3.185	.182
2nd Platoon	2.50	1.92	.19
3rd Platoon			

This drill competition is sponsored by the Scabbard and Blade Fraternity. The officers of the fraternity are Captain, John Sweett; 1st Lieutenant, Fred L. Lamoreau; 2nd Lieutenant, Charles Hardy; 1st Sergeant, David L. Kingman.

do, I would like to see their selections in the Campus.

Hagen of Phi Gamma Delta was one of the fastest forwards on the Campus. He was largely responsible for Phi Gamma Delta's successful season. He is a very clever floor worker and a dead shot.

Heck Hebert of Theta Chi was, to my mind, the best all-around forward on the campus. He was Theta Chi's big threat all season. Probably no forward on the campus was guarded as closely as he was. In the S.A.E. game he scored 16 points although he was closely guarded. In the Delta Tau Delta game he scored 25 points. There isn't another forward on the campus who scored this many points against Delta Tau.

Emerson of Sigma Nu was, in my opinion, by far the best guard in the league. Had he been playing with a better team he would have showed up much better.

Moore of S.A.E. was a very consistent guard all season and Wells at center outplayed his man in every game. Wells is a dead shot under the basket and is a very good floor man.

Now, come on, you dopesters! Let's see your selections.

A Basketball Fan

Editor of the Campus

Dear Sir:

In order to clear up any misunderstanding concerning our action in voting against the proposition to merge the Student Senate and the Inter-Fraternity Council we would like to say, that we believe that the Student Senate at present has enough to do. We think that it should control the action of the student body and serve to represent that body in its relationship with the faculty. But we are firmly convinced that a need still exists for a strong Inter-Fraternity Council, to promote harmony among the fraternities, and to regulate such matters as rushing, pledging, etc. We believe that a reorganized Inter-Fraternity Council, independent of the Senate, is the only body capable of efficiently and independently governing purely fraternity matters. We invite all the other fraternities to cooperate with us in the reorganization of the Inter-Fraternity Council, and we offer our house as a meeting place of any representatives which other fraternities may care to send to a conference, having as its purpose such reorganization.

Sincerely yours,

Phi Gamma Delta

SYLVIA GOULD CHOSEN QUEEN OF SPANISH CLUB

An event which was of interest to the entire campus occurred Friday night in the gymnasium when for the first time in the history of the University of Maine, a queen was chosen among the ranks of the co-eds and crowned with a fitting and impressive ceremony. At the dance given by the Spanish Club, Sylvia Gould was chosen queen of the Spanish Club and crowned by Dorothy Mayo, the "princess". Her attendants were members of the Spanish Club. They were Margaret Davis, Rosamond Cole, Eloise Lull, Abbie Sargent, Marcia Adelman, and Helen McLaughlin. Charles Jamey announced the queen and presented to her a beautiful bouquet. The "royal" procession took its place about the throne to the music of the Spanish royal march, "La Marcha Real".

The dance, which was for the members of the Spanish Club and their guests only, was financed by the profits of the operetta given by the club last December. The committee in charge consisted of Dorothy Greene, chairman, Dorothy Mayo, Samuel Calderwood, and Mason Stewart. The Reo Flying Cloud orchestra from Bangor furnished music. Captain and Mrs. Hugh Wear were chaperones.

The gymnasium was decorated with Spanish and Latin-American flags.

CHI OMEGA PLEDGE DANCE

Chi Omega held an informal pledge dance in Old Town Saturday evening. The Crescent Troubadours furnished the music. Dean and Mrs. Corbett, Prof. and Mrs. Simmons acted as chaperones. Mabel Lancaster was chairman of the dance.

