World Communion At Services Sunday

Charles E. O'Connor, general secretary of the MCA, will speak at the service in the Little Theatre on Sunday, October 3, at 10:45 a.m. His topic will be "The Unity of the Spirit."

Sunday is World Communion Day, and will be celebrated by a special non-sectarian communion service, the first of its kind to be available for both civilians and AST men. This will follow the regular worship service, which will be of abbreviated length in order that the complete program may be over at the usual time.

Irene James Shepard '43, soprano soloist with the Chapel Choir, will sing Schubert's "Ave Maria." The anthems will be "Judge Eternal Throned in Splendor" and "Once to Every Man and Nation."

CHARLES E. O'CONNOR

Pvt. Leigner Masque President; Informal Shows Draw Crowd

The Maine Masque threw the green light on this week and opened their fall season with a bit of early evening merriment that brought numerous soldier and civilian students to the Little Theatre and sent them away well pleased.

Simultaneously, Herschel Bricker, director of the Masque, announced the presiding officers for the forthcoming season.

As a result of last week's voting by the executive committee of the theatre organization, Frank Leigner, an ASTP man, was unanimously elected president of the Masque. Frank hails from the vicinity of New York and was most recently seen as George Washington in the summer production, "Thumbs Up."

Gwen Cushing, senior and well-known Masque member of former seasons, likewise received unanimous choice as executive officer. Herman Bonney, another Maine student who played a big part in the summer variety show, is vice president, and Ruth Higgins assumed the duties of Masque secretary.

COMMITTEES NAMED

Others that round out the executive committee are: Nat Bartholomei, house manager; Isabel Ansell, historian; Betty Rowe, membership secretary; Barbara Higgins, Roger Thurrell, John Henderson, and Pvt. Denny Evans, membership representatives.

Betty Clough, former Masque member and theatre enthusiast, became assistant production member in the wake of the week's voting. Because numerous students proved invaluable during the summer season in regard to production, a new office was created; namely, that of production advisers. They are: Joe Thibault, Ed Taylor, George Taylor, George Sirmon, Fred Wentworth, Adelaide Russell, David Jacobs, Jack Johnson, William Hagerling, Rubin Hoyt, Herman Markowitz, George Latham, Betty Perkins, John York, and Betty Jenkins.

In addition to the elected officers, a slate of ten appointive officers was announced by Mr. Bricker. Bill Rigby, who ably handled lighting arrangements for the summer shows, returns as technical director, with Jean McKinney and Burt Sklar as co-directors. Roger Hannemann will stand as business manager with Bob Cool as assistant. Press relations will be handled by Phil Robinson, while the sale of tickets will be under the direction of Chairman Jane Harley, assisted by Pauline Forbus, Virginia Wing, and Wayne Moffitt.

Just what may be in store for theatre goers during the fall months still remains very much a secret to those within the Masque, but one thing remains certain, and that is that the

(Continued on Page Six)

ASTU Organizes Military Band Of Thirty Pieces

There is good news this week for everyone who likes to listen to the stirring music of a military band. The band this year will be different, for the University has been accustomed to an ROTC band composed of regular students, but now an AST band with more than thirty pieces will take over.

It was thought possible, for a time, that there would be an ROTC band, but only eight men signed up. These men can sit in with the AST band during their Thursday night rehearsals, which run from 6:30 to 7:30. The band also practices Wednesdays, the eighth period.

Mr. Irving Devoe, who directed last year's ROTC band, is the director of the new outfit. The student leader and solo cornetist of the band is Private Albert Teller. The band will be used by the entire AST corps for drill purposes.

Lt. Carlton B. Payson of the military department said he thought the band might be induced to play at any home football games, but he added that the decision will be entirely up to the soldiers since they will have to play on their free time.

Seven Enrolled In Honors Work

A-S Course Consists Of Tutorial Reading

Seven students have been admitted to the Honors course in the college of arts and sciences, Prof. Stanley R. Ashby announced today.

Sophomore Honors students are: Barbara P. Allen, Mary J. Hoyt, Janice L. Minott, and Olive M. Upton.

Junior Honors students are: Sam Collins, Jr., and Thelma E. Peacock.

Hughene R. Phillips is enrolled in Senior Honors.

