Sally Curtis, Marie Ifill Are Awarded Fulbrights

By Carol Ann Obliskey

Two University of Maine senior women have been named as recipients of Fulbright awards for graduate study abroad. Miss Sally Elizabeth Curtis of South Portland and Miss Marie Ifill of Bangor will attend foreign Universities as a part of the International Educational Exchange Program of the Department of State.

Sally Curtis will study contemporary German literature and government at the Free University of Berlin in Germany. Sally is the second Fulbright Fellow from the University to go to the Free University. At Maine she majored in the Romance Languages and is presently serving as president of Balentine Hall. She holds an office in her sorority, Alpha Omicron Pi, and is a member of the German Club. Miss Curtis was also one of the University's government

interns. She spent six months last year in Washington, D. C., working in the office of First District Congressman James C. Oliver.

Marie Ifill, the second recipient of the coveted scholarship is a physical education major. Marie will study education, with a special emphasis on physical education, at the University of Melbourne in Australia. The first physical education major from the University to receive the Fulbright award. Marie is also the first Maine student to be sent to Australia.

Miss Ifill is a member of Pi Beta Phi sorority in which she has held the office of treasurer. She is president of the Women's Athletic Association at the University, and is a member of Phi Kappa Phi, Kappa Delta Pi, and Sigma Mu Sigma honorary societies. Marie is Basketball Chairman of the Eastern Maine Board of Women's Officials.

The Colbyettes of Colby College will serenade at the Ace of Spades this Saturday night in the Memorial Union.

James Harithas

University Student Exhibits Own One-Man Art Show

By Reb Mire

James Harithas, a University of Maine Junior, is exhibiting his original paintings at the Bangor Public Library from April 18 to April 30. This show which includes 21 experiments in painting technique was conceived and completed during the current school year. It reveals the variety of art interests that Mr. Harithas has acquired during eight years of extensive study.

Mr. Harithas began his study of drawing at Institut Montana, Zug, Switzerland, in 1951 and his study of painting in Frankfurt, Germany.

Dean Mark Shibbes of the College of Education reminds all Education seniors to be prompt in reporting to rooms 350-352 Hitchner Hall on Saturday, April 23, at 8:45 for the Teacher Education Examinations. All seniors without written excuses are expected to take the exams, which will run from 8:45-12:30 and 1:30-3:15.

in 1953. In the fall of 1953 he entered the University of Maine continuing his study of art under Professor Vincent A. Hartgen. Upon leaving the University in 1955, Mr. Harithas went to Greenwich Village, New York, in order to paint full time. Then in 1956 while stationed with Intelligence Division, U. S. Army, France, he was given the unique opportunity to study privately during his free weekends with Professor Andre Lemoine, President of the Federation of Lorraine Artists.

Separated from the Army in 1957, Mr. Harithas immediately entered the most advanced atelier of the French National School of Fine Arts, Nancy France, a studio directed by the internationally famous professors Busse and Hilaire.

Mr. Harithas returned to the University of Maine in 1959 to complete his B.A. work. Besides his academic commitments, he is employed as student assistant in the Art Department; he also teaches a creative art class in Old Town on weekends.

Westerners To Invade Union

Who said it couldn't be done??

On Saturday, April 23, at 8:30 p.m., the Memorial Union (as we know it) will cease to exist. In its stead a Western "gambling" town will flourish until the mystical hour of twelve. This astounding transformation is being wrought by the Ace of Spades, the annual faculty-student "gambling" event.

The main street of town will lead straight to the "Golden Nuggett Ca-

sino" where the Colbyettes of Waterville and the Polar Bear Five of Bowdoin College will be performing. There will be dancing to the music of Paul Dinsmore's Band throughout the evening in the "Silver Slipper Saloon" which will feature swinging doors, a Honky Tonk piano played by Skip Baker, and hostess Diamond Lil.

Gambling will take place at the Apache Trading Post, the Bank, the Blacksmith Shop, the Corral, and the

Jail!! Dealers for Poker, Roulette, Black Jack, Casino, and Poker Dice will be President Elliott and faculty members. "Stage" money for gambling will be furnished by the Union so it will not be necessary for a heavy loser to mortgage his college career.

General admission charge for the event is fifty cents. Students are urged to enter the spirit of the Western theme by donning appropriate costumes such as those of cowboy, cowgirl, Indian, or Chinese cook.

Political Education Group Acts

By Rick Brennan

The Senate Committee on Political Education met last Tuesday at 1:00 P.M. in the Senate Office of the library. Committee members include Mark Shibbes, Barbara Connor, Glenn Philippon, Bernard Mire, Donald Mooers, Herman Diehl, and Barbara Bassler.

The aims and objectives of the committee were defined, and the manner in which they would be implemented was discussed. The committee was to be completely bipartisan in its approach to current issues and the manner in which they are to be handled. The committee will be used as an instrument to provide a medium of information to the student body by way of the *Campus*.

It was decided that each week a member from each of the two political groups would submit to the *Campus* ideas and beliefs relating to pertinent and controversial current issues. The

There will appear next week an article embodying the basic principles of both the Republican and Democratic parties. In the following issue, May 5th, the *Campus* will feature an article on how to register and vote. This will include information of interest to all voters.

Bebek To Speak On Communists

Dr. Tibor J. Bebek of New York, a consultant on foreign affairs, will speak at an assembly Tuesday evening at 7:30 in the Memorial Union. He will talk on *Life Under Communist Rule*.

As a member of the Hungarian Resistance Movement, he lived through the siege of Budapest in 1945 and for three years under Soviet domination, before he escaped as a political refugee. After a short time in England, he came to the United States. Following the 1956 Hungarian Revolution, he served the State Department at the Hungarian Refugee Center. He is still a consultant on foreign affairs in Eastern Europe.

Dr. Bebek has lectured widely in the United States, especially before educational and civic organizations. His visit to the University is sponsored by the International Relations Club, the History Department, and the University Assembly Committee.

Maine Day Plans Posted

An "open air" breakfast will start off the annual Maine Day festivities this year. Held in the space in back of Chadbourne Hall, breakfast will be "served" at 7:00 a.m. for all campus students. Dining halls will not be open for this meal.

At 8 a.m., the results of the mayoralty election will be announced on the steps of the Library, and the new mayor will be presented. Starting at 8:30, work on the 13 major projects will begin. Two students are in charge of each project.

Norm Stevenson, chairman of the projects committee, said that

many students suggested widening roads in front of Estabrooke and Stodder Halls. "Due to the expense of such a project, it will be unable to be undertaken as a Maine Day project," Stevenson said.

The float parade will start at 1:30 and will take its usual route around the Mall. The theme for this year's parade will be "Fabulous Fifties," and floats will depict outstanding events that took place during the decade of the fifties.

A baseball game during the afternoon will be followed by the student-faculty skits starting at 7:30.

Neai Mathetai Banquet Planned

The annual Sophomore Eagle-Neai Mathetai Banquet will be held next Wednesday evening at 6:45 p.m. in Stodder Hall Cafeteria. Twenty new Eagles and ten new Neai Mathetai members will be formally tapped.

The top ten freshman women, according to first semester grades, are the new members of Neai Mathetai. Present members of these two organizations are serving on various committees for the banquet.

Discuss Idea Of Closer Boy-Girl Dorms

Can you imagine male and female dormitories situated together? It might become a strong probability should public opinion approve, although present plans indicate segregating the men from the girls at the University will continue for many a year.

The possibility of a mixed dormitory arrangement was discussed recently by a conference of campus presidents. Although the group touched the subject lightly, some attending were intrigued by the idea and determined to gauge the reaction of others about it. Since the Univer-

sity plans to build several new dorms in the next few years, the integration program stands questionable.