Erma Barton Elected President Pi Beta Phi

Erma "Patty" Barton has been elected president of Pi Beta Phi for the coming year. "Patty" has held many offices and participated in many activities during her three years at the University. Class Basketball, 1, 2, Captain; 2, Rifle Club, 1, 2, 3; Sec'y-Treas., 3; Volley Ball, 1, 2; Spanish Club, 1, 2, 3; Spanish Night, 2, 3; Executive committee, 2; Sophomore Eagle; All Maine Woman; Sec'y Student Government, 3; Pan-Hellenic Council, 3.

PHI GAMMA DELTA TO HOLD INFORMAL PARTY

Phi Gamma Delta will hold an informal house party March fifteenth. Professor and Mrs. Rice will be the chaperones. "Phil" Cohen and his gay "Troubadours" will furnish the music. "Bob" Prescott and Dan MacKenzie comprise the committee.

PHI KAPPA SIGMA FETES ENGINEERS

Phi Kappa Sigma gave an informal house dance Saturday evening in honor of their engineers who leave Monday on their annual inspection tour to Boston. Mink Kent, Don Marshall and Mel Adams were the committee in charge. Mrs. Carrie Newman and Lieutenant and Mrs. Richard McKee chaperoned the party. The Troubadours furnished the music.

TECHNOLOGY NEWS

Mr. E. J. Bogan of the Chemistry staff, who underwent an operation for removal of appendix March 3 at the Eastern Maine General Hospital, is making a good recovery and expects to return to the University Inn about March 13.

Mr. Harley M. Riley, U. of M. 1928, has recently been appointed to a position with the Chicago Sanitary District Board.

The paper making machine recently purchased by the Chemistry Department of the Moore & White Paper Machinery Company was received at the University March 7. This machine will make a continuous sheet of paper seven inches wide. With it raw material may be pulped and the whole of the pulp run into a sheet of paper. Accurate yields may thus be calculated. The machine will be useful in studies of applications of fillers, dyes, sizing materials, etc., to a cylinder machine made sheet of paper when various pulps under various conditions are used. It affords unlimited possibilities for research.

Mr. Harold E. Milliken, U. of M. 1927, has recently been appointed as Bacteriologist and Chief Operator of the Water Filtration Plant at Auburn, New York.

The third annual Metermen's Course and Conference will be held at the University of Maine March 26-30, inclusive, under the joint auspices of the Meter Committee of the New England Section of the National Electric Light Association and the Electrical Engineering Department of the University. The course features lectures, demonstrations, and conferences on the theory, testing and operation of meters.

Students interested in taking Central Board basketball examinations should see Asa V. Wasgatt at Sigma Nu next week.

PI BETA PHI ENTERTAINS PLEDGES

Pi Beta Phi entertained their pledges, Doris Hutchinson, Janet Young, Margaret Davis, Marjorie Moulton, Margaret Denton, and Ruth Nelson, at a "Cooky Shine", Sunday night at the Cabin. Next Saturday night they will hold a "vic" party for these Pi Phi pledges.

N. E. STUDENT GOVERNMENT GROUPS MEET AT MAINE

The Women's Student Government Association of the University of Maine will be hostess to the annual Student Government Convention of Coeducational Colleges of New England, the week-end of April 24, 25, 26. The committee in charge consists of Margaret Churchill, chairman, assisted by Erma Barton and Helen Beasley.

NATIONAL Y.W.C.A. REPRESENTATIVE SPEAKS TO MAINE WOMEN

Katherine Butler, a representative from the National Y.W.C.A. met the Y.W.C.A. Cabinet last week and spoke on national and international aspects of Y.W. work. She talked before the freshman Cabinet on moral and spiritual problems. Following these meetings, individual conferences were held in which Miss Butler spoke about the various lines of work open for girls and gave valuable advice on choosing a vocation.