In order to take the Honors course, it is required that a student have a high average and demonstrate exceptional abilities. At graduation the highest distinctions, which are Honors, High Honors, and Highest Honors, are conferred on the students who have satisfactorily completed this program.

The students in the Honors course do not take part in classes. Given great freedom to pursue their own interests and to develop self-reliance, they are tutored. The freshman and sophomore years are spent in reading famous books in a great variety of fields. The student in his junior year usually investigates some phase of a particular subject. During the senior year he investigates some problem, or a very restricted phase of some subject in his major field, and writes a thesis presenting the results of this investigation.

Students who are interested in future Honors work should consult Prof. Ashby at 235 Stevens.

ROTC Men To Return In Late October

Maine men who were in junior ROTC last spring will not return to the campus before October 27, Percy F. Crane, director of admissions, said today. The men will be housed on the campus by the University. The return to Maine will be a purely temporary interruption in their preparation for Officers' Candidate School.

Linguists See Use For Basic English; Better Than Esperanto

By Mary-Jane Hoyt

Winston Churchill's recent approval of Basic English as a means of post-war international communication has raised much discussion in academic circles. Even before the war various attempts had been made to invent a common world language, using a mixture of many languages. Esperanto is one of the best examples. With the advent of the war and the increasing importance of the English speaking nations, however, the new trend has been to think of using an established language rather than an artificial one. Pidgin English is widely used by soldiers and tradespeople in the islands of the Pacific now, but the vocabulary is much too limited for complicated business and diplomatic relations.

A committee of educational authorities of the exiled United Nations, including Norway, Poland, the Netherlands, and the Fighting French, recently met in London and made the following recommendations: 1) that both English and French be introduced in the higher grades of the elementary schools as compulsory subjects; 2)

Dean's List For This Term Includes 148 Students

One hundred and forty-eight University of Maine students are on the dean's list for this term, Registrar James A. Gannett announced this week. This list includes those of the summer term as well as the students of the spring semester who have returned to college this fall.

Dance Saturday; MCA Open House

Al Ehrenfried and the Maine Bears will provide music for an All-University stag dance to be held Saturday evening, October 2, 8:00 to 11:30, in the Alumni Gym, admission forty cents (tax included). Patrons and patronesses for the dance will be Prof. and Mrs. Maynard Jordan and Mr. and Mrs. Samuel Sezak.

At the same time on Saturday in the rooms of the MCA building, the MCA will be sponsoring an open house program in charge of a student committee headed by Henry Hagman, new chairman of the MCA social committee. There will be various table games, music, cards, ping-pong, and refreshments. A group of women members of the MCA and other University coeds will be present as hostesses.

MADemoiselle Seeks More Talent

MADemoiselle magazine is now conducting its fall round-up of College Board members. All women undergraduates who are interested in publication work, advertising, creative writing, reporting, fashion illustrating, or design are invited to apply now or Board membership.

Being a college board member involves reporting to MADemoiselle, via specific assignments, all campus news from fads and fashions to war activities.

For complete details on how to become a MADemoiselle college board member, write to: Miss Dorothea Zack, College Board Editor, MADemoiselle, 1 East 57 Street, New York 22, N. Y.

The college of arts and sciences led with a total of 70 students attaining the necessary average of B or better. The college of technology followed with 47. There were 20 in agriculture and 11 in the school of education.

COLLEGE OF AGRICULTURE

M. Elizabeth Barnes, Mary N. Billings, William P. Bronsdon, Joyce M. Cook, Eleanor F. Currier, Jeanne Delano, Elizabeth E. Files, Thelma L. Folsom, Barbara A. Higgins, Joyce R. Iveney, Lillian L. Lewis, Virginia P. Libby, Lyle E. Littlefield, Esther M. Pike, Esther Randall, Barbara P. Rozelle, J. Robert Smyth, Jr., Helen K. Stacy, Phyllis M. White, Mildred E. Wooster.

Rebuilt Wingate Ready For Classes In Late October

Although the tower and bell will still be missing, Wingate Hall will be open for the use of students and faculty in late October, it was disclosed today.

On the afternoon of February 16, 1943, the fire occurred which almost completely demolished the third and fourth floors of Wingate Hall, headquarters of the college of technology. Some damage from fire extended to the second floor in addition to the water damage of the first and second floors caused by the attempt to put out the blaze. Although much property was removed from the building during the fire by students and members of the faculty, the total value of the destruction was estimated to be \$75,000 along with the destruction of \$15,000 worth of equipment.