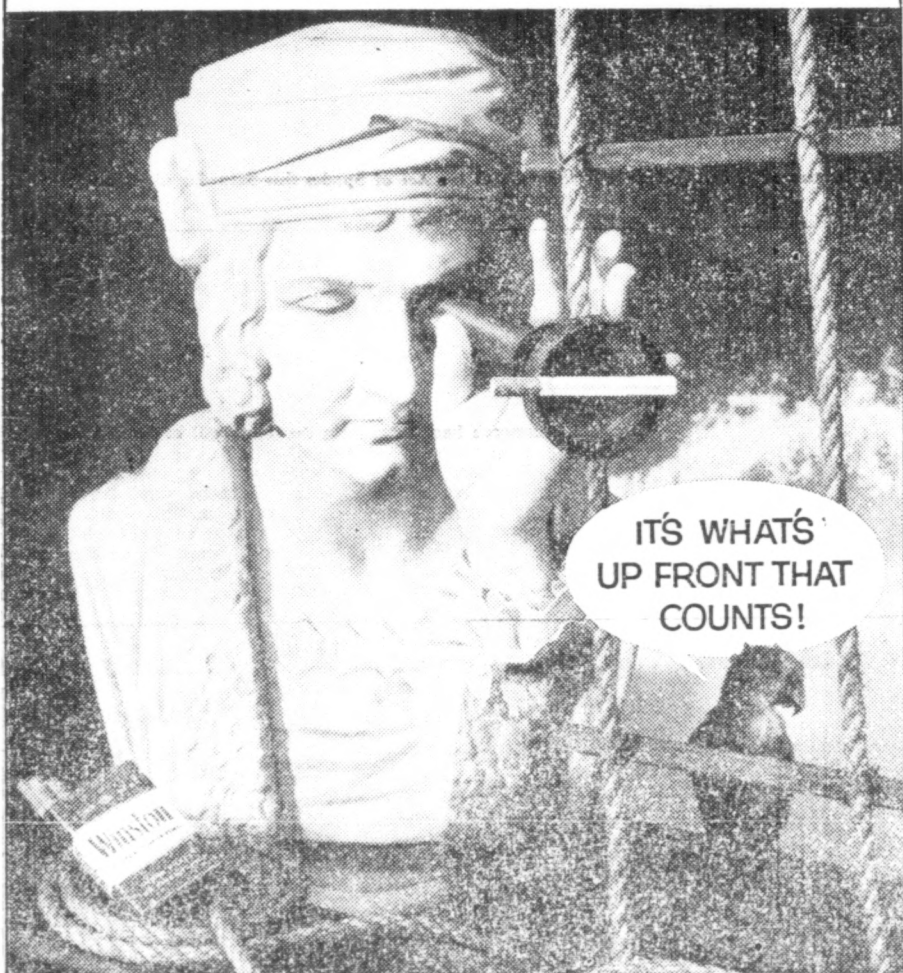

Two years ago a lack of eating facilities for male students caused them to dine with the girls in Stodder Hall. This arrangement soon became highly popular with those involved, although the construction of the Men's Commons ended this arrangement.

In their discussion, the conference leaders speculated numerous pros and cons concerning the mixed plan. The success of integrated men-women

dormitory systems at other colleges, the increase of "a more wholesome collegiate living condition," the popularity of past experiments at this college such as the eating together, were arguments favoring the proposition. On the opposite end, those opposed ranged over the breaking of tradition, the inevitable problems that might arise, and parental objections.

Student reaction on campus to the proposal is extremely varied. Statements by some were "how close together?" or "I don't care, for I live in a fraternity."

Columbus discovers the Winston Hemisphere

"Flavor, Ho!" The Admiral Shouted As He Sighted **FILTER-BLEND**

From the Captain's Log...

One Day Out. Weighed anchor and set sail in search of a filter cigarette that really tastes like a cigarette. Crew thinks this is wild goose chase.

One Week Out. Have sighted many filter cigarettes and smoked same. Crew still thinks the world is flat.

One Month Out. Discovered New World of smoking pleasure:

Winston! It is the only cigarette with a modern filter *plus* Filter-Blend—rich, golden tobaccos not only *specialy selected*, but also *specialy processed* for filter smoking. Crew now thinks this is a pleasure cruise.

One Year Out. Crew has mutinied. Refuses to go back to the Old World (non-Winston Hemisphere). I agree. Therefore I am founding a colony called Filter-Blend. Colony's motto will be:

Winston tastes good...like a cigarette should!

R. J. REYNOLDS TOBACCO CO., WINSTON-SALEM, N. C.

Ismene (Diane Ingalls) and Antigone (Judy Fowler) rehearse for Wednesday night's production.

Antigone To Open At Little Theatre Next Wednesday

The play *Antigone* is very controversial. Involved in it are two forces of equal strength—an irresistible force meeting an immovable object. These two strengths are personified in *Antigone* and *Creon*.

Antigone typifies the eternal martyr or heroic figure who defies all authority for the sake of moral law and divine justice. *Creon* is typical of the politician who places the well-being of state ahead of individual liberty and moral law. The argument by *Creon* is that it is sometimes necessary for individuals to be hurt if the whole of society is to progress. *Antigone* argues that if individuals in society are hurt and moral law is tampered with, something is wrong with the kind of progress which the state is making.

This play was originally produced in Paris in February, 1944, when Paris was occupied by the Nazis. *Antigone* was immediately heralded by the French resistance movement as a dynamic drama of the period. They immediately accepted *Antigone* as their spokesman, even though her argument seemed irrational and she seemed to accomplish nothing in her struggle. The occupation authorities, on the other hand, associated with *Creon*, as he argued that the ship of state must be kept afloat, even if it meant doing it at the expense of some individual liberties.

Women Hold Lunch To Kick Off Plans For The Future

Under the leadership of Madalene Gerrish, the Off Campus Women's club has undergone complete reorganization. A new constitution has revitalized the organization from its inactive past history. The OCW aims to develop incentive in its eighty-six members to play an active part in campus functions. Among its first efforts will be a float for the Maine Day parade and an OCW volleyball team.

Miss Gerrish is supported in her work by Lorene Hersey, Vice President; Joyce Lungren, Recording Secretary; Avis Elwell, Corresponding Secretary; and Barbara Bishop, Treasurer. Miss Alice Finnegan is advisor of the OCW.

Events Scheduled By Christian Group

Dr. Elmer Bentley, Executive Secretary of the United Baptist Convention of Maine, will be guest preacher at the M.C.A. Worship Services at 9:30 and 11:00 a.m. on Sunday, April 24, 1960, in the Little Theatre. Following the services, Dr. Bentley will be M.C.A.'s guest at a dinner meeting of Baptist students in the Commons at 12:30 p.m. Men and women in the dormitory system will be able to use their meal tickets. All others will be charged the cost of the meal. Those interested in attending this meeting should contact Mr. McGinnis at the M.C.A. House.

A Discussion Meeting will be held on Sunday evening at 6:30 at the M.C.A. House. There will be no supper this week.

The Choir will hold a rehearsal on Tuesday evening from 6:30 to 8:00 in the Lown Room of the Union. This is an important meeting and all those who wish to go on the trip to the Kent's Hill School should attend.

M.C.A.'s Vesper Service will be held on Wednesday evening in the Louis Oakes Room of the Library from 6:30 to 7:00 o'clock.

Three-month course leads to a commission as a Second Lieutenant. If you are graduating this June, you may be eligible for admission to the new Air Force Officer Training School. Successful completion of the three-month course wins you a commission, and a head-start on a bright, rewarding future in the Aerospace Age.

The School is open to men and women college graduates with certain technological and administrative skills. If you are selected for the School, you will receive Staff Sergeant pay while a trainee. Graduated officers may later apply for advanced training and graduate study at government expense. Male officers may also apply for flight training as pilots or navigators.

For the career-minded young officer, the Air Force way of life can be stimulating, exciting and full of meaning. He will be serving himself, his family and his nation. This is the Aerospace Age. It is a time when a career in Air Force blue has so much to offer the young man or woman who qualifies.

The Air Force is seeking only a select group of college graduates for admission into Officer Training School. However, we'd be happy to send detailed information to any senior who is interested. Just write: Officer Training School Information, Dept. SCL04, Box 7608, Washington 4, D.C.

There's a place for tomorrow's leaders on the Aerospace Team.

annually by the Tri-Delts to a worthy
University woman.

Last week the *American Association
of University Women* held an
introductory meeting for senior girls
and graduate students. The University
of Maine is on the approved list
of colleges eligible for membership
in the A.A.U.W. Dr. Ruth Towne,
a Maine graduate and a surgeon in
the Boston area, was the guest speak-
er. Dr. Towne spoke of the position
of women in different aspects of our
culture. Any senior girls and gradu-
ate students interested in A.A.U.W.
membership may obtain an introduc-
tory card from Dean Wilson's office
any time during Commencement
Week.

Pi Beta Phi sorority will celebrate
its ninety-fifth year as a national so-
rity with a Founder's Day banquet
Monday evening at the Penobscot
Country Club. A skit will be present-
ed by the newly initiated members
after the banquet.

It's Parent's Weekend for *Alpha
Chi Omega*. The weekend will in-
clude a luncheon, entertainment, and
an informal coffee.

Fish nets and palm trees turned

Work Conditions To Be Discussed At Meeting

A meeting will be held in the Me-
morial Union Tuesday at 10:00 to
discuss the ways and means to de-
velop closer relations between the
University and Maine employers.

The University and its Placement
Bureau are suggested to be the co-
ordinator for the business firms and
industries of Maine in hopes that a
long-range program will be of a great-
er service to them. They will also dis-
cuss ways of combating the widely
held opinion that job opportunities
are few, as statistics have proven that
graduates of the University have not
taken their first job in Maine.

The following people have accepted
an invitation to the meeting: Mr. John
Grant, President of the Merrill Trust
Co., Bangor; Mr. Almon Young, Cen-
tral Maine Power Co., Augusta; Mr.
Hollis Sawyer, Sampson's Super Mar-
ket, Skowhegan; Mr. Charles White-
house, Maine Department of Econ-
omic Development, Augusta; Mr.
Rudolph Marcoux, WLBY TV, Bangor;
Mr. John H. Milliken, Director,
Personnel Relations, S. D. Warren
Co., Cumberland Mills; Mr. Eugene
Babson, U. S. Gypsum Co., Lisbon
Falls; Mr. Richard Kendall, Director
of Personnel, Union Mutual Life Ins.
Co., Portland; Mr. Ronald M. Reed,
Employment Manager, Oxford Paper
Co., Rumford; and Mr. Ralph Cald-
well, Oxford Paper Co., Rumford.