PHI SIGMA HOLDS INITIATION

Phi Sigma, honorary biological society, held their initiation and banquet Tuesday evening. Following a short informal initiation at Coburn Hall, the banquet was served at the Country Club. The formal initiation took place after the conclusion of the banquet. Dr. Kenneth S. Rice acted as toastmaster. Mr. Frederick G. Fassett spoke on "Journalism and Science." The substance of his discourse was that by using a simple language through the channels of the daily newspaper science can be put before the people very easily. If you could control the policy of the Press, you could control the nation. So if you, as scientists, put your discoveries before the people through the daily press, you can educate the masses to an understanding of the gross principles of science. The speaking of the banquet was concluded by some very fine original poems of the initiates.

Sigma Mu Sigma Announces Pledges

Sigma Mu Sigma, the psychology fraternity, announces the following pledges to be initiated March 17. Beryl Bryant, Dorothea Green, Smith Ames, Bernard Berenson, Horace Croxford, and the Reverend Riddeough.

NOISE MAKERS AT BETA PARTY

Noise makers and confetti were plentiful at an informal novelty party held Friday night at Beta Theta Pi. Pearly Reynolds' orchestra played for the occasion. Mr. and Mrs. F. S. Youngs were the chaperones.

WOMEN'S STUDENT GOV'T HELD LAST COMPULSORY CHAPEL

The last compulsory Woman's Student Government meeting of the year was held Monday in place of the regular chapel exercises. Rebecca Matthews, president of the W.S.G.A. made the following important announcements.

Judge Florence Allen will be the speaker in Chapel Monday, April 6 and everyone is urged to make an effort to hear her.

The New England Convention of W.S.G.A. is to be held at the University of Maine April 24, 25, 26. Delegates are expected from the following colleges: Colby, Mass., Agricultural College, Bates, Rhode Island State, University of New Hampshire, University of Vermont, Jackson, and Brown.

The establishment of two scholarship funds of \$50 each is being considered by the Women's Student Government Council. Suggestions for various revisions of the present constitution were made.

Dean Bean then spoke of the new arrangement which has been made in regard to housing the women students, to go into effect in the coming fall semester. Fifty freshman girls will live on campus. Mt. Vernon is to be a strictly freshman dormitory. All four classes are to be represented in Colvin Hall, the new dormitory, and selection will be made by lot. In order that the freshmen may be on campus next year, it is necessary that some upperclassmen live off campus and this seems most logically to fall to those members of the present sophomore class who lived on campus their freshman year.

PHI MU HOLDS PLEDGE SERVICE

Thirteen new members were pledged to Phi Mu sorority Sunday afternoon in the M.C.A. building. They are: Priscilla Bell '33, Beulah Bradbury '32, Margaret Lovely '33, Lucia Umphrey '33, Marion Lader '33, Emily DeWitt '33, Gertrude Dorr '33, Blanche Henry '33, Lydia Wear '33, Barbara Harvey '32, Josephine Mutt '33, Katherine Mead '32, and Doris Smart '33.

The service was followed by a party and a private supper in Balentine Hall.

DELTA DELTA DELTA HOLDS PLEDGE SERVICE

Sunday evening Delta Delta Delta held a formal pledge service at Edith Talbot's home in Orono. The pledges are Ruth Callaghan, Edna Richards, Betty Tryon, Mary Sewall, Eloise Young, Eleanor West, Emily Thompson, and Polly Brown.

After the service a supper was served consisting of fruit salad, rolls, cake, cocoa, and candy.

Y.W.C.A. NOMINATING COMMITTEE CHOSEN

The members of the committee to nominate officers for the Y.W. Cabinet have been selected. They are: Louise Campbell, Y. Secretary; Rachel Matthews, President; Jeanette Roney, Senior class; Jean Campbell, Junior class; Hildreth Montgomery, Sophomore class; and Blanche Henry, Freshman class. The nominees will be announced March 12, one week before the elections.

LENTEN SERVICES

At the Universalist Church, Lent is being observed with a series of sermons on the theme: "Symbols of a Larger Life." Rev. Howard Davis Spoerl will preach on the following subjects:

March 16, The Dynamo Within; March 23, Borrowed Energy; March 30, The Current and the Key; April 6, An Exchange of Power; April 13, Pygmalion; April 20, Dawn Behind the Cross.