The bids for the reconstruction of Wingate Hall were opened on June 11, 1943, and the work was begun early in July by contractor A. B. Stewart of Bangor. The contract called for the taking down of the walls and tower and re-roofing the building. All work below the second floor was done by the University with Carrol Dempsey, superintendent of buildings and grounds, in charge. It is expected that further work will be done on the building after the war.

The building now contains two classrooms and two mechanical drawing rooms along with the highway materials testing laboratory and the Technology Experiment Station in the basement. The building is to be used by civilian students and the ASTP for civil engineering, mechanical drawing, and engineering drafting. It also provides offices for Dean Cloke and Professors Evans, Lyons, Leavitt, Taylor, Ryckman, and Preble.

Wingate Hall is the fourth oldest building on campus. It was built in 1892, and it was named in honor of the Hon. William P. Wingate, a former president of the board of trustees.

Off Campus Women Elect Officers

Florence Armstrong was elected president of the Off-Campus Women at their first meeting of the quarter Monday in the MCA building. She fills the post left vacant by Pauline Stuart.

Representatives for the Bangor-Brewer, Orono, and Old Town districts were also elected for the year. They are: Bangor-Brewer, Barbara Allen, Evelyn Forester, Edith Strout; Orono, Harriet Steinmetz, Barbara Crabtree; and Old Town, Irene Campbell and Norma Hoyle.

A new constitution committee was announced at the meeting. Members of the committee are: Edith Fairley, Olive Upton, and Barbara Allen.

THE BESSEMER PROCESS

They took the iron-like sinews of a host of farming men,
Plus the steady, steel courage from the mothers of the plain,
And the metal of a slave's soul, hammered hard by endless pain.
For temper then the good red blood of men who had dared to fight,
The blood of men who had fallen in defense of what was right:
They used this blood that all good men might not have died in vain.

And all things were placed into a great big melting pot.

They used the smoldering dreams of men who had taught equality,
Fanning them to a white hot heat with the bellows of Liberty.
When the mixture started melting and fusion was to start,
They blew through it a mighty blast of purity in heart
To burn out all the carbonated souls of selfish men
Which left a metal purer than the Bards of Abraham.
But the carbon of ambition which every metal needs
Was added in the quantity which changed men's thoughts to deeds.

And all of these things were melted thus in that great big melting pot.

Next they pooled, puddled, and poured it in the mold
of an upright nation

And modeled it after a Negro's vivid dream of emancipation,
After a good man's dream of his right to look for God
After a free-born man's dream of restoring rights where tyrants trod;
Last they knocked off all of the edges and did their job so well
That when time came for naming, it was called The Liberty Bell.

Footlights And Ether

By Ruth Higgins

Anyone who says movie celebrities are not doing their part for the war effort should have seen their latest war bond picture, "Thank Your Lucky Stars." It's debatable whether we should say the picture was a success because of Eddie Cantor or in spite of him. Although we're inclined to think him slightly corny, he certainly is to be admired for the great help he has given to young stars. Remember Bobby Breen, Deanna Durbin, and his most recent discovery, Dinah Shore.

Many of the laughs in the picture came from the sportsmanship of the stars. We're referring to such scenes as Bette Davis's song "They're Either Too Young or Too Old"; Olivia de Havilland and Ida Lupino doing a tricky little dance routine to the accompaniment of much winking and gum chewing; Errol Flynn's imitation of an English sailor; and Humphrey Bogart allowing himself to be bullied with no more than a meek protest. When thrown out of the theatre, Bogart worriedly mumbles, "I hope my movie fans don't hear about this."

SWOONER CROONER

And, of course, we mustn't forget to mention some of the others including Dinah Shore, Ann Sheridan, John Garfield, Edward Everett Horton, and Dennis Morgan. As Cantor said in one of his recent broadcasts—"A nice little supporting cast."

Square dancing will be held in Alumni Gym Saturday afternoon at 3:45. Everyone welcome.

THE PAYOFF

The time: Last Saturday night.
The place: Alumni Gym.
Civilian: "May I have this dance?"