Elections for AWS officers and
Judicial Board will be held
Wednesday, April 27. WAA of-
ficers will also be elected at this
time. Results of the elections
will be announced Thursday at
the annual AWS assembly.

Union Holds Special Events Next Week

The Tender Trap, a comedy starring
Frank Sinatra, Debbie Reynolds, and
David Wayne, will be shown at 7 and
9 p.m. in the Bangor Room of the
Memorial Union Friday evening. Be-
cause of the *Ace of Spades* there will
be no showing of the film on Saturday.

A special film, *The Trial*, which re-
lates the story of an infamous trial
of a group of Jews in a Hungarian
village, will be shown Sunday, April
24 at 3 p.m. in the Bangor Room. At
4 p.m. the same afternoon a student
concert featuring the University Sing-
ers will be held in the Main Lounge.

George K. Manlove will read the
works of John Ciardi at the Poetry
Hour Tuesday, April 26, at 4 p.m. in
the Women's Lounge.

On Wednesday, April 27, another
special film, *Man in Space*, will be on
view in the Bangor Room at 4 p.m.
This documentary film explains the
problems scientists expect space travel-
ers of the near future will face.

Duplicate bridge will be played in
the Bangor Room Thursday evening,
April 28, at 7 p.m.

Sign-up sheets for the Annual Uni-
versity Championship Tournament in
Pocket Billiards, Billiards, and Table
Tennis are now available in the game
room of the Memorial Union. The
tournament will start May 2. The
winners will have their names en-
graved on the permanent game-room
plaques, and each winner will be
awarded a cup.

12 Receive Forestry Awards At Supper

Twelve awards were presented to
outstanding students in the Forestry
Department at Xi Sigma Pi's annual
forestry and wildlife supper last
week.

David Clement and Gary Munkhoff,
editors of the yearbook, the 1960
Maine Forester, announced that the
publication this year has been dedi-
cated to Dr. Charles Dirks, Professor
of Entomology. The students paid
tribute to Professor Dirks for more
than 30 years of helpfulness in the
forestry department.

Awards were given to Ray Seestr,
Bruce Whittemore, Bruce Probert,
Donald Edwards, Richard Shumway,
Allan Gordon, Lawrence Safford,
Fred Rooney, Russell Fieldhouse,
Walter Burge, Paul Wares, John Bar-
clay, Roy Hitchcock, Ernest Gallant,
and Stanley Chenoweth.

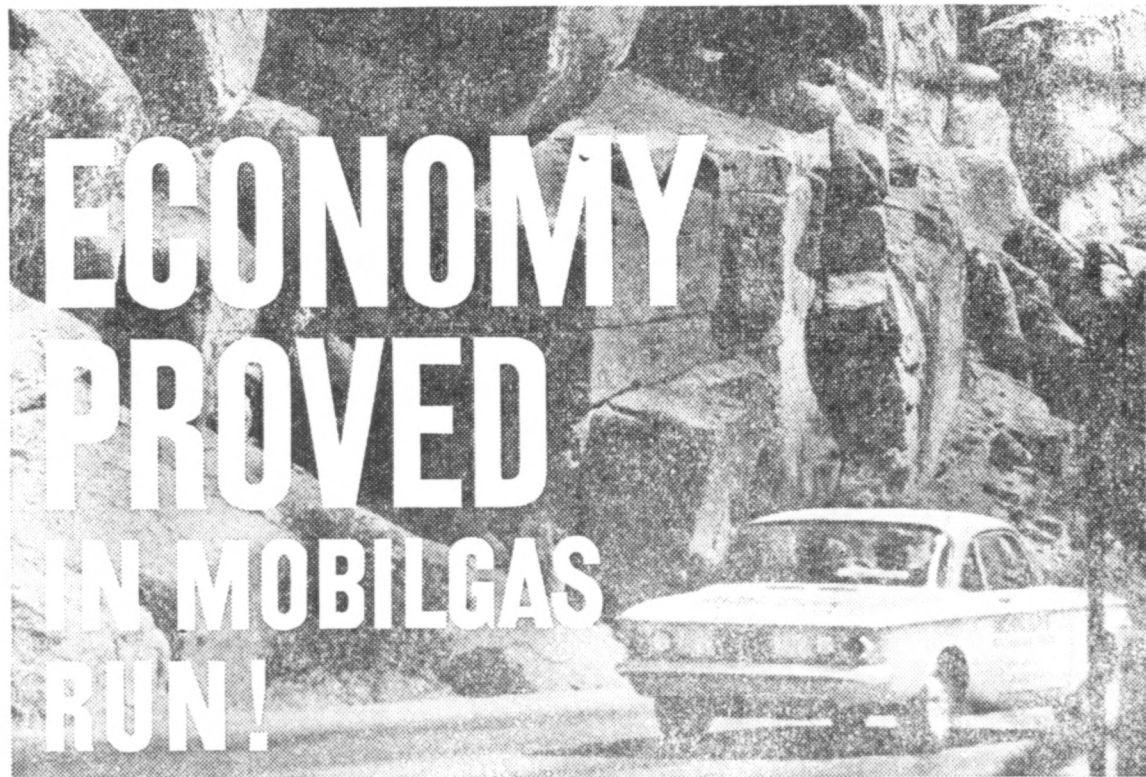

Billias Ends Tour With TV Program

George A. Billias, Maine author
and associate professor of American
history at the University, has dis-
covered that talking as well as writing
is required of anyone who publishes
a book.

Having recently written a biography,
*General John Glover and His Marble-
head Mariners*, Billias has been on
a speaking tour that has taken him to
Pelham, N. Y., New York City, and
Salem, Massachusetts.

CORVAIR
BY CHEVROLET
DRIVE IT!
GET
OUR
DEAL!!!!

A pair of Corvairs recently recorded 27.03 and 26.21 miles per gallon in the 2,061.4-mile Mobilgas Economy Run. That's certified proof that Corvair skimps on gas costs. It saves other ways, too. Corvair is the only U. S. compact car that never needs antifreeze or costly radiator repairs. Come in and drive the compact car that outdoes them all.

Things Corvair gives you that America's other compact cars can't:

Practically flat floor . . . real foot room for the man in the middle. **Fold-down rear seat** gives 17.6 cu. ft. of extra storage space. **Four-wheel independent suspension** for a smoother, flatter ride. **Rear-engine traction . . .** that comes with the engine's weight bearing down on the rear wheels.

You probably realize already that the mile-
age figures Corvairs recorded in the Mobil-

gas Run are higher than the average driver can expect. But because the cars met every kind of driving condition—rugged mountain grades, long country straightaways, congested city traffic—those mileage figures prove Corvair's inherent ability to save. Operating costs take a nose dive the day you take delivery of a Corvair.

TV To Feature Faculty Quartet

The University of Maine Faculty Quartet will appear on the television program, "The University of Maine and You," this Sunday from 12-12:30 over WABI-TV. They will sing *Dry Bones*, *Stout Hearted Men*, *Sweet and Low*, *Copenhagen*, *My Lord What a Morning*, and *The Lord's Prayer*. Accompanist will be Mrs. Paul Carpenter.

The program will also include a preview look at the role the University will play in the Annual Boy Scout Camporama to be held this summer in Maine. Mr. Fred Palmer of Boy Scout Troop 7 of Bangor will appear with a Boy Scout. Professor Brooks Hamilton, Head of the Journalism Department, and Mr. Steve Dewick and Bill Burton, Social Chairman, Ken Luce.

Phi Kappa Sigma Elects Bob Sterritt President

Robert Sterritt was elected President of Phi Kappa Sigma last Monday night. Others elected were Vice President, Ian MacKinnon; Scholastic Chairman, Al Albers; Recording Secretary, Doug Allen; Corresponding Secretary, Larry Libby; Treasurer, Lance Johnson; Pledge Trainer, Ted Stevens; Sergeants-at-Arms, Mr. Steve Dewick and Bill Burton; Social Chairman, Ken Luce.

Any presidential candidates running for office during the upcoming elections on May 2 and 3, may make a three minute statement to be played over WORO on Wednesday, April 27, at 8 p.m. Recordings will be made next Monday and Tuesday. No more than three minutes will be allowed each candidate. Those interested should contact Bill Lawlor, WORO Station Manager.

The R. G. Balfour representative will spend two days on campus taking orders for class rings. He will be here next Wednesday and Thursday, April 26 and 27. This is the last time orders will be taken this year. A \$5.00 deposit is required at this time, or full price may be paid. Orders will be taken in the lobby of the Memorial Union.

Nurses Organize New Campus Club

The student nurses have recently formed an organization, the University of Maine Student Nursing Association, other wise known as UMANS, open to all students enrolled in the nursing program. UMANS is currently waiting for approval by the Student Senate before it can become an official organization on the campus. The main purpose of UMANS is to stimulate interest in nursing and to better acquaint the nursing students with their chosen profession. April 19th, UMANS entertained a group of twenty-five high school girls interested in nursing as a career.