M.C.A. HOLDS VAGABOND PARTY

The Vagabond Party for the freshman students under auspices of M.C.A. will be held at Wesley House Friday evening at 7:30 P.M.

Plenty of fun and refreshments are promised to all who attend.

All freshmen, both men and women are invited.

PHI KAPPA SIGMA HOLDS INFORMAL PARTY

About thirty-five couples braved the storm Friday evening to attend the Phi Kappa Sigma dance. The "Troubadours" made everyone forget the weather and made the dance most successful.

Mrs. Newman, Lieutenant and Mrs. McKee were the chaperones.

DELTA ZETA HOLDS INFORMAL DANCE

Delta Zeta sorority held an informal dance at Monitor Hall Saturday evening. Despite the inclement weather, gaiety marked the party which was chaperoned by Dr. and Mrs. G. W. Small and Mrs. Delia Sullivan. The Harmanians furnished the music.

BOOK REVIEW

Maine Spring

The best yet—seasoned with the spice of life and all that sort of thing. General comment thus mentions the March issue of the Maine Spring.

A resumé looks like this: *Hot Water For Shaving*—not a treatise on the scathing art of razor wielding; merely another poor hen-pecked, goggle-eyed worse-half who emancipates himself miraculously by defiant stamp of foot and fling of arm. The men would love it!

Chess—a believe it or not tale; in fact you almost become glibly until the end, and then you go and swallow it all like the susceptible fool you are, with goose flesh on your scalp.

Women, rise up in hot pursuit! (Not the titles—simply an invocation.) No other than the gentle Mah Long (a pen name, I believe), presumes to liken women to tramp schooners and crackly painted stranded vessels. It's a thought, anyway, and then—most anything for contrast!

Candy! Linwood Elliott with a rough, tough and nasty pen. The title would appeal to youth; but the candy's sticky, so don't get involved, freshmen. Incidentally, try and find any sentiment in it. Of course poetry serves as a filler-in here and there. There's a pretty fair *Land Lubber's Song* by a writer with no compunctions about Masfield; in fact apologies were omitted entirely. There's *Glance*, a bit of a masterpiece by the doctor.

Keep your class lessons.

Tel. 4749, Bangor, Maine

FRATERNITIES ENTERTAIN TOURNAMENT VISITORS

The visiting teams on the Maine campus, who are to participate in the Eastern Maine Inter-Scholastic Basketball Tournament, are being entertained at the following fraternity houses:

Bangor at Sigma Phi Sigma; Brooks, Phi Gamma Delta; Calais or Beals, Beta Theta Pi; Presque Isle or Houlton, Delta Tau Delta; Northeast Harbor, Phi Mu Delta; Dexter, Phi Eta Kappa; Waterville, Theta Chi; Monson, Beta Kappa; E.M.C.S., Phi Kappa Sigma; Bridgton or Kents Hill, Lambda Chi Alpha; officials, Sigma Nu.

Y.W.C.A. ELECTION TO BE HELD MARCH 19

Election of next year's officers of the women's organization of the M.C.A. and the Y.W.C.A. will be held at Alumni Hall from nine o'clock A.M. until three o'clock P.M.

All women students on the campus are eligible to vote.

SCREEN

Capacity audiences are expected to greet the musical comedy debut of Janet Gaynor and Charles Farrell when they make their bow at the Strand theatre, Friday and Saturday in "Sunny Side Up", Fox Movietone, singing, dancing and talking production.

Miss Gaynor and Farrell sing several song numbers and Janet also displays her versatility by doing a jazz dance number that is reported to be one of the sensations of the production.

Seven songs have been provided for "Sunny Side Up," by DeSylva, Brown and Henderson, who also wrote the story and dialog. At least six of them are expected to become sensational popular favorites and take rank with others of their best sellers.