AST and Peacetime Education

By Private Dave Jacobs

When the Army gives Joe Blank a furlough, he'll head for Chicago—the East side. That's Joe's home, and it's not what people would call nice. He lives in a house with lots of other people near Maxwell Street. The smells and the sounds of that kind of life sort of made Joe sensitive—"sharp" was what the other fellows called him. You see, Joe was good, very good at "figures"—the men down at the warehouse will tell you that.

Well, Joe worked after high school; he wanted college very much, but that, of course, was out; his money was needed in the family. And it was quite a blow when Joe had to go into the Army.

It's far from uncommon, this business about Joe—it happens in tenements and shacks from East Side New York to Lincoln Heights in Los Angeles.

When Joe became Private Joe he learned a great deal—he learned that if he could pass certain examinations the Army gives to some of the men he could actually be sent to college and learn something, like engineering or French, or medicine.

Joe passed these examinations and found himself on a beautiful college campus, living as he never dreamt he would live, learning things he thought he never would have the opportunity to learn, and he was actually getting paid for it!

This all sounds like a paid blurb for the ASTP. But it's not—it's merely an attempt to point out something which is not too readily seen. ASTP is the product of a truly democratic spirit—it has numerous faults, surface and yes, fundamental SNAFU's—but *c'est la guerre*. The important thing to note about ASTP is how it will influence peace-time education.

The fact is that thousands of Joe Blanks are no longer questioned about "Who do you know?" "How much money does your father have?" "What is your name?" "Can you play football?" but are asked "What do you know?" "Do you want to learn?" "Can you learn?" and if Joe says he wants to learn he is given that opportunity.

Choosing thousands of men on such a sane and intelligent basis is something long needed in higher education throughout this country.

Giving thousands of men a free education without any strings should have profound and ringing ramifications throughout the entire educational set-up in the country.

But it's too bad that it is taking a war to teach us such things.

DO YOUR PART • BUY WAR BONDS

Fill the Steins —TO MAINE MEN IN THE SERVICE—

Ten former University of Maine students who are now in the service were seen on campus this past weekend. The men were Curt McClellan of the Marine Corps, who is stationed at Cornell University, Dana Bunker of the Army, Kent York of the Army, Ensign John Chadwick of the Navy, who has been at Notre Dame, Charlie Rowley of the Navy, who is stationed at Bates, and Lt. (j.g.) Paul Ehrenfried of the Navy, former editor of the *Campus*. Mike DiRenzo, Bob Deering, Donald Libby, and Donald Bryan of the Navy were also on campus this week.

NINE AT MAXWELL

Word has been received from Maxwell Field, Ala., that nine former University of Maine students have reported to the Army Air Forces preflight school for pilots there and have begun the third phase of their training as pilots in an expanding program. The Aviation Cadets are Joseph Adler, Jr., Joseph Boyer, Clyde Braley, Jr., Leland Buck, Robert Drew, Philip Harvell, Charles Mason, Leo Pratt, and Earle Vickery.

Pfc. Albert Barmby writes from Lehigh University, Bethlehem, Pa., that he and Jenness Eugley are stationed there with an AST Unit taking Electrical Engineering, term 5.

Cpl. Harold "Kim" Stanwood, who is stationed at Camp Rucker, Ala., writes:

"I have only run into a couple of Maine men since I have been in the Army. One of these, Bob Diefenbach, attended non-com school with me at Sibert. The other was Frank "Parney" Koris who also hails from my home town."

Kim also sent a copy of the Army version of the Stein Song in which the steins are filled to "happy days" but he assures us that in his squad if in no other in the whole country, it is still "Fill the steins to dear old Maine."

The president at North Estabrooke is Arabelle Hodges; vice president, Isabel Ansell; secretary, Pauline Spears; treasurer, Madeline Nevers; and fire chief, Mary Miller.

At South Estabrooke the officers are as follows: Rena Ashman, president; Jacqueline Kimball, vice president; Loraine Davis, secretary; Jean Ross, treasurer. Ruth Higgins and Doris Kilburn are social co-chairmen.

POLITICAL SCENE

By Elbridge Burton Davis

Once again Maine seems to be in for a free-for-all gubernatorial fight in next June's Republican Primary. Already there are three announced candidates: State Senator Horace A. Hildreth, president of the Maine Senate, Speaker of the House F. Ardine Richardson, and former State Senator Roy Lynde Fernald who recently was honorably discharged from the Army Air Corp. The possibility that several more contestants will be in the race before the end of this year makes the situation all the more complicated.