The University of Maine is the first college in Maine to have an organization like UMANS. Members were happy to learn that last week UMANS was accepted by the Maine State Student Nursing Association.

Madalene Gerrish will head UMANS next year as President. Supporting her will be Judith Gray, First Vice President; Carolyn Sherburne, Recording Secretary; Mary Fox, Corresponding Secretary; and Jane Jalbert, Treasurer. Jean M. MacLean, Dean of Nursing, is the advisor.

Radio Program Planned For Troops

A 30-minute musical program from the University of Maine will be broadcast to United Armed Forces overseas. Three members of an advanced course in broadcast production have been working for more than a month on the production.

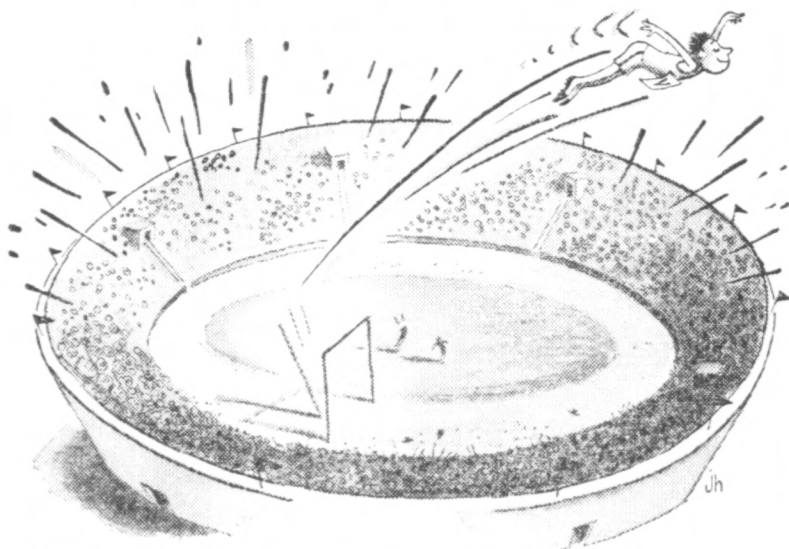

The three students who have worked on the program are Michael Dolley, James Kaplan, and Ronald Hoar, who is station manager of the campus radio station WORO. Robert MacLaughlin of the speech department has supervised their work.

Among the performers are the Faculty Quartet, The Steiners, the University Band, and faculty member Edward Ives, folk singer.

This program, the only one of its kind originating in Maine, will be beamed to U. S. forces all over the globe by Armed Forces Radio.

Do You Think for Yourself?

(DIG THIS QUIZ AND SEE WHERE YOU RATE*)

The statement "It's the exception that proves the rule" is (A) a lame excuse for dumb rules; (B) an argument for doing what you please; (C) evidence of a healthy disrespect for absolutes.

A ☐ B ☐ C ☐

You've just met a girl whose beauty impresses you enormously. Do you (A) ask for a date at once? (B) say, "Aren't you lucky you found me?" (C) find out what she likes to do?

A ☐ B ☐ C ☐

A rich uncle offers to give you his big, expensive vintage-typelimsine. Do you (A) say, "How about a sports car, Unk?" (B) decline the offer, knowing the big old boat would keep you broke maintaining it? (C) take the car and rent it for big occasions?

A ☐ B ☐ C ☐

A manufacturer asks you to pick the kind of filter cigarette he should make to win the most smokers. Would you recommend (A) a cigarette whose weak taste makes smokers think it has a strong filter? (B) a cigarette with a strong taste and a filter put on just for effect? (C) a cigarette with a filter so good it allows use of richer tobaccos?

A ☐ B ☐ C ☐

Smokers who think for themselves depend on their own judgment—not fad or opinion.

Juniors Book Green And Hackett For Greatest, Biggest Prom Ever

In case you are wondering who the harried-looking group is that is steaming its way around campus, it's the members of the Junior Class getting ready for the Junior Prom, a semi-formal dance to be held the evening of April 29, from 9:00 p.m. to 1:00 a.m. in the Memorial Gym. To quote one of the members of the committee, "it promises to be the swingiest affair of the year." Where can you get tickets for the evening? That's easy. If you are a Junior class member you may pick up your free ticket from 1:00-4:00 p.m. on April 27, 28, 29, upstairs in the Memorial Union. I.D. cards are necessary. All others may purchase tickets at the same place for \$2.50 per couple.

Making the music for the evening's enjoyment are two greats in the world of music. Supplying the smoother notes for dancing will be Urbie Green and his orchestra, while a change of mood will be provided by Bobby Hackett and his Jazz Band at intermission time.

Urbie Green, who has been labeled "America's great new trombone stylist", has become a favorite with critics and public alike. His professional ties have included such greats as Frankie Carle; Gene Krupa, for whom he did jazz solos; Woody Herman; and lead trombone for the Benny Goodman band. When the movie biography of Goodman was filmed it was Urbie you saw playing all the trombone solos. His talents have not been limited to the bandstand alone, but he has also been successful in radio, TV, and recording. In this latter field alone he has become top man, which led RCA Victor to sign him for a series of Albums, the first of which is the rave of the music world, entitled "Let's Face the Music and Dance."

Bobby Hackett, our intermission stylist, is one of the favorites of name band musicians. They come to catch Bobby when their own jobs are through. His originality has given his audience not only a beautiful sound but a new one. Bobby started his career back in the '30's during America's greatest jazz era. Like all hopefuls he migrated to New York to try to further his musical reputation. He was signed by Benny Goodman and

URBIE GREEN

played with him at Carnegie Hall's first Jazz Concert. From there he started to branch out on his own. He created a legend in the world of jazz when he was featured at the opening of NICK'S in the Village.

He later toured for five years with such bands as Horace Heidt, Glen Gay, and the great Glen Miller. He then joined the staff of the American Broadcasting Company, but the desire to form his own jazz band took him on the road again. In 1953, his career began to blossom with his recordings with the Jackie Gleason orchestra. His own recordings of "Soft Lights", "In a Mellow Mood", "Coast Concert", and "Rendezvous" are all on the Capitol label.

Union Contest Blanks Available

Entry blanks for the Second Annual Student Photography Contest are now available in the lobby of the Memorial Union. The contest is open to all University students. All prints will be considered for the following categories: Human Interest, Scenic Feature, and News-Sports. All entries should be submitted to Paul Daigle, Jr. or Mrs. Dunton at the Activities Room in the Memorial Union by April 27.

Judges for the contest are Brooks W. Hamilton, Department of Journalism, University of Maine; Carroll Hall, Photographer, Bangor Daily News; and Vincent A. Hartgen, Department of Art, University of Maine. They will select a best and an honorable mention in each category and one best of the show. The best of the show will receive a \$10 prize, and the best in each category will receive a \$5 prize. All entries will be exhibited in the Memorial Union Lobby May 1-May 14; color slides will be exhibited by a 16 x 22 viewer.

SUMMER JOB

Mother's Helper

Care of three young children, June to September. Own room. Pleasant grounds, in Bangor. Driver's license, average swimming ability essential. References required, and exchanged.

This is a pleasant family with varied summer activities, requiring a helper who is capable with children and prepared to make herself generally useful. \$20 weekly; six-day week. Opportunity for a qualified young woman from the Bangor area to combine a paying job with most evenings and day off free for friends and family.

For interview, phone: Mrs. R. Hellendale, Bangor 6980.

Special Dinner For Seniors

The Class of 1960 will be honored by the General Alumni Association Thursday, April 28, at a special dinner held at the Commons at 6:30.

Each year the seniors are entertained at a function sponsored by the Alumni Association for the purpose of acquainting them with the organization. T. Russell Woolley, Executive Director, will speak to the class concerning the Association. "The opportunity for all of you to meet on such an occasion seems most appropriate, as you are soon to join the other 30,000 men and women of Maine in the Alumni body," Woolley said.

Bud Ochmanski, president of the senior class, will be toastmaster. In a letter urging class members to attend the banquet, Ochmanski said, "I am sure that each class member is aware of the tremendous work the Alumni Association does for the University of Maine. Buildings such as the Memorial Union, Library, and Memorial Gymnasium exemplify the accomplishments of the Association for the betterment of the University."

Following the program, a brief class meeting will be held for the purpose of nominating class members for class parts.

Tickets are free to members of the senior class and may be picked up at the Alumni Office in the Library until Tuesday noon, April 26.

CLASS OF 1960 DINNER — Ira W. Stockwell Jr., Senior Class Treasurer; T. Russell Woolley Jr., Executive Director of the General Alumni Association; Charles Ochmanski, Senior Class President; and Betty Colley, Senior Class Secretary, make plans for the banquet to be held next Thursday evening.

Tau Beta Pi Initiates Ten Into Society

Tau Beta Pi, honorary engineering society, initiated ten students and one alumnus on Wednesday, April 13th.