A supporting cast of unusual strength

surrounds the stars, including Sharon Lynn, Frank Richardson, Marjorie White and El Brendel. In addition, there is a chorus of 100 dancing, singing beauties.

We feel honored—we've booked the comedy riot of all time!

That master hand of comedy directors, Raoul Walsh directed and wrote "Hot for Paris" and made a bigger, brighter and more merry all talking, laughing Fox Movietone than his outstanding "The Cock Eyed World."

Who but Vic McLaglen and El Brendel are in the leading male roles! And Fifi Dorsay, that sparkling Mlle. of "They Had to See Paris" is the leading lady who knows how to lead the boys

into the funniest comedy situations ever heard or seen. And those other girls: can they make whoopee! And those other boys: can they help 'em!

Mark the days, Monday and Tuesday,

on your calendar—and get there early! If Helen Osgood '33, and Robert Jenks '32 will present this page at the box-office they will receive a free pass to any performance.

WHAT YOUNGER COLLEGE MEN ARE DOING WITH WESTINGHOUSE

Special cars were needed...
railway tracks had to be lowered, to handle
the transformers these men built

AT Conowingo, Maryland, is the second largest hydro-electric development in the world. Power generated there at 220,000 volts will be fed into lower voltage transmission lines of the Public Service Electric and Gas Company at Roseland, near Newark, New Jersey.

The transformers that will perform this transfer of energy are physically the largest ever built, for their capacity is sufficient to serve the home lighting needs of a city of a million people. Four in number, each is larger than a house, weighs when empty as much as a large locomotive and holds three

tank cars of oil. Four specially built railway cars and fifty-two standard cars of various types were required to transport them from the factory to the job. At one point the railway tracks had to be lowered so the units would clear an overhead viaduct, so great was their size.

When spectacular jobs like this come up, it is natural that they go to an institution like Westinghouse. Pioneers in electrical development, Westinghouse engineers often know the thrill of achieving the "impossible" in seeing their work through from design to erection.

Maine Trackmen Defeat Bates
In Hectic Meet Saturday

defeated Whitten in the two mile in the State Meet last spring and now with Whitten scoring a win there will be an interesting battle fought at Brunswick May 16 for supremacy.

One of the upsets of the meet came when Knowlton of Maine took over O'Connor in the broad jump by two inches, jumping 22 ft. 8 ins. to break the indoor record and cop a first that Maine felt sure of. Things looked blue for Maine after this event and all looked

forward to see what Maine could do in the 300 yd. dash to give them a possible marginal lead. Bates was now far ahead and the only bet for a victory seemed to lie in what the Maine flashes could accomplish in the 300. Raymo White fought forward to a lead for the first few yards only to lose his balance on the first bank and drop behind while Stytiest was boxed in away from a possible lead and Bates obtained a complete shut out in this event. The score now stood 58-50 in favor of Bates and two more points would give them a victory.

With Knowlton, a man of O'Connor calibre, in the high jump and four other good leapers in action it seemed impossible that Maine could accomplish a shut out here. Never was a high jump more exciting probably than the last hour of bar-topping at Lewiston Saturday. O'Connor easily kept the winning height with eight jumpers staying in up to the 5 ft., 5 ins. vicinity. Finally three Bates men were forced to withdraw and then Maine lost Chase who had reached his best altitude up to date but was forced to stop. Maine had Burnham, Cuozzo and O'Connor in ranks still and Bates only hope was for Knowlton to place. The five foot six measure went around with

SOPHOMORE AND FRESH-
MAN WOMEN CLASH

An interesting final in the sophomore-freshman controversy among the co-eds will be the basketball game to be played in Alumni Hall Monday evening March 17, at 7:30. Those who are to take part in this game will be chosen from freshman teams I and II and sophomore teams I and II.