SEWALL RESERVED

Moreover, up until now, Gov. Sumner Sewall, serving his second term in the Blaine Mansion, has given no hint as to his future plans, but speculation is rife that he is seriously considering the advisability of seeking an unprecedented third term. All attempts "to smoke out" the Governor on his political intentions have failed, and he has turned aside all questions as to his future with the bland assertion that it is too early to talk about the election yet. It is stated that this strategy was dictated by some of the closer friends of the Governor with the hope that it would frighten away his potential opponents and leave him with a clear field again.

Manifestly, the Sewall backers have been disappointed over the early announcements of Hildreth, Richardson, and Fernald. In an endeavor to create a "draft" psychology for the Governor, petitions have been circulated in various parts of the state calling upon him to run once more. Although the present administration has been a splendid one, there is a pronounced feeling among Republican voters that

the time-honored two term tradition should not be broken. They point to what they call the inconsistency of opposing third and fourth terms for President Roosevelt, while at the same time supporting their own governor for a third time.

HILDRETH LEADS CANDIDATES

During the last seven days feverish activity has been marked in the Hildreth camp, and at the present time he appears to be in the lead. Two Hildreth-for-Governor clubs have been formed, and the candidate himself has made three speeches in which he has discussed both world and state problems. The response to these has been signally favorable, and it must be admitted that his remarks on plans for postwar employment of veterans and strictest administrative economy in Augusta have been received with genuine enthusiasm by both liberal and conservative elements in the party.

So far almost complete silence has been observed by Richardson, but Fernald has been busy, and undoubtedly the recent rapid moves by Senator Hildreth's supporters will provoke similar energy on the part of the other candidates. However, Governor Sewall still remains the great enigma on the Maine political front.

FROM THE SADDLE

From the Elms came the cry, "But pipe tobacco is so much cheaper," but it took the S.E. gals to illustrate, with gestures. Were you in the Bookstore Mon. p.m.?

'Feet Fashions' Become Steadfast For Duration

By Loraine Davis

Cowhide goes to war, and the fashion-wise coed must be wise in trading her number 18 for a pair of leather-like shoes. In spite of the fewer pairs of shoes her closet will hold this year, the college girl on campus has her quota.

It finally took a rubber shortage to decrease the popularity of saddle shoes. They're but a shadow of their former selves these days, with every proud possessor doctoring her old ones. Re-heeling and re-coloring can make them look miles younger.

SIMONIZED LOAFERS

However, saddle shoes are not without a worthy and capable successor. Yes, it's the loafer—in the limelight again this year. Loafers come in colors, too (there are specimens around campus), which give the foot a personality as well as a sole. Many prefer loafers to the saddle shoe because of the neater appearance they offer. They really demand notice when they have a shine on them. Use simonize or floor wax if you can't get the real polish.

NEW PLASTIC SOLES

Plastic soles offer plenty of novelty. Seen them? You can twist and turn them any old way, and what's more important—they really wear well.

Rope-soled shoes still have their share of fans. They are primarily a fair-weather shoe, with colored fabric tops, but since they require no number 18, they appeal to those of us who like quantity.

WEDGIES COMFORTABLE

For downright solid comfort, the wedgie is a favorite. Styles ranging from sport to dressy models can be seen on the campus—some homely, some cute, all neat-looking and comfortable. It was said that the wedgie

cluded.

The classical viewpoint came from Dr. Leslie Smith, assistant professor of classics. "Basic, as a world auxiliary language, would certainly be a great improvement on pidgin English, which is quite widely used in some sections now. It could never be used as a basis for business and diplomatic relations, and its greatest value would be as a means of communications between the common people." Dr. Smith has made a study of the Basic English vocabulary, with the following interesting result: Of the four hundred words listed under "things general," 102 have direct Latin origin, and 7 have direct Greek origin.

Dr. Wilmarth H. Starr, assistant professor of romance languages, said, "We have as much responsibility to learn a basic vocabulary in any other language as the people of foreign countries have to learn ours. We have always been noticeably egotistical in overlooking the value of foreign culture. Basic English is a shortcut to learning English, and a basic vocabulary in any language insures a sound approach. Basic places too much of a limitation on style and individualism for a great literature to ever grow out of it."