The alumnus named to honorary membership in the society was Herbert H. Leonard of South Shaftsbury, Vermont. A graduate in mechanical engineering at Maine in 1901, Leonard has served as a designer for several industrial firms between 1901 and 1908; Work Manager for Turner and Seymour Manufacturing Company in Connecticut; assistant Manager of the Stamford Rolling Mills; president of the Consolidated Packing Machine Corporation in Buffalo, New York; President of the American Machine and Foundry Company, New York.

Leonard was the principal speaker for the banquet.

The students initiated into the society were James Wiley, Blaine Grindle, Gerald Palmer, Howard Quist, George Hanington, William Lucey, Peter Haynes, Ralph Gross Jr., John Sears, Jr., and Paul Trafton.

Editorials

That Fever's Back!

A word to the wise is not always welcome, but it is sometimes necessary. The word for this week is "springtime". After the long winter months we heartily welcome the new season, but we must beware of the "fever" it brings with it. The symptoms of this fever are readily noticeable: gazing out the classroom window, cutting classes, frequent daydreaming, temporary loss of memory during exams, and a general lack of ambition. In fact, the only human activity improved by an attack of spring fever is "opposite-sex-watching".

Now, here comes the unwelcome word to the wise: "Watch out, FINALS are just around the corner."

Unfortunately, this springtime virus strikes at a time when we need every ounce of energy and drive to get us over the last round of prelims and into final exams. Medical science has yet to come up with a vaccine to prevent or a serum to cure this dread disease.

If you catch it, only you can get rid of it. You can cure it yourself, but the medicine is pretty distasteful. First, be aware that this is the "lazy" season of the year. Then compensate for it by what might seem a little additional study—a little added effort. Forsake that urge to cut; force yourself to pay attention in class. Before you know it, finals will be over and so will the school year—perhaps all too soon.

LITTLE MAN ON CAMPUS

"ROOF LEAKS, COLD IN WINTER, NEEDS PAINT, AND IT'S MY MOST EXPENSIVE ROOM BECAUSE OF THE VIEW—THAT'S A GIRL'S DORM NEXT DOOR."

From 317

Spring Has Sprung, Grass Has Riz

By Judith Ohr

"Spring—when a young man's fancy turns to thought of grass." R. T. Murphy

Hi ho, it's that time of year again. Prof, you might as well forget about giving a serious lecture Friday afternoon. And, you there in the cafeteria kitchen, better watch the peanut butter and jelly for it's on its way to the sun deck. And look at that art class drawing pictures by the cannons. That's an interesting spot on campus . . . lots of grass. Ah, we're back to grass.

Now grass is fun. It's fun to sit on grass and jump on grass and roll around on grass and, well, all kinds of things. This, of course, is when you're seven and eight, not twenty or twenty-one. But when springtime comes to campus, we sometimes forget that we're grown up now. So, with Flora Favorite-Date in hand, we're off to the nearest lawn. We sit down on the grass. Before long we're semi-sitting, and before much long-

er we're reclining-sitting and well, since I can no longer speak from experience, I must go on what people have told me. I don't want you to think I don't know about grassing because I'm a prude. It's not that at all. It's mother. Mother's told me all kind of horrid things about men, and I think she's right, so let's get back to the lawn.

Now take last year, for example. I was walking home between Carnegie towards Stodder. Smash. I almost tripped over two bodies. I excused myself humbly and continued home. What a place to sleep, I thought. Poor dears, their dorm beds must be awfully uncomfortable. It seemed terribly tragic that this young couple had to pick such a marshy spot to be together. But, then again, we have no organized place to be together on this campus. Dorm steps are by far too illuminated to do justice to a passionate embrace. And lounges? Bless you my child, you must have missed

House History

"Great White Castle" Built In 1915-16

On January 1, 1869, three cadets at the Virginia Military Institute in Lexington founded the Legion of Honor, later to become known as Sigma Nu. Upon the oaths of James Frank Hopkins, Greenfield Quarles, and James Riley, the tradition of virtue and honor was established at Sigma Nu and remains to this day.

Sigma Nu was one of the many fraternities to be founded after the Civil War, when the fraternal system was in a process of re-establishment.

In 1883, THE DELTA, the Fraternity's quarterly journal, was first published by John Alexander Howard.

Sigma Nu continued to grow rapidly, and Indianapolis was chosen as the site of the General Offices in 1915. Through the years, however, sentiment grew in favor of maintaining headquarters at Lexington, a dream which became a reality in 1957 when Sigma Nu went "home".

Maine's Sigma Nu chapter was originally founded in a room in Oak Hall in 1903 by Arthur E. Davenport and was known as Theta Upsilon. The chapter was first located at Old Town and later moved to what is now the infirmary. 1913 saw Theta Upsilon become a member of the Sigma Nu national under the name of Delta Nu, and in 1915-16 the "Great White Castle" was built.

Throughout the years Delta Nu has been well represented in campus activities. "Moe" Littlefield, former house president, recently retired as head of the Interfraternity Council. The chapter has also made excellent showings in intramural football and softball and has had many representatives on the school's varsity athletic teams.

The faculty is also well represented with Sigma Nu's. In the past few months the house has seen many changes. The first floor has been redone and a new front porch has been built. Several weeks ago Mrs. Dorothy Ellis became the first house mother in the history of Delta Nu.

As a fraternity, Sigma Nu has always fostered the spirit of friendship, which is the heart of the Greek letter fraternity system. The first objective in Sigma Nu is "to bind together all our members by ties of time and lasting friendship." Sigma Nu places emphasis on attaining the goals of worthy ideas and lofty principals. Sigma Nu provides training in scholarship, leadership, social orientation, and cultural stimulation, preparing the individual for graduation. By adjusting himself to group will, the individual reaches greater word stature and is taught "to govern each act by a high sense of honor." Sigma Nu is a college within a college, in which each member works with his fellow brothers to attain the highest character.

house meeting. The University forest? Not with all the policemen they have up there, checking to see if Flora Favorite-Date is eighteen.

Here we are in our most formative years and we haven't even a decent place to shape up!

Ramblings

Linus Should Keep His Old Blanket

By Foe Meader

Every once in a while, when I have time on my hands, I like to go into the library and grumble around in the card files. It is amazing the books that can be had for reading. The other day I found one on 101 things to make out of paper and another on the birds of Matto Grosso, Brazil. I finally took out a book on Yoga and have been busy contemplating my navel. (I have decided that it needs cleaning.) I was informed last weekend that the navel is where you hold the salt when you eat celery in bed but I have not yet fully looked into the matter.

One night when I was watching Captain Kangaroo on T.V. I got to thinking about fairy tales and Mother Goose rhymes and came to the conclusion that therein lies the cause of juvenile delinquency. Let me explain myself with the use of a few examples.

1. The Big Bad Wolf, in the

original version of the Three Little Pigs, eats the first two pigs and is killed by the third. (A horrible death as I remember. Boiled in water wasn't it?)

2. Goosey Goosey Gander kicks someone downstairs. (I forget just who.)

3. The Queen in Snow White tries three times to commit murder.

4. In the story of Great Claus and Little Claus by H. C. Anderson, Great Claus kills his grandmother and is finally drowned by Little Claus.

This is the type stuff we start pumping into little kids from the age of two or three on. I was sorry last week to see Linus use his library card. I was hoping he would stick with the old security blanket.

Speaking of children, there is an interesting sign at each entrance to the South Apartments. It says, "Children Drive Slow". I guess this means that adults can drive as fast as they want to.

Scintilla Two

Marriage, A Dying Institution

By Lee Morton

"Hey! I'm going to get married," said Gaza as he burst into my room.

"You idiot," said Jimbo. "Do you want to cash in with those struggling young shut-ins? Marriage is two things: loss of freedom and a day-by-day deadening of all your previous excitements — heh." A gleeful grin, then serious. "Sex becomes old, you become old, love be—"

"You know Ann?" Gaza asked. "Well, this is the chick for me. She gave me the good word Saturday night."

"Look, naked penguin, unpuff your chest and listen to Jimbo, will ya?" On the fingers. "First of all, marriage is a dying institution. Couple this with the South Apartments and a budget squeezing, and you've got a Walter Mitty, man. Happy-happy problems, co-partners, home-makers — is this what you want?"

"Bo, what are you going to do? I love Ann. She loves me. She needs security. The only acceptable thing to do is marry her. There is no other way but marriage."

I got up and went to the window to get three quinine waters, Schweppes, of course. I opened them up and passed them around; Jimbo started talking again.

"Gaza, how you gonna fight it? Even on your honeymoon, hotel owners and tourists will be giving you the old knowing eye. You know, the way waiters give young couples the fawning 'nicey' treatment by hanging around smiling, winking. Same as your uncles at your reception smirking; all is now happy. You have to put the microscope to your problems now. You lose your scope. Scope, man, dig? And so you set up home in the suburbs, and the salesmen and TV commercials all got your number. It's

YOU're talking to now — You have the washing machine, the diapers, the living room rug, the menus, the pink toilet paper, you, man. Your resistance is bound to wear down. You want in on the treadmill that slowly wears you away thinner and thinner, not the flesh but the spirit? The nights that made it seem so great get fewer and farther apart. Everything slips into a slow, imperceptible, downhill slide, a death by inches the day you get married. Man, I hate to watch a sinking ship."