If the freshmen win, their victory will be one deciding factor in the leaving off of freshman caps earlier in the year than is customary. Both classes will use the best possible basketball material available, for the game.

every man clearing except the Bates jumper who with a powerful kick on his last leap cleared the bar. At the 5 foot 8 inches altitude O'Connor led again and Burnham finally cleared the bar to tie for first. The battle now settled down to a duel between Vim Cuozzo and Chad Knowlton of Bates. In two trials each neither man could succeed in clearing the bar. Knowlton paced off his distance for his last try. The excitement was intense. There was hardly a whisper. As he went up all the onlookers held their breath. The Bates jumper made a splendid jump but failed to clear the bar. The meet rested upon Cuozzo's final jump. A failure would mean a 58-58 tie, a clearance a win for Maine of one point. Cuozzo with a beautiful roll and a splendid kick cleared the bar and Maine had won probably the closest scored track meet in history.

As a result of the meet Maine has two new letter men, Wescott who won the pole vault and Burnham who tied with O'Connor and Cuozzo in the high jump. Captain Gowell was high man of the meet with 13 points.

given of course to the state of Maine applicants.

The administration realizes only too well the inconvenience which this will cause to the present upperclassmen, but believing that the principle is right and that the students will be broadminded enough to see the action in the light in which it was conceived, they have determined to take this course. Before deciding upon the matter, several of the student leaders were approached upon the subject and their approval was unanimous. Dean Corbett ended his statement with an appeal to the student body to give to this action of the administration their whole-hearted support and cooperation.

American Sugar Refining Co., Thursday; the Everett Works of the Merrimac Chemical Co., A. D. Little, Inc., Cambridge, Boston Woven Hose and Rubber Co., Lever Brothers Co., Friday.

The mechanical engineers in charge of Professor W. J. Sweetser will visit the Boston Gear Works and Boston Woven Hose Co., Monday; American Steel and Wire Co., Wyman and Gordon, and Worcester Pressed Steel Co., Tuesday; General Electric Company and the Ford Motor Assembly Plant, Wednesday; the Lowell Electric Light Corporation, and the Ramshead Mills, and the Edgar Station of the Boston Edison Co. at East Weymouth, Thursday; the International Manufacturing Co. and the Dennison Manufacturing Co. at Framingham, Friday.

The civil engineers in charge of Professor E. H. Sprague will visit the New England Tel. and Tel. Co. Building, Stone & Webster office, and United States Geological Survey office, and the Watertown Arsenal, Monday; the Boston Bridge Works and the Edison Electric Company at East Weymouth, Tuesday; Warren Bros. Bituminous Lab. and the Cambridge Filtration Plant, Wednesday; the Bridges of Boston and the Charlestown Navy Yard, Thursday; Sewage Disposal Plant at Worcester, the American Steel and Wire Co. at Worcester, and the Hydraulic Laboratory of the Worcester Polytechnic Institute, Friday.

Harnessing Niagara Falls
to the washing machine

Cheaper power! Groping after this modern touchstone to wealth, deluded inventors slaved over perpetual motion machines... informed inventors evolved the turbine... broad visioned men harnessed the rush of waters... engineers raised pressures and temperatures to produce more power without corresponding increases of cost.

While, step by step, this progress has taken place, the many men who have contributed to it could not know what far-reaching results it would have. Now the ultimate boons grow clear. Water power development becomes a national policy, steam bids fair to rival water power for cheapness, economically produced power brings more plentiful goods, lights houses and hauls crowds in cities, is carried to rural sections to lift washday drudgery from farm women's shoulders.

Among the many industrial victories that are behind this revolution, none is more important than wider knowledge of piping materials and better materials. One of the highly prized chapters of our history is the contribution that Crane research and valve engineering has made to the general advance. The results of this research are embodied in a Crane book, *Pioneering in Science*. It is a fascinating story of engineering development and a valuable reference work for engineering students. A request will bring you a copy.