Fraternity Men From 28 Chapters At Joint Smoker

Members of twenty-eight fraternities from more than forty colleges and universities were registered at the interfraternity smoker held Saturday evening, Sept. 25, at Phi Gamma Delta. The affair was sponsored by the Maine Christian Association and the cooperative fraternity group at Phi Gamma Delta. All members and pledges of fraternities who are in the AST unit at the University of Maine were invited.

Guests at the smoker were President Arthur A. Hauck, Deans R. L. Morrow, Paul Cloke, and L. S. Corbett, Prof. John Stewart, and Alumni Secretary Charles E. Crossland. There were several other guests, including fraternity men who attended the University of Maine before entering the armed services. These included Ensign John Chadwick and Pvt. J. Curtis McClellan, Phi Mu Delta; Pvt. Dana Bunker, Phi Gamma Delta; and A/S Charles Rowley, Sigma Chi.

PREXY SPEAKS

President Hauck gave a brief talk on a few topics of interest concerning his recent trip to England. Impromptu speeches were given by AST students Earl Davis (Bowdoin), Hugh Locke (Birmingham Southern College), and A/S Charles Rowley (U. of M., now at Bates College).

Joe Thibeault, also a member of the AST, provided entertainment with a sleight of hand performance.

Plans are being made for another smoker to be held sometime this winter.

Arrangements were supervised by co-chairmen Joe Nadeau and Pvt. Dick Huntington, aided by Charles E. O'Connor, secretary of the Maine Christian Association.

The executive committee of the Men's Student Senate has chosen Al Ehrenfried and Dick Fuller as members of the University social committee.

Freshman representatives to the Senate, elected by their respective houses, are as follows: Phi Kappa Sigma, William Gibson; Phi Mu Delta, Donald Collins.

The next meeting of the Senate will be held on Tuesday, October 5.

Church Services

CATHOLIC

St. Mary's Catholic Church, Orono.
Masses: 8 and 10 a. m.
Confession: 3:30 and 7:30 p. m., Saturday.

Black Bear Football Squad Scrimmages; Blue And White Teams In Game Sat.

Inspired by the presence of President Hauck, the University of Maine's embryo football team charged through its first scrimmage of the year last Saturday under a warm sun behind Memorial Gym, and at the close of the proceedings all those present, coaches particularly, expressed themselves as well satisfied.

The first workout, as always, produced many flaws, but general results were excellent. Many a sweaty grin had that lust-for-battle look which makes the weaker soul tremble. President Hauck showed his usual rabid interest in Black Bear sports.

MATERIAL SHAPING UP

Although the workout was held with only a skeleton system of plays, there was no dearth of talent evident. Many a good prospect came into his own. Two backs showed great promise. They are Gene Mahar, senior, and Hal Parady, sophomore and lone returning member of last year's freshman squad. Mahar, out for football for the first time, looked particularly good cutting through the line. There were many standouts in the forward wall. Red Morrill, sole survivor of last year's Varsity, was his usual smashing self at tackle. Roger Thurrell and Dick Fish also were great at that spot. At the guard post two freshman representatives, Bob Ames and Will Pierce, looked as though the shift to collegiate competition hadn't injured them any. Pete Crockett, also, took care

of himself at the same position.

BLUE VS. WHITE SATURDAY

It may now be said with certainty that there will be two editions of the annual Blue-White game this year. The first will be on this Saturday, and the finale on the following. These two affairs will be real games with all the trimmings.

Getting back to that old schedule question, a definite answer to the problem is expected soon.

Between the halves of the scrimmage game Saturday, there will be a touch football game between the Phi Gamma Delta House and the winner of a game between the Phi Mu Delta freshmen and the Phi Kappa Sigma freshmen.

COACH SAM SEZAK

SONGS OF A YARDBIRD--I

Here I sit with slide rule
And pencil in my hand,
With five and twenty textbooks
Piled upon the stand.

And from those books the vectors
Come slowly, creeping out;
There's vectors long and vectors thin
And vectors short and stout.

And with them come the scalars
With monstrous magnitude
That pitch the quoits and shoot the breeze
With 10° of longitude.

Next comes the force of friction
With his cousin coefficient;
Surely this is plenty,
Or, at least, sufficient.