I butted in. "I'm not necessarily with Jimbo, but did you ever notice the sort of acquaintances married couples have? The men are half-heartedly intimate, all the time keeping their inside life with their wife and her alone. And the women exchange their little secrets that slowly cut in and separate them from their husbands, making it harder and harder for a husband to do anything with his wife without anticipating the reaction from his friend the next day. Well, you know, something like that."

"This is a once in a lifetime offer," said Gaza with his TV tonsils. He looked from me to Jimbo back to me, sort of empty like a box of Cracker Jacks with no surprise in it and all the popcorn candy eaten. "Dammit, let's go get bombsville."

Of interest: On that long night leading into Maine Day, May 4, Rick Lloyd and I have got the go-sign on a midnight to three a.m. session of jazz over WORO. We hope to have a little bit of everybody from Jelly-roll to Ornette Coleman. Jimbo may show up, too.

A note from Jimbo: Foe, I am that flannel-shirt guy at the front table of the Anchorage and how did you know I drink vodka, watered, with whiskey chasers?

Student Cheers Work Of Paper

To the Editor:

Several bouquets are in order, in my opinion, for some of the well-written articles in your April fourteenth issue.

Congratulations first of all to Judith Ohr for hitting the nail on the head when it comes to coeds giving a man a chance to be polite. There's an old saying that goes something like this — "a lady is a woman who allows a man to be a gentleman".

I was especially glad to see your "campus quiz". This in my opinion is just what is needed to call the attention of those not interested in world affairs to the fact that they are missing a most vital facet of education. I would venture to say that most of the girls and many boys, if they even gave the quiz more than a second glance scored no higher than four or five and calling this "average" is being pretty indulgent.

I also thought Foe Meader's point about coed and intellectual discussions having to be stimulated with alcohol was very well taken.

In regards to an increase in religious activity on campus I feel that before this can become possible there must first be a change in approach of some of the religious leaders here on campus. I for one am tired of worn-out generalities and high-sounding religious phrases which mean little or nothing when applied to campus life. Perhaps a closer connection between the teachings of Christ and the problems of campus life and the world in general would

serve to stimulate more interest in religion. Perhaps I am being unfair but I feel that if sermons were more closely related to the students and sermons built around this theme I would be much more interested in hearing them than I am at this time.

A Student

Junior Class
To Meet Tuesday

There will be a Junior Class meeting, Tuesday evening, April 26, 1960 at 7 p.m. in the Bumps Room of the Memorial Union. It is strongly urged that all class members attend this meeting

to meet the candidates for next year's Senior Class officers. Highlights of the Junior Prom will be presented, and class members may pick up their tickets for the Prom which will be held the following Friday evening, April 29th.

COLLEGE: THE FOE OF EDUCATION

In your quest for a college degree, are you becoming a narrow specialist, or are you being educated in the broad, classical sense of the word? This question is being asked today by many serious people—including my barber, my podiatrist, and my little dog Spot—and it would be well to seek an answer.

Let us examine our souls. Are we becoming experts only in the confined area of our majors, or does our knowledge range far and wide? Do we, for example, know who fought in the battle of Salamis, or Kant's epistemology, or Planck's constant, or the voyage of the *Beagle*, or Palestrina's cantatas, or what Wordsworth was doing ten miles above Tintern Abbey?

If we do not, we are turning, alas, into specialists. What, then, can we do to escape this strait jacket, to broaden our vistas, lengthen our horizons, to become, in short, educated?

Well sir, the first thing we must do is throw away our curricula. Tomorrow, instead of going to the same old classes, let us try something new. Let us think of college, not as a rigid discipline, but as a kind of vast smorgasbord, with all kinds of tempting intellectual tidbits to sample and savor. Let us dive in. Let our pent-up appetites roam and snatch where they will.

Let us examine our souls.

We will start the day with a stimulating seminar in Hittite artifacts. Then we will go over to marine biology and spend a happy hour with the mollusks. Then we will open our pores by drilling with the ROTC for a spell. Then we'll go over to journalism and scramble a font of Bodoni. Then we'll go to the medical school and palpate a few spleens. Then we'll go to home economics and have lunch.

And between classes we'll smoke Marlboro Cigarettes. This, let me emphasize, is not an added filip to the broadening of our education; it is an *essential*. To learn to live richly and well is an important part of education, and Marlboros are an important part of living richly and well. Do you think flavor went out when filters came in? Well, ha-ha, the joke is on you. Marlboro, with its Selectate filter, delivers flavor in full measure, flavor without stint or compromise, flavor that wrinkled care derides, flavor holding both its sides. This triumph of the tobaccoist's art comes to you in soft pack or flip-top box and can be lighted with match, lighter, candle, Welsbach mantle, or by rubbing two small Indians together.

When we have embarked on this new regimen—or, more accurately, *lack* of regimen—we will soon be studded with culture like a ham with cloves. When strangers accost us on the street and say, "What was Wordsworth doing ten miles above Tintern Abbey?" we will no longer slink away in silent abashment. We will reply loud and clear:

"As any truly educated person knows, Wordsworth, Shelley, and Keats used to go the Widdicombe Fair every year for the poetry-writing contests and three-legged races, both of which they enjoyed wildly. Well sir, imagine their chagrin when they arrived at the Fair in 1776 and learned that Oliver Cromwell, jittery because Guy Fawkes had just invented the spinning jenny, had canceled all public gatherings, including the Widdicombe Fair and Liverpool. Shelley was so upset that he drowned himself in the Bay of Naples, Keats went to London and became Samuel Johnson, and Wordsworth ran blindly into the forest until he collapsed in a heap ten miles above Tintern Abbey. There he lay for several years, sobbing and kicking his little fat legs. At length, peace returned to him. He composed himself and, noticing for the first time the beauty of the forest around him, he wrote Joyce Kilmer's immortal *Trees* . . . And that, smartypants, is what Wordsworth was doing ten miles above Tintern Abbey."

© 1960 Max Shulman

Poets and peasants alike know that if you like mildness but you don't like filters, you can't do better than Marlboro's companion cigarette—Philip Morris.

Vas Ist Das Campus Mayor

The Campus Mayor is the elected soul of the Maine Spirit. It is his pleasure to incite and maintain said spirit from Maine Day to Day. He is present during freshman week, at which time he aids in the orientation and confusion of the new student-citizens. Each year, on the steps of the library, the mythical mantle of mayoral duties is bestowed.

"Maverick" Berry and his flashy steed before the stands at the '59 Maine-Connecticut game.

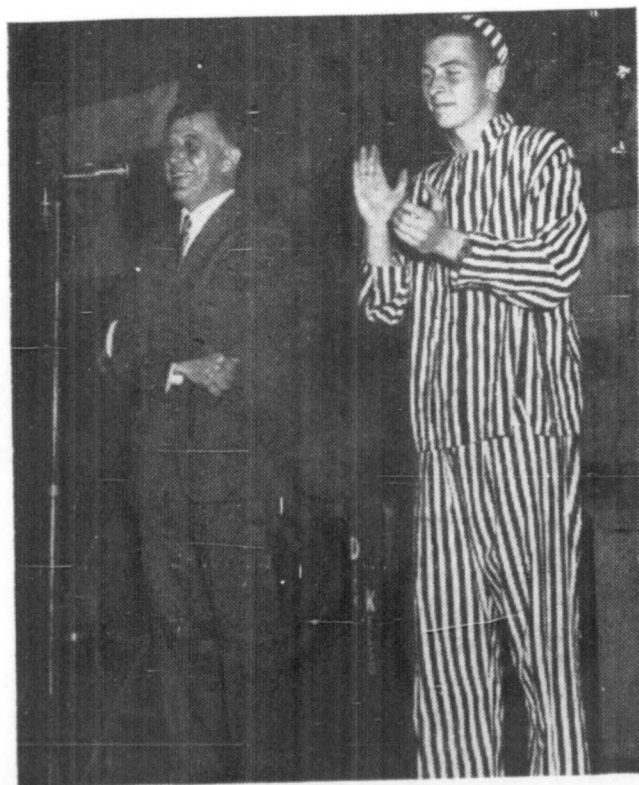

Here "Humphrey Pennyworth" Parks holds forth, and to steal a line from Edward R. Morrow, I can hear it now . . . "and if elected, I give my most solemn promise . . . etc."

Feature Editor: Reb Mire

Kelly "Boone" Elliot, Mayor of '54, receives the keys to office.

The year is '56, and "Ron the Con" keeps time as Dr. Hauck leads an assembly in the Stein Song.

Planning for the Good Will Chest Drive are these committee members: (left to right) Philip Brockway, Placement Director; Betty Colley, Barry Millett, Assistant to the Dean of Men; Chairman Marvin Hirshfield, Peter Berry, and Ron Drogin. Absent are Margaret Thomson and Winston Crandall.