But no, here comes the tangent
Jiving a merry tune,
While the moment of the couple
Clears his voice to croon.

The band that keeps me sane
Must be elastic;
The angle A and angle B
Are tripping the light fantastic—

They're up the plane and down the plane
Past my eyes and through my head—
Thank God, there goes "lights out";
I'll close my eyes, and so to bed.

—The Yardbird

Faculty Members Participate In MIT Conference

Four faculty members from the University of Maine participated in the recent fall meeting of the New England section of the Society for the Promotion of Engineering Education at Massachusetts Institute of Technology, Cambridge, recently.

Dean Paul Cloke of the College of Technology was a speaker in the electrical engineering section of the meeting Saturday morning, addressing the group on the subject "Educational Standards To Be Met in the Army and Navy Programs."

Chairman of the chemical engineering section of the conference also on Saturday morning was Prof. Irwin B. Douglas, head of the department of chemistry and chemical engineering, who presided over a program of talks covering the chemical work of the Army and Navy programs.

William F. Scamman of the English department served as chairman of the resolutions committee of the Society, and C. A. Brautlecht of the department of chemistry and chemical engineering served as a member of the Society's nominating committee.

All men should sign up with Prof. Stanley Wallace, director of physical education for men, at the Memorial Gymnasium if they are interested in a tennis tournament to decide the University men's singles champion. The matches will be played off on Sundays so that the ASTP men may take part. The winner of the tournament will be the All-University champion.

Copies of the *Campus* are being distributed free this week to all ASTU men at the University. Soldiers and reserves may subscribe to the paper for 50¢ a term. A subscription drive will be launched Monday, and all men who desire to subscribe may sign up in front of the Bookstore.

BEAR FACTS

By Carl Dauchs

With the baseball season rapidly drawing to a close and King Pigskin slowly assuming top position on the sporting pile, we can't help but let our thoughts linger on America's National pastime.

Recently we spent some time talking baseball with Sam Sezak, assistant faculty manager of athletics. We mentioned the fact that Maine seemed far behind other states in the production of top notch ball players.

As examples we cited Georgia and its Ty Cobb, Idaho and its idol, Luke Hamlin, Joe Medwick, the pride of Jersey, and the immortal Lou Gehrig, the hero of all New York.

Hasn't Maine produced anyone of note? we queried. Sammy looked at us with a twinkle in his eye and said nothing.

A little investigation, however, took us to the oldest Catholic cemetery in

New England. It is located on Indian Island. In a small enclosure there is set a plaque on which is inscribed "To Joe Sochalexis—from his friends and admirers."

Sochalexis, a comparatively unknown Penobscot Indian, was a great ballplayer. As a center fielder for the Cleveland Indians, he made people forget about Tris Speaker, and as a hitter he rivaled the great Babe Ruth. Local legend has it that Joe hit a ball further than the best of the Great Bambino.

Joe reached his heyday before the introduction of the lively ball. But it is claimed—and rightly so—that as an athlete and as a sportsman, he represented Maine at its best.

Sochalexis lasted only about four years in the big time, but the records he set while roaming the Cleveland outfield mark him as one of the great players of modern time.

Juventa

The WAA held its annual picnic welcoming the freshman girls Tuesday night at the University picnic grounds. About 200 freshmen and upperclassmen were present. The chairman of the picnic committee was Franny Houghton, and Sally Ryan led the singing.

The council members and officers, Helen Clifford, president, Jennie Morrison, vice president, Mary Spangler, secretary, and Frances Higgins, treasurer, were introduced to the freshmen. Freshman handbooks and the WAA constitution of the University, department of physical education for women, were distributed, and the WAA health program was explained and discussed.

The Modern Dance Club will hold its regular meetings on Wednesday from 7 to 8 p.m. in the Alumni Gym. Lois Baird will be the accompanist.

present nightly shorts will be featured for some time to come; although the number will be cut to one a week following this week's run.

Tuesday evening's fun-show was under the direction of Joe Thibeault, the clown of the Army's aspiring showmen. Fred Wentworth, better known as the writer of "I'm Just a Private Junior Grade," worked as Thibeault's partner, and also produced his own show last night. The final showing of the week, scheduled for tonight at 6:15, will be directed by Sanford "Doc" Kessler, originator of the idea for the show, "The Army Comes to Maine."