Concert Held April 22

The final concert of the University of Maine Concert Series will be presented tonight in the Memorial Gymnasium. The University Band, Chorus, and Orchestra, directed by Francis Shaw, William Sleeper, and Robert Groth, respectively, will perform.

New members of Mu Alpha Epsilon, honorary music society, will be announced. The Mu Alpha Epsilon Award to the senior who has contributed the most to music during his four years at college will be announced, as will the winners of Mu Alpha Epsilon scholarships in applied music.

The concert will begin at 8:15. Tickets will be available at the door for those wishing to attend who do not hold series tickets.

DONALD TUPPER

Representative of

L. G. BALFOUR CO.

What's ahead for you... after you join Western Electric?

Anywhere you look—in engineering and other professional areas—the answer to that question is progress. For Western Electric is on a job of ever-increasing complexity, both as the manufacturing and supply unit of the Bell System and as a part of many defense communications and missile projects.

These two assignments mean you'll find yourself in the thick of things in such fast-breaking fields as microwave radio relay, electronic switching, miniaturization and automation. You may engineer installations, plan distribution of equipment and supplies. Western also has need for field engineers, whose world-wide assignments call for working with equipment we make for the Government. The opportunities are many—and they're waiting!

You'll find that Western Electric is career-minded...and you-minded! Progress is as rapid as your own individual skills permit. We esti-

mate that 8,000 supervisory jobs will open in the next ten years—the majority to be filled by engineers. There will be corresponding opportunities for career building within research and engineering. Western Electric maintains its own full-time, all-expenses-paid engineering training program. And our tuition refund plan also helps you move ahead in your chosen field.

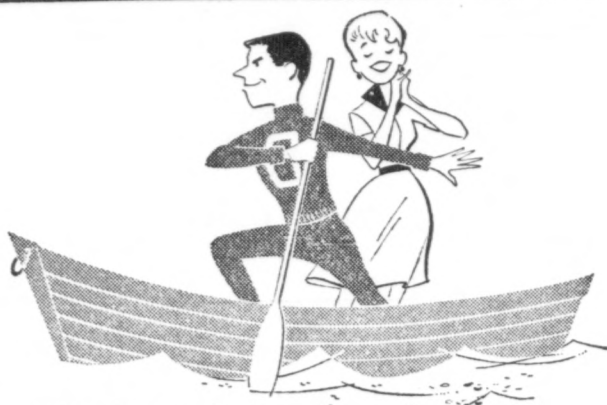

Opportunities exist for electrical, mechanical, industrial, civil and chemical engineers, as well as in the physical sciences. For more information get your copy of Consider a Career at Western Electric from your Placement Officer. Or write College Relations, Room 2C0E, Western Electric Company, 195 Broadway, New York 7, N. Y. Be sure to arrange for a Western Electric interview when the Bell System team visits your campus.

Skin protection, that is. Old Spice refreshes and stimulates, guards against the loss of vital skin moisture. Feels great, too. Brisk, bracing, with that tangy Old Spice scent. It does seem to attract female admirers, but what red-blooded man needs protection against girls? **1.00 plus tax**

SHULTON

Bears To Encounter Massachusetts Club

By Earl Smith
Assistant Sports Editor

After splitting a two game series at Rhode Island last week, the baseball team will be moving back into action this weekend with a pair of crucial Yankee Conference games against Massachusetts.

The Bear diamond crew polished off the Rams 8-3 on Friday behind the clutch hitting of sophomore Bill Livesley and brilliant defensive play, but their bats weakened on Saturday as Rhody chucker Rollie Bettez handcuffed the visitors 4-2 on four well spaced singles.

"I thought we played good baseball on the entire trip," voiced coach Jack Butterfield, "with the exception of the first inning of the second game."

"It was then that our usually good defense broke down and we gave up two unearned runs that proved costly," the Big Blue mentor stated.

Butterfield was pleased with the solid defense of his club, and remarked that dazzling plays by Woody Dumphrey, Tom Valiton, Ed Ranzoni and Livesley saved several costly base hits.

The amiable coach noted that last season's top hitter, Ray Weed, appeared to be moving out of a pre-season slump and was back in top form.

Weed paced the 1959 version of the team with a .395 average, the best season's mark since 1946.

Coach Butterfield singled out Valiton as the star of the two-game series and commended him for his over-all play in the field as well as at the plate.

Jon Whitten, junior righthand

chucker, was also praised for his brilliant relief stint in the second game. Whitten came on and hurled five and two-thirds innings, allowing only two hits.

Massachusetts, tabbed by Butterfield as the toughest in the Yankee Conference, will provide the opposition as the Maine team makes its first appearance on their home diamond this weekend.

The Redmen boast a trio of fine lefthanders as well as a host of power hitters.

The Bears prepped for the Massachusetts southpaws in a scrimmage with the freshmen, facing the frosh's best left-handed hurlers.

Butterfield, who feels that the winner of the Yankee Conference will have to tuck away eight games, has made only a single change in his line-up.

Senior letterman Deane Deshon will move up from the sixth place in the batting order to take his licks in the leadoff spot.

Either Dick Colwell, Jon Whitten, Pete Henderson, Haddon Libby or George Bartlett will get the call for a starting assignment in the two games.

On Tuesday the Bears will move into State Series action against Bates. The Bobcats have several new faces on their starting nine and a couple of veteran lefthanders to do the mound-work.

On The Island

By Fred Stubbart

Intramural volleyball has ended for another year with the champions now wearing their crowns.

Phi Eta won the fraternity league and the over-all campus championship plus adding a sizable amount of points to their drive for the All-Point Trophy.

Abbott To Assist Hal Westerman

Walter H. Abbott, former stand-out guard for the Black Bears during the '55, '56, '57 seasons, has recently been appointed Assistant Football Coach to Head Coach Hal "Westy" Westerman.

Abbott comes to the University of Maine with a reputation of being a

The Faculty team surprised everyone by winning the Non-fraternity league.

This week's outstanding intramural athlete is Bruce R. Poulton, a member of the faculty team and Head of the Department of Animal Science. Mr. Poulton was the spearhead of the faculty attack with his very consistent point scoring.

Attention is now focused on the upcoming softball and tennis leagues. The Fraternity division of the softball league will start on Monday, April 25, while the Non-fraternity division will start Tuesday, April 26. Schedules are now being distributed by the Physical Education office.

Round One of the Fraternity tennis league must be completed by Saturday, April 30, and round one of the Non-fraternity league must be done by May 5. These schedules are also in the mail and contestants should arrange their matches right away to avoid trouble.

The intramural softball league this year should be first class. There are numerous individuals with better than average baseball talent who are not participating for either the freshman or the varsity teams.

tough man when it comes to physical conditioning. He replaces former line coach Jim Butterfield who is now at Colgate.

Abbott who is married to the former Carol Stevenson, Maine '59, is on loan to us from Lawrence High School for the duration of Spring football practice. He and his wife will move here sometime during the summer to get ready for a rugged football campaign in the fall.

Boston College Challenges Maine

BEAR FACTS

from

A to Z

ART ZALKAN — Sports Editor

Since the Connecticut basketball game, there has been some question concerning the adequacy or inadequacy of our gymnasium for the use of basketball games and for other general uses.

There is probably little doubt in all our minds that this is a major problem to us. However, for the present, the problem of a new gym is too large to cope with since we are having a difficult time in receiving enough money from the State Legislature to improve our educational facilities.

There is a need in the gym, however, that does merit immediate attention. And though there is a cost that goes along with this need, I feel that the cost is not that great and that it is worth while.

The need that I speak of is that of having a decent scoreboard and clock for the Memorial Gymnasium.

Some of you may wonder if we really need this new device that badly. You may even feel that the money for such an item should be spent on some other project such as a scholarship or some sort of a loan. I can agree with you on this point. Money is a vital item to all of us, and we can always find a better use for it than a scoreboard. On this point I can not agree with you. I feel that if money is going to be spent on the University, it should be spent on a need that will benefit not only a select few, but the mass of the University.

Can any of you think of some need at the University that caters to better than 3000 students at any one time than a new scoreboard and a new clock? Not only will the team benefit from this, but so will the students, the faculty, and all visiting teams.

Presently, our reputation in the field of athletics is perhaps at its highest. But when it comes to facilities, we rank at the bottom. Do you feel that this is the place that our University should remain? Only You, yourself, can answer this question!!!

I am not crusading for a new gym, for that would be asking the impossible, although the day will come soon when we at the University will have to start thinking of this problem. But I do feel that we, the students, the faculty, and the alumni should try to meet the needs of the present gym. The varsity basketball team did much for us during the winter months. Can we show them a little appreciation?

Now is the time to act—not next year. . . .

Items of Interest

Former football captain John Theriault visited campus Tuesday. John is now coaching at Norway High School. His football team finished with a 7-2 record while capturing the Southwest Conference Class C title. The squad was rated fourth in the state.

Ted Curtis, Faculty Manager of Athletics, leaves tomorrow for Boston where he will be part of that committee that chooses the basketball officials for all college games. Get some good ones for us, Mr. Curtis. On Sunday he becomes an active member of the Eastern Intercollegiate Ski Committee which plans all skiing events for our part of the country.

Westy reports that he is very pleased with the progress and morale his new squad has shown in the first few days of practice. He was especially pleased with the new men who reported for the first time. "They will certainly help us with our depth."

Net Team To Meet UConn & R.I.

The University of Maine's varsity tennis team packed its traveling bags last night and then left this morning for the University of New Hampshire at Durham for a tennis match which began at 1:30 this afternoon.

Last season, the Big Blue tennis squad beat the Wildcats twice by identical scores of 7-2. At Durham, the Maine squad faced their strongest challenge as the Wildcats have three returning veterans including Yankee Conference champion Roger Magenau. Warren Wilder who teamed with Magenau for the Yankee Conference doubles title is back and is rated as the number two man on the Wildcat squad.

According to Coach Bill Olson, the Wildcat squad has a better team than last year and has an outside chance to grab the Yankee Conference title.

On Friday, the Black Bears hop down to Storrs, Connecticut, for a match with the Huskies. Connecticut did poorly last season, but with three

lettermen returning, they could give the Maine team a real battle.

Rhode Island will give the Black Bears the roughest time with four returning men from the 1959 squad. The Rams are an experienced team also having a number of sophomores who were unbeaten as freshmen. They finished second in the Yankee Conference race last season.

Coach Brian McCall stated that the nucleus of the squad will be composed of five sophomores and two seniors. The only returning letterman from last year's unit is Bob Sterritt.

Sophomores on the squad who left this morning are Walter Higgins, Don Idleman, Dave Miles, Dave O'Donnell, and Dick Racine. Rounding out the traveling squad is senior Ted Stevens.

A year ago, the Black Bears compiled a 5-5 record in dual matches. It was the first .500 season for a Maine tennis team in several seasons.

Gads, Girls, What's This?

By Vicki Waite

I don't believe it! It's spring not fall. I'll have to have a closer look. Cautiously approaching the gate, I passed through it scarcely noticed. Girls, there they were! One was on all fours with a dark oval-shaped object between his hands. Others were lined up behind him. It seemed to be a relay race of some kind.

As I got closer to these contestants I heard someone chanting numbers. This ended abruptly as this first fellow did a marvelous trick. Faster than lightning he sent this brown thing between his legs. Swoosh, right into the hands of the guy second in line. Now I don't think this second fellow knew what was going on. He just stood there with the object in his hand. All of a sudden this guy from in back somewhere came running out in front of everyone. A second later he was running toward the north end of the lawn with the object tucked under his arm. I wish I could explain to you how he got the ball, but I'm really not sure.

My eyes fell on another group of these boys. They seemed to be in awful pain. They were lying on the ground, waving their arms and legs, and jumping up and running around. I concluded they must be having stomach trouble.

These boys really throw themselves into it...literally! One group was centered around these long canvas bags which must be filled with sand or possibly rocks. One guy would stand behind a sandbag while another would charge into it. I guess the object was to knock over the bag and the guy behind it. The poor boys just kept on battering into these bags, but never knocked them over. It must have been awfully hard work because I even heard some of them grunting.

That afternoon I saw steps and formations we learned in modern dance (Pe-W 23) executed beautifully, "Bonnie Prudent approved" exercises and all kinds of other scrambling. Good luck, fellows! Come next fall I'll be looking for the "relay race" and all those other plays I learned about.

Freshman Track

Saturday will mark the debut of the 1960 version of Coach Ed Styrna's freshman track team. This spring's team promises to yield a number of fine varsity prospects to continue the tradition of outstanding Maine teams.

The meet with Boston College should produce several exciting individual duals, according to Coach Styrna.

Boston College will field two of New England's top freshman runners in the persons of Rinella and Rawson. Rinella poses a distinct problem for Maine's Pete McPhee in the quarter mile event, while Maine's Dick Roy and Tim Carter will try to stop the speedy Rawson whose best time this season has been 4:24 in the mile event.

The Bear Cubs are well fortified in all events with some of the outstanding members being Dave Parker in the 100 and 220 yard dashes, Stu Stromberg in the 220, Baron Hicken in the low and high hurdles, Bill Blood in the weights, and Dick Mason in the weights.

Other Maine frosh cindermen who will rate close attention will be Curt Acin, Rod McClure, and Nelson Bilodeau in the running events.

The Boston College Eagles, fresh from victories over Bowdoin College and Amherst College, invade the campus Saturday for a dual track meet with the University of Maine's Black Bears. Field events will start at 1 P.M., and running events will follow at 2 P.M.

The Eagles come to Orono with a squad loaded with talent. They are especially strong in the middle and long distance events. They also have a group of strong individual performers who will be looking to improve their performances of a week ago.

Samir Vincent, an import from Iraq, seems to be the man to watch on the Eagle squad. Vincent scored many points for his team in his last meet. He placed first in the high hurdles, low hurdles, broad jump, and high jump.

Another man to keep your eye on this weekend is miler Bob O'Leary. O'Leary has been running the mile under 4:20. Last weekend he won both the mile event and two-mile event for the Eagles.

Jimmy Duff, a half-miler, is the key man in the middle distance events. Duff during the past winter was labeled as the outstanding performer in the Greater Boston Intercollegiate Meet. This honor was bestowed upon him by the Boston sports writers. Duff won the 1000 yard run and then ran a strong anchor man on the relay team.

Surprise of the year could be sophomore Bob Kourac who as a frosh threw the javelin over 190 feet.

The Maine Black Bears face the prospect of going into their first outdoor meet the victims of a very thin squad. Depth is one of the items that Coach Ed Styrna does not have.

Although very strong in the weight events with his two point-getters, Terry Horne and Ed Morrison, Styrna does not have enough men to score in vital areas.

Kenny Pinkham and Gardiner Hunt are also expected to give the Maine squad lots of help in the field events. Horne has been reported as throwing the hammer and discus at "eye-opening" distances during practice sessions. Maine should pick up points here.

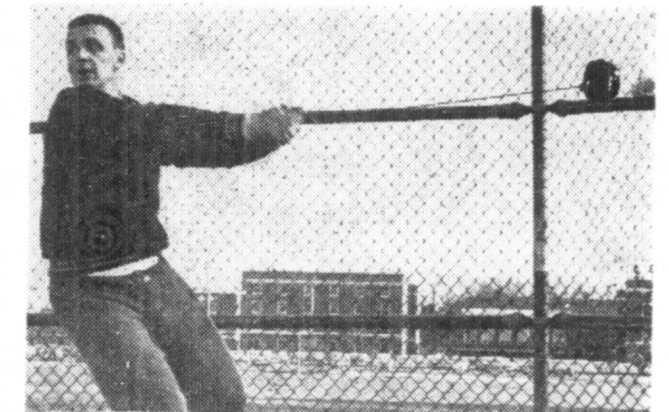

Will Spencer, currently the Yankee Conference record holder in the 880, will be competing in this event and the javelin throw. Bob Lucas, despite an injured hand, will be looking for a strong throw in the javelin also.

Bob Donovan and Larry Safford are Maine's best runners in the dash events, while Art "Ace" Conro will be counted on heavily for a featured performance in the quarter-mile.

Maine's foursome of Rollie Dubois, Al Nichols, Winston Crandell, and John Dudley will handle the pole vault event while Roger Hale will jump for the Black Bears in the high jump and broad jump.

Cliff Ives, still nursing a pulled muscle, is expected to score in the two hurdle events. These two events may be Maine's weakest spots.

Coach Styrna, despite Maine's thin ranks, still expects his Big Blue squad to give the Eagles a race till the finish.

Look out, spectators!! Terry Horne, Maine's ace hammer thrower, is ready to throw another record away.

Maine Golfers Open Season

The varsity golf team travels to Connecticut and Rhode Island this weekend for a full round of golf activities. These two matches will be the first for the Black Bears who are eager to start their quest for the Yankee Conference title.

Both matches at Storrs and Kingston are triangular affairs. On Friday, the Maine team squares off against the Huskies and Wesleyan College. The match will be played at the Willimantic Country Club. On Saturday the Maine team fires against the Rams and Bates College.

Both Yankee Conference squads defeated the Bears last season. Connecticut swallowed Maine, 5-2 while Rhode Island blanked the Bears 7-0. In a return match with the Rams, the Maine team squeaked out a 4-3 decision.

It is expected that Maine's Art Dickson will play against Connecticut's captain Jackson Mikel. Mikel, who is rated as the best golfer on the Connecticut squad, was the winner at last year's New England Medalist play. Dickson is the State of Maine's Intercollegiate champion.

Another strong golfer for the Huskies is a Maine product, Jack Morrison, from Brunswick. Captain George Lufkin will be expected to stop Morrison.

Down at Kingston, the Bear golfers will be faced with similar problems. The Rams are loaded with experienced men who are ready to capture the Conference title this season.

A seven man squad will leave on Thursday for the weekend of golf.
